The Relationship Rights of Children James G. Dwyer, 2006-04-17 This book presents a sustained theoretical analysis of what rights children should possess in connection with state decision making about their personal relationships which the state does in numerous aspects of family law including paternity adoption custody and visitation termination of parental rights and grandparent visitation It examines the nature and normative foundation of adults rights in connection with relationships among themselves and then assesses the extent to which the moral principles underlying adults rights apply also to children It concludes that the law should ascribe to children rights equivalent though not identical to those which adults enjoy and this would require substantial changes in the way the legal system treats children including a reformation of the rules for establishing legal parent child relationships at birth and of the rules for deciding whether to end a parent child relationship

Grief, Loss, and Treatment for Death Row Families Sandra Joy, 2013-12-05 The families of death row inmates are rarely considered in public discourse regarding the death penalty They have largely been forgotten and their pain has not been acknowledged by the rest of society These families experience a unique grief process as they are confronted with the loss of their loved one to death row and brace themselves for the possibility of an execution Death row families are disenfranchised from their grief by the surrounding community and their mental health needs exacerbated as they struggle in isolation with the ambiguous loss that comes with the fear that the state will kill their loved one *Grief Loss and Treatment for Death Row Families* describes the grief that families experience from the time of their loved one's arrest through his or her execution In each chapter Sandra Joy guides the reader through the grief process experienced by the families offering clinical interventions that can be used by mental health professionals who are given the opportunity to work with these families at various stages of their grief The author conducted over seventy qualitative interviews with family members from Delaware who either currently have a loved one on death row or have survived the execution of their loved one Delaware was chosen because though it has a relatively small death row it is ranked third in the nation with its rate of per capita executions This book provides an in depth awareness of the grieving process of death row families as well as ways that professionals can intervene to assist them in healing With increased awareness and effective clinical treatment we can ensure that the families of death row inmates are forgotten no more

Gurian Michael, Kathy Stevens, 2010-12-14 Michael Gurian's blockbuster bestseller *The Wonder of Boys* is the bible for mothers, fathers, and educators on how to understand and raise boys. It has sold over 400,000 copies, been translated into 17 languages, and sells over 25,000 every year, which is more than any other book on boys in history. To follow up on this first book, which launched the boy's movement, he has now written this revolutionary new book which confronts what he and a lot of other parents and teachers in this country truly believe to be a boy's crisis. Here are the facts: Boys today are simply not learning as well as girls. Boys receive 70% of the Ds and Fs given all students. Boys cause 90% of classroom discipline problems. 80% of all high school dropouts are boys. Millions of American boys are on Ritalin and other mind-bending control drugs. Only 40% of college students are boys. And three out of four learning disabled students are boys. So what can we do? Gurian has the answer in this enormously fascinating and practical book, which shows parents and teachers how to help boys overcome their current classroom obstacles by helping to create the proper learning environment, understand how to help boys work with their unique natural gifts, nurture and expand every bit of their potential, and enabling them to succeed in life the way they ought to. Gurian presents a whole new way of solving the problem based on the success of his program in schools across the country, the latest research, and application of neurobiological research on how boys' brains actually work and how they can learn very well if they're properly taught. Anyone who cares about the future of our boys must read this book.

Educating the Net Generation Bob Pletka, 2007-07-01 *Educating the Net Generation: How to Engage Students in the 21st Century* addresses the national problem of escalating high school dropout rates and student disengagement and offers solutions as to how to best involve students of the millennial generation. The book examines the unique characteristics of the Net Generation and explains how the educational expectations and needs of the Net Generation differ from their Gen X parents and Baby Boomer grandparents. It also looks at why many students resist engaging in formalized education in schools and ultimately drop out. Chapters featuring student interviews and photographs synthesize the perspectives of current high school students regarding their experiences, beliefs, and thoughts on learning, while a parallel set of parent interviews reveals what parents feel is important in their child's education and how they would like to see schools engage their children in learning. Recommendations for changes in school policy and the financial investment critical to turning the situation around are also included, along with an inventory checklist for parents, teachers, and school administrators to determine if their individual school environment has what it takes to keep students motivated and engaged.

International Handbook of Victimology Shlomo Giora Shoham, Paul Knepper, Martin Kett, 2010-02-23 In the nearly four decades since the First International Symposium on Victimology convened in Jerusalem in 1973, some concepts and themes have continued to hold a prominent place in the literature, while new ones have also emerged. Exploring enduring topics such as conceptions of victimhood, secondary and hidden victimization, and social services for victims.

Nurture the Nature Michael Gurian, 2009-01-26 From Michael Gurian, the best-selling author of *The Minds of Boys* and *The Wonder of Girls*, comes the next step book that shows

how any parent can tune into a child's unique core personality, hard wiring, temperament and genetic predisposition in order to help that child flourish and thrive. Based on the most recent brain research, *Nurture the Nature* features the Ten Tips for Nurturing the Nature of Your Baby, self-tests, checklists and many other tools for you to help your kids get exactly the kind of support they need from infants to adolescents. While offering positive ideas for nurturing your child, Gurian also shows how to avoid the stress pressures and excessive competition of what he identifies as social trends parenting. Most parents know instinctively that their child is unique and has special potential, weaknesses and strengths. No child is a blank slate. Gurian calls on parents to turn away from one-size-fits-all approaches and instead support the individual core nature of a child with effective and customized loving care.

The Purpose of Boys Michael Gurian, 2010-08-30 The final and conclusive book in the groundbreaking series on boys and their development. In this climax to his series of landmark books about boys, Michael Gurian offers a powerful new program to help us give our sons a core purpose, a program based on building morality, character, career goals, the ability to form intimate relationships, selflessness, personal and community responsibility and an accelerated process of developmental maturity. Gurian reveals how important purpose is for the success and happiness of boys and explains how a boy's core personality, nature and genetic predisposition functions to create both strengths and weaknesses in their journey towards maturity. Includes an innovative program for support and interventions according to the unique needs, weaknesses and strengths of each individual young man. This book is the follow-up to Gurian's bestselling *The Minds of Boys*. Draws on the latest science and field research on how boys develop neurologically. Gurian explores the unique issues boys must confront and shows how their strategy for moral development and success in life is predicated on their nature and genetic predispositions.
