Luce Irigaray And The Question Of The Divine

Luce Irigaray And The Question Of The Divine:

Luce Irigaray and the Question of the Divine Alison Martin, 2000 This study examines Luce Irigaray's oeuvre through the question of the divine focusing upon her contention that women need a female divine if they are about to become subjects. It attempts to demonstrate that the issue of the divine should not be considered as one aspect of her thought but that it is central to her philosophy of sexual difference. Hence Irigaray's critique of patriarchy is presented as a critique of the dominance of a religion of masculinity that favours a single universal. Her proposal for two sexed universal divines is explored along with her specific suggestions for female divine ideals. Particular emphasis is given to her engagements with Marx, Nietzsche and Hegelianism and to the mode of her adoption of Christianity. The study applauds the radical profundity of Irigaray's philosophy of sexual difference while remaining critical of the universalism in her notion of the divine for the doubt it casts upon the realization of a sexed culture.

Irigaray, Incarnation and Contemporary Women's Fiction Abigail Rine, 2013-08-01 Drawing on the provocative recent work of feminist theorist Luce Irigaray, *Irigaray Incarnation and Contemporary Women's Fiction* illuminates the vital and subversive role of literature in rewriting notions of the sacred. Abigail Rine demonstrates through careful readings how a range of contemporary women writers from Margaret Atwood to Michelle Roberts and Alice Walker think beyond traditional religious discourse and masculine models of subjectivity towards a new model of the sacred one that seeks to reconcile the schism between the human and the divine, between the body and the word. Along the way, the book argues that literature is the ideal space for rethinking religion precisely because it is a realm that cultivates imagination, mystery and incarnation.

The Discovery of Anxiousness Joana Serrado, 2023-12-04 Are anxiety or dread negative stages before freedom, a confrontation with humans' own mortality and finitude? Joana Serrado inaugurates anxiousness as a category of mystical knowledge in this innovative historical and philosophical study. Based on the life and mystical writings of Joana de Jesus, a Cistercian nun, intellectual disciple of Teresa of Avila, this study shows the cultural embeddedness of anxiousness, a feeling akin to the Portuguese term *saudade* (yearning, *Sehnsucht*). A mystical project that reshapes feminist principles of autonomy, agency and desire.

Motherly Rebekah Pryor, 2022-01-31 How can contemporary art reimagine the body of the mother in relation to a feminist Christian conception of the divine? And at the level of culture, what might be the implications of the maternal body imaged as ordinary, multiple, generative and divine? Following movements in her own visual art practice and traversing the discourses of feminist theory, contemporary art and philosophy of religion, artist and scholar Rebekah Pryor considers philosopher Luce Irigaray's key notions of sexual difference, the sensible, the transcendental and love at work in thinking on the way to proposing alternate artistic and theological motifs of the maternal body and the divine for our time. Five new motifs emerge, challenging iconographic conventions and proposing an expanded vision of the mother and the divine in feminist theology and contemporary art.

Immanent Transcendence Patrice Haynes, 2012-08-23 Over the last twenty years materialist thinkers in the continental tradition have increasingly emphasized the category of immanence Yet the turn to immanence has not meant the wholesale rejection of the concept of transcendence but rather its reconfiguration in immanent or materialist terms an immanent transcendence Through an engagement with the work of Deleuze Irigaray and Adorno Patrice Haynes examines how the notion of immanent transcendence can help articulate a non reductive materialism by which to rethink politics ethics and theology in exciting new ways However she argues that contrary to what some might expect immanent accounts of matter and transcendence are ultimately unable to do justice to material finitude Indeed Haynes concludes by suggesting that a theistic understanding of divine transcendence offers ways to affirm fully material immanence thus pointing towards the idea of a theological materialism

Post-Secular Philosophy Philip Blond, 2002-11-01 From Nietzsche to the present the Western philosophical tradition has been dominated by a secular thinking that has dismissed discussion of God as largely irrelevant In recent years however

the issue of theology has returned to spark some of the most controversial debates within contemporary philosophy. Discussions of theology by key contemporary philosophers such as Derrida and Levinas have placed religion at centre stage. Post Secular Philosophy is one of the first volumes to consider how God has been approached by modern philosophers and consider the links between theology and postmodern thought. Fifteen accessible essays present a clear and compelling picture of how key thinkers including Descartes, Nietzsche, Freud, Wittgenstein, Heidegger and Derrida have made God a central part of their thinking. Each philosopher and how they have approached and criticised theology is placed in a clear historical context. Placing the collection in context with Phillip Blond's outstanding introduction, Post Secular Philosophy presents a fascinating discussion of the alternatives to the relativism and nihilism that dominate Western thinking.

Feminist Interpretations of Martin Heidegger Nancy J. Holland, Patricia Huntington, 2010-11-01. The 14 essays included in this collection illustrate the ways in which feminist readings can deepen understanding of Heidegger's philosophy. They illuminate both the richness and the limitations of the resources Heidegger's work can provide for feminist thought.

Testing the Boundaries Patricia 'Iolana, Samuel Tongue, 2011-01-18. As individuals we have the ability, although not always the opportunity, to create our own paradigmatic image of the Divine; moreover, as a society we can alter, transform or even replace those paradigms. Progressive movements exist in nearly every faith tradition, moving towards the future of our world and our belief systems; these movements include both radical and reformist thinkers and they are challenging the lenses that we employ to image worship, connect with and understand the Divine. With so many possible interpretations and paradigms competing for social acceptance and support, the choice must be made carefully and wisely, bearing in mind the inevitability of change whilst remaining open to pluralities of thought and practice. This is especially important when it comes to the future of theology and religious studies, in particular to the relations between the various global faith traditions. In *Testing the Boundaries*, ten scholars explore the praxis of faith, including our image of Self in relation to the Divine, our relation to the religious Other, our struggle for religious identity in new locales, the limits of language and translations in sacred texts, our responsibility to nature, our nomadic and transitory tendencies, traditions in the academy and our interreligious relationships. They test the boundaries of traditional theology and their interdisciplinary fields, dancing in the liminal space where possibilities gather.

Religion and European Philosophy Philip Goodchild, Hollis Phelps, 2017-04-13. *Religion and European Philosophy: Key Thinkers* from Kant to i ek draws together a diverse group of scholars in theology, religious studies and philosophy to discuss the role that religion plays among key figures in the European philosophical tradition. Designed for accessibility, each of the thirty-four chapters includes background information on the key thinker, an overview of the main themes, concepts and concerns that occupy his or her attention, and a discussion of the religious and theological elements present in his or her thought in light of contemporary issues. Given the scope of the volume, *Religion and European Philosophy* will be the go-to guide for understanding the religious and theological dimensions of European

philosophy for both students and established researchers alike **Vatican Council II** Elizabeth Harrington, David Orr, Carmel Pilcher, 2013-08-31 Sacrosanctum Concilium opened the door to all Christians to understand the contemporary challenge to their life and health and it started with the reform of the liturgy In the words of Paul VI the liturgy is the first source of life communicated to us the first school of our spiritual life the first gift we can give to Christian people by our believing and praying and the first invitation to the world That is surely true for all of us *Sexual Subversions* Elizabeth Grosz, 2020-09-02 Sexual Subversions introduces the works of three well known if not well read French feminists Julia Kristeva Luce Irigaray and Micele Le Doeuff It provides a map of an area where there are few detailed discussion of the achievements of these difficult yet immensely rewarding writers In doing so this overview raises issues of general relevance to feminist research it participates in debates around the nature of feminist theory the relations feminist intellectuals have to male dominated knowledges and the strategies appropriate for developing non patriarchal autonomous or woman centred knowledges No book in French feminists would be complete without including the contributions of Kristeva and Irigaray The inclusion of Le Deouff s work which brings a different perspective to bear on the question of sexual difference provides a counterbalance to literary appropriations of French feminism by Anglo American readerships Kristeva Irigaray and Le Deouff are the focal points of this study precisely because each highlights the differences of the others revealing the frameworks to which the others are committed Nevertheless while these writers do not present a common political or theoretical position or form a school each addresses the question of women s autonomy from male definition affirms the sexual specificity of women seeks out a femininity women can use to question the patriarchal norms and ideals of femininity and rejects the preordained positions patriarchy allots to women *Terms of Continental Philosophy* Steven Galt Crowell, Margaret A.
