Lovers In The Present Afternoon:

The Psychology of Today's Woman Toni Bernay, Dorothy Cantor, 2013-05-13 The sexual revolution oft discussed in the journalistic literature of recent years has brought in its wake a host of questions that are only beginning to be addressed How are women coping with real world challenges for which they may be ill prepared both socially and psychologically How successfully are they integrating old and new ego ideals in forging new identities Is their ostensible liberation actually making for a sense of integration and wholeness The Psychology of Today's Woman New Psychoanalytic Visions probes these and related questions from the standpoint of both developmental and therapeutic concerns Taking Freud's notion of female sexuality as a point of departure editors Bernay and Cantor have compiled a collection of original essays that reassesses traditional conceptions of female psychology Section I proffers new visions of femininity Section II and explores critical situations in the lives of contemporary women Section III A final section of the book of special interest to analysts and psychotherapists examines the various facets of the clinical treatment of women Collectively the contributors to this volume articulate a strong challenge to the deficiency model of female identity that has long dominated psychoanalytic theory More impressively still they offer constructive alternatives to the preconceptions of the past They converge in the belief that the richness and diversity of female experience cannot be encompassed in the overly simplified definitions and masculine analogizing of classical analysis Whether we investigate the status of masculinity and femininity as personality traits the relationship between nurturance and aggression in female identity or the meaning of normality and pathology in treatment situations we are very much in a realm of multiple truths in which the formulas of the past give little sense of the options of the present or the possibilities of the future

John Donne, Undone (Routledge Revivals) Thomas Docherty, 2014-06-17

Contemporary criticism of Donne has tended to ignore the historical culture and ideology that conditioned his writings, reinforcing the traditionally accepted model of the poet as a humanist of ethical, cultural, and political individualism. In this title, first published in 1986, Thomas Docherty challenges this with a more rigorously theoretical reading of Donne, particularly in relation to the specific culture of the late Renaissance in Europe. Docherty locates Donne's poetry at the crux of the various scientific, legal, domestic, and rhetorical discourses that surrounded and informed it. With a broadly post-structuralist approach, this reissue will benefit literature students with an interest in the wider study and context of John Donne's work.

Critical Theory Today Lois Tyson, 2014-10-10

This thoroughly updated third edition of *Critical Theory Today* offers an accessible introduction to contemporary critical theory, providing in-depth coverage of the most common approaches to literary analysis today, including feminism, psychoanalysis, Marxism, reader response theory, New Criticism, structuralism, and semiotics; deconstruction; new historicism; and cultural criticism, lesbian, gay, and queer theory; African American criticism; and postcolonial criticism. This new edition features a major expansion of the chapter on postcolonial criticism that includes topics such as Nordicism, globalization, and the end of postcolonial theory; global tourism and global conservation; an extended explanation of each theory using examples from everyday life, popular culture, and literary texts; a list of specific questions critics ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; updated and expanded bibliographies. Both engaging and rigorous, this is a how-to book for undergraduate and graduate students new to critical theory and for college professors who want to broaden their repertoire of critical approaches to literature.
