The Roots of Separatism in Palestine

British Economic Policy, 1920-1929

BARBARA J. SMITH

"A first-rate scholarly treatment of a neglected aspect of the history of mandatory Palestine. . . . It is the first study that I know of that, based on archival sources, analyses British economic policies regarding a wide range of economic issues. In addition, the work develops a cogent, fresh, and non-partisan interpretation. No scholar of the Palestine problem, the Yishuv, the Palestinians and Israel can ignore this work."

—Philip Matson, Executive Director,
The Institute for Palestine Studies

A thorough analysis of the economic development of Palestine during the first years of British mandatory rule and, in particular, of the British government's preferential policy regarding Jewish settlement and enterprise sets the tone for this groundbreaking study.

The Zionist settler movement, unable to make much headway under Ottoman rule, was nurtured by, and eventually thrived within, the British Mandate, which was inaugurated in 1920. The British policy of actively encouraging Zionist economic development through preferential treatment also contributed to the economic division of the country along ethnic lines, leading ultimately to the division of Palestine and to the establishment of the state of Israel. Thus the true roots of separatism between the Zionists and the Palestinian Arabs were economic, not political.

Roots Of Separatism In Palestine:

The Roots of Separatism in Palestine Barbara J. Smith, 1993-07-01 A thorough analysis of the economic development of Palestine during the first years of British mandatory rule and in particular of the British government's preferential policy regarding Jewish settlement and enterprise sets the tone for this groundbreaking study Using a wealth of previously unpublished documentation the author proves that British mandatory policy provided the perfect environment for the growth of a largest and more homogeneous Zionist enclave which in turn led to the inevitable split in Palestine's economy

The Iron Cage Rashid Khalidi, 2024-01-18 A brilliant and sobering critique of the Palestinian failure to achieve statehood by a major Palestinian historian and political commentator At a time when a lasting peace between Palestinians and Israelis seems virtually unattainable understanding the roots of the longest running conflict in the Middle East is an essential step in restoring hope to the region In *The Iron Cage* Rashid Khalidi one of the most respected historians and political observers of the Middle East examines the Palestinian's struggle for statehood presenting a succinct and insightful history of the people and their leadership throughout the twentieth century Ranging from the Palestinian struggle against colonial rule and the establishment of the State of Israel through the eras of the PLO the Palestinian Authority and Hamas this is an unflinching and sobering critique of the Palestinian failure to achieve statehood as well as a balanced account of the odds ranged against them Lucid yet challenging Rashid Khalidi's engrossing narrative of this tortuous history is required reading for anyone concerned about peace in the Middle East

Palestine's Christians and the Nationalist Cause Erik Freas, 2024-12-23 This book provides an historical overview of Palestine's Christian communities and their role in the Palestinian nationalist movement during the late Ottoman and British mandatory periods More than being a history of Palestine's Christian Arabs the book focuses on Palestine's Christians during the formative period of Palestinian Arab national identity attentive to the broader topic of the relationship between nationalism and religion in this case between Arab identity and Islam Whereas until recently historians have tended to assume that national and religious identities are distinct and mostly mutually exclusive things more recent scholarship has addressed the fact that often there exists considerable overlap between the two though it should be noted often in ways that are not by any means inherently exclusive of those not belonging to the majority faith as is the case here The relationship is also an ever changing one hence the final chapter of the book which functions as something of an epilogue regarding the current status of Palestine's Christians vis vis their place in the nationalist cause and relationship with the broader Muslim population The book will be of interest to historians and scholars focused on the modern Middle East Palestinian history Muslim Christian inter communal relations and the relationship between nationalism and religion

The Israeli Palestinians Alexander Bligh, 2004-08-02 One of the most crucial issues to affect national policy in the state of Israel is that of relations between its Jewish and Arab citizens This edited collection offers a comprehensive analysis of the most significant factors to have contributed to current conditions

The Politics of Mass Violence in the

Middle East Laura Robson,2020-09-17 The Middle East today is characterized by an astonishingly bloody civil war in Syria an ever more highly racialized and militarized approach to the concept of a Jewish state in Israel and the Palestinian territories an Iraqi state paralyzed by the emergence of class and region inflected sectarian identifications a Lebanon teetering on the edge of collapse from the pressures of its huge numbers of refugees and its sect bound political system and the rise of a wide variety of Islamist paramilitary organizations seeking to operate outside all these states The region s emergence as a zone of violence characterized by a viciously dystopian politics of identity is a relatively recent phenomenon developing only over the past century but despite these shallow historical roots the mass violence and dispossession now characterizing Syria Lebanon Israel Palestine and Iraq have emerged as some of the twenty first century s most intractable problems In this study Laura Robson uses a framework of mass violence encompassing the concepts of genocide ethnic cleansing forced migration appropriation of resources mass deportation and forcible denationalization to explain the emergence of a dystopian politics of identity across the Eastern Mediterranean in the modern era and to illuminate the contemporary breakdown of the state from Syria to Iraq to Israel *Western Imperialism in the Middle East 1914-1958* D. K. Fieldhouse,2006-04-06 The term Fertile Crescent is commonly used as shorthand for the group of territories extending around the Rivers Tigris and Euphrates Here it is assumed to consist of Syria Lebanon Jordan Iraq and Palestine Much has been written on the history of these countries which were taken from the Ottoman empire after 1918 and became Mandates under the League of Nations For the most part the histories of these countries have been handled either individually or as part of the history of Britain or France In the first instance the emphasis has normally been on the development of nationalism and local resistance to alien control in a particular territory leading to the modern successor state In the second most studies have concentrated separately on how either France or Britain handled the great problems they inherited seldom comparing their strategies The aim of this book is to see the region as a whole and from both the European and indigenous points of view The central argument is that the mandate system failed in its stated purpose of establishing stable democratic states out of what had been provinces or parts of provinces within the Ottoman empire Rather it generated basically unstable polities and in the special case of Palestine one totally unresolved and possibly unsolvable conflict The result was to leave the Middle East as perhaps the most volatile part of the world in the later twentieth century and beyond The main purpose of the book is to examine why this was so **Palestinian Ethnonationalism in Israel** Oded Haklai,2011-06-15 Arabs make up approximately 20 percent of the population within Israel s borders Until the 1970s Arab citizens of Israel were a mostly acquiescent group but in recent decades political activism has increased dramatically among members of this minority Certain activists within this population claim that they are a national and indigenous minority dispossessed by more recent settlers from Europe Ethnically based political organizations inside Israel are making nationalist demands and challenging the Jewish foundations of the state Palestinian Ethnonationalism in Israel investigates the rise of this new movement which

has important implications for the Palestinian Israeli conflict as a whole Political scientist Oded Haklai has written the first book to examine this manifestation of Palestinian nationalism in Israel Drawing on extensive fieldwork and interviews with key figures Haklai investigates how the debate over Arab minority rights within the Jewish state has given way to questioning the foundational principles of that state This ground breaking book not only explains the transitions in Palestinian Arab political activism in Israel but also presents new theoretical arguments about the relationship between states and societies Haklai traces the source of Arab ethnonationalist mobilization to broader changes in the Israeli state such as the decentralization of authority an increase in political competition intra Jewish fragmentation and a more liberalized economy Palestinian Ethnonationalism in Israel avoids oversimplified explanations of ethnic conflict Haklai s carefully researched and insightful analysis covers a neglected aspect of Israeli politics and Arab life outside the West Bank and Gaza Scholars and policy makers interested in the future of Israel and peace in the Middle East will find it especially valuable **The Lost**

Orchard Mustafa Kabha, Nahum Karlinsky, 2021-06-30 The Palestinian Nakba catastrophe of 1948 devastated Palestinian lives and shattered Palestinian society culture and economy It also nipped in the bud a nascent grassroots binational alliance between Arab and Jewish citrus growers This significant and unprecedented partnership was virtually erased from the collective memory of both Israelis and Palestinians when the Nakba decimated villages and populations in a matter of months In The Lost Orchard Kabha and Karlinsky tell the story of the Palestinian citrus industry from its inception until 1950 tracing the shifting relationship between Palestinian Arabs and Zionist Jews Using rich archival and primary sources as well as on a variety of theoretical approaches Kabha and Karlinsky portray the industry s social fabric and stratification detail its economic history and analyze the conditions that enabled the formation of the unique binational organization that managed the country s industry from late 1940 until April 1948 **Palestinian Rituals of Identity** Awad Halabi, 2023-01-17 An innovative approach to modern Palestinian history as viewed through a study of the Prophet Moses festival from the mid nineteenth to the mid twentieth century

Jewish Consumer Cultures in Nineteenth and Twentieth-Century Europe and North America Paul Lerner, Uwe Spiekermann, Anne Schenderlein, 2022-01-22 This book investigates the place and meaning of consumption in Jewish lives and the roles Jews played in different consumer cultures in modern Europe and North America Drawing on innovative original research into this new and challenging field the volume brings Jewish studies and the history and theory of consumer culture into dialogue with each other Its chapters explore Jewish businesspeople s development of niche commercial practices in several transnational contexts the imagining marketing and realization of a Jewish national homeland in Palestine through consumer goods and strategies associations between Jews luxury and gender in multiple contexts and the political dimensions of consumer choice Together the essays in this volume show how the study of consumption enriches our understanding of modern Jewish history and how a focus on consumer goods and practices illuminates the study of Jewish religious observance ethnic identities gender formations and immigrant trajectories across

Renton, 2007-10-17 This book offers a new interpretation of a critical chapter in the history of the Zionist Palestine conflict and the British Empire in the Middle East It contends that the Balfour Declaration was one of many British propaganda policies during the World War I that were underpinned by misconceived notions of ethnicity ethnic power and nationalism **The Middle East and the Making of the Modern World** Cyrus

Schayegh, 2017-08-28 How do historians make sense of the spatial layeredness of the past Cyrus Schayegh argues that the modern world's ultimate socio spatial feature is not the oft studied processes of globalization or state formation or urbanization but rather the fast paced mutually transformative intertwinements of cities regions states and global circuits

The War of the Zionist Giants Nick Reynold, 2018-11-16 Two major forces in the creation of the State of Israel in May 1948 were David Ben Gurion and Chaim Weizmann While each giant led very different lives their paths crossed or often clashed as they became major influencers on the world stage They worked together to bring about an independent Jewish state while simultaneously clashing over different political styles and beliefs Weizmann became the President of the Zionist Organization while Ben Gurion worked to oppose him as much as possible This book describes the battle between two very strong and determined giants which took place over 32 years The author explores the lives of each man and what factors led to their differing political beliefs Reynold also examines the specific instances in which the two clashed or worked together to bring about change **The Roots of Separatism in Palestine : British Economic Policy, 1920-1929** Barbara Smith, 2018

Landmark Cases in Public International Law Eirik Bjorge, Cameron Miles, 2017-12-28 The past two hundred years have seen the transformation of public international law from a rule based extrusion of diplomacy into a fully fledged legal system Landmark Cases in Public International Law examines decisions that have contributed to the development of international law into an integrated whole whilst also creating specialised sub systems that stand alone as units of analysis The significance of these decisions is not taken for granted with contributors critically interrogating the cases to determine if their reputation as landmarks is deserved Emphasis is also placed on seeing each case as a diplomatic artefact highlighting that international law while unquestionably a legal system remains reliant on the practice and consent of states as the prime movers of development The cases selected cover a broad range of subject areas including state immunity human rights the environment trade and investment international organisations international courts and tribunals the laws of war international crimes and the interface between international and municipal legal systems A wide array of international and domestic courts are also considered from the International Court of Justice to the European Court of Human Rights World Trade Organization Appellate Body US Supreme Court and other adjudicative bodies The result is a three dimensional picture of international law what it was what it is and what it might yet become
