Ludwig Wittgenstein Personal Recollections:

Ludwig Wittgenstein Ludwig Wittgenstein,1981 Ludwig Wittgenstein, Personal Recollections Rush Rhees,1981

The A to Z of Wittgenstein's Philosophy Duncan Richter,2010-02-12 Ludwig Wittgenstein 1889 1951 was undoubtedly one of the most important philosophers of the 20th century and perhaps of any century He was also a fascinating charismatic and irritating man His philosophical ability was recognized almost immediately by Bertrand Russell and during his lifetime his work influenced first logical positivism and then ordinary language philosophy Since then it has also become central in post analytical philosophical thought Beyond the world of academic philosophy it has inspired playwrights poets novelists architects filmmakers and biographers The A to Z of Wittgenstein s Philosophy is intended for anyone who wants to know more about the philosophy and the life of this enigmatic thinker The book contains an introductory overview of his life and work a timeline of the major relevant events in and after his life an extensive bibliography and above all an A Z of ideas people and places that have been involved in his philosophy and its reception The dictionary is written with no particular agenda and includes entries on philosophers and others who influenced Wittgenstein those he influenced in turn and some of the main figures in contemporary Wittgenstein scholarship Suggestions for further reading are also included as well as a guide to the literature on Wittgenstein and a bibliography broken down by subject area **Materialism** Terry

Eagleton,2017-02-07 A brilliant introduction to the philosophical concept of materialism and its relevance to contemporary science and culture In this eye opening intellectually stimulating appreciation of a fascinating school of philosophy Terry Eagleton makes a powerful argument that materialism is at the center of today s important scientific and cultural as well as philosophical debates The author reveals entirely fresh ways of considering the values and beliefs of three very different materialists Marx Nietzsche and Wittgenstein drawing striking comparisons between their philosophies while reflecting on a wide array of topics from ideology and history to language ethics and the aesthetic Cogently demonstrating how it is our bodies and corporeal activity that make thought and consciousness possible Eagleton s book is a valuable exposition on philosophic thought that strikes to the heart of how we think about ourselves and live in the world The Marrano Way

Agata Bielik-Robson,2022-05-09 The Marrano phenomenon is a still unexplored element of Western culture the presence of the borderline Jewish identity which avoids clear cut cultural and religious attribution and precisely as such prefigures the advent of the typically modern free oscillating subjectivity Yet the aim of the book is not a historical study of the Marranos or conversos who were forced to convert to Christianity but were suspected of retaining their Judaism undercover The book rather applies the Marrano metaphor to explore the fruitful area of mixture and cross over which allowed modern thinkers writers and artists of the Jewish origin to enter the realm of universal communication without at the same time making them relinquish their Jewishness which they subsequently developed as a hidden tradition The book poses and then attempts to prove the Marrano hypothesis according to which modern subjectivity derives to paraphrase Cohen out of the sources of the

hidden Judaism modernity begins not with the Cartesian abstract ego but with the rich self reflexive self of Michel de Montaigne who wrestled with his own marranismo in a manner that soon became paradigmatic to other Jewish thinkers entering the scene of Western modernity from Spinoza to Derrida The essays in the volume offer thus a new view of a Marrano modernity which aims to radically transform our approach to the genesis of the modern subject and shed a new light on its secret religious life as surviving the process of secularization although merely in the form of secret traces

Endgames Albrecht Wellmer, 1998 A common theme of this set of thirteen essays by one of the major figures in contemporary German philosophy is the idea of a postmetaphysical modernity In his preface Wellmer relates the title of his book Endgames to this common theme The historical utopias of the Marxist tradition and the programs of ultimate justification in the Kantian tradition are both endgames within metaphysics the deconstruction of those utopias and programs of ultimate justification are endgames played with metaphysics and the game with an end as ultimate telos the end s of history the end s of knowledge the end s of human life is metaphysics The title Endgames finally also refers polemically to postmodernist games with an end of modernity as opposed to these Wellmer defends the fragile moral and political substance of the modernity that postmodernists attempt to overcome and that sense of what needs to be preserved of the modern tradition for a postmetaphysical modernity is what makes his writings unique In the first of the book s three parts Negative and Communicative Freedom Wellmer focuses on political philosophy examining in particular the links and tensions between liberal basic rights and modern ideas of democracy In Part II Postmetaphysical Perspectives he attempts to develop a postmetaphysical perspective on aesthetics and metaphysics with and against Adorno on the problem of truth with and against Richard Rorty Jürgen Habermas and Karl Otto Apel and on hermeneutics with and against Hans Georg Gadamer and Karl Otto Apel Part III Images of the Times contains occasional pieces on Ludwig Wittgenstein the Frankfurt School Hans Jonas and architecture The book closes with an appended critical essay on Hannah Arendt reflecting the importance of Arendt s political philosophy to Wellmer s work

Wisdom, Information and Wonder Mary Midgley, 2002-09-11 In this book one of Britain s leading philosophers tackles a question at the root of our civilisation What is knowledge for Midgley rejects the fragmentary and specialized way in which information is conveyed in the high tech world and criticizes conceptions of philosophy that support this mode of thinking

Portraits of Wittgenstein F. A. Flowers, 1999 This work features a collection of memoirs recollections and articles on the life of Ludwig Wittgenstein 1889 1951 primarily by those who knew him It reveals many features of his character and his influence on the lives of those he met Personalities in his intellectual and social circle included Bertrand Russell G E Moore F R Leavis A J Ayer Karl Popper G H von Wright and Rush Rees

Portraits of Wittgenstein F.A. Flowers III, Ian Ground, 2018-07-26 Portraits of Wittgenstein is a major collection of memoirs and reflections on one of the most influential and yet elusive personalities in the history of modern philosophy Ludwig Wittgenstein Featuring a wealth of illuminating and profound insights into Wittgenstein s extraordinary life this

unique collection reveals Wittgenstein's character and power of personality more vividly and comprehensively than ever before. With portraits from more than 50 figures, *Portraits of Wittgenstein* brings together the personal recollections of philosophers, students, friends, and acquaintances including Bertrand Russell, G. E. Moore, F. R. Leavis, A. J. Ayer, Karl Popper, Friedrich von Hayek, G. H. von Wright, Freeman Dyson, Iris Murdoch, Mary Midgley, and Mary Warnock. These authors testify to the life-long influence Wittgenstein had on the lives of those he met. Their fascinating memoirs, reflections, and commentaries often at odds with each other, reveal Wittgenstein's kindness and how much genuine friendship meant to him, as well as his suffering and despair. They show too how the philosopher's ruthless honesty and uncompromising integrity often resulted in stern advice and harsh rebukes to friends and foes alike. Now abridged and available in paperback, this collection of valuable and hard-to-find material is an indispensable resource for scholars and students of the life and work of Ludwig Wittgenstein.

Journal of Indian Council of Philosophical Research, 2007 *Risk Management* Anthony Holiday, 1988. First published in 2000, *Risk Management* is a two-volume set comprised of the most significant and influential articles by the leading authorities in the studies of risk management. The volumes include a full-length introduction from the editor, an internationally recognized expert, and provides an authoritative guide to the selection of essays chosen and to the wider field itself. The collections of essays are both international and interdisciplinary in scope and provide an entry point for investigating the myriad of study within the discipline. **JBSP** British Society for Phenomenology, 1988 **Wittgenstein's Tractatus and the Modern Arts** Jorn K. Bramann, 1985 **National Union Catalog**, 1982. Includes entries for maps and atlases. *Logical Necessity* Ian Graham McFetridge, 1990 **Michigan Law Review**, 2003 *Choice*, 1989 **To Broaden the Way** Galia Patt-Shamir, 2006. *To Broaden the Way* suggests that the texts of both the Jewish and Confucian tradition talk in riddles of a special kind, riddles which are introduced and answered by religious forms of life. Using a dialogue of riddles, Galia Patt-Shamir presents a comparative perspective of Confucianism and Judaism regarding the relatedness between contradictory expressions in texts and living conflicts. The Confucian riddle is characterized here as a mystery to be deciphered by self-reflection under the assumptions of a harmonious community and a unity of being. The Jewish riddle is characterized as a test to be responded to under the assumption of a disharmonious community and a necessary rapture in reality. This book expands the dialogue between traditions and offers both a method and an implication of the question: what is religion about? **On Last Things** Otto Weininger, 2001. With his suicide in 1903 at the age of 23, Otto Weininger became a central figure in the mythology of fin de siècle Vienna. This volume of essays, published posthumously, is a sequel to his book *Sex and Character*, which was banned by Nazi censors. This is its first translation into English. **Pursuits of Reason** Stanley Cavell, 1993.

Ludwig Wittgenstein Personal Recollections Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the energy of words has be much more evident than ever. They have the capability to inspire, provoke, and ignite change.
