President's Commission on Economy and Efficiency,1912      **Dear Mr. President** Beverly Cardozo,2010-06-16 The Bush administration left this country in a state of economic recession and a grim tour of American History The American people are struggling to survive by reinventing ourselves through a sweeping historical event Barack Obama is trying to restore America by promising change to make America regain its dignity by bailing out huge corporations and financial institutions with his stimulus plans Dear Mr President a letter written in form of a book addressing president Obama of his uncertainty leadership and what he is trying to achieve for the American people This book is based solely on my beliefs opinions and how Americans have fallen along the wayside We need to take back America because we have the power Obama needs to restore our faith and trust in the government again and that is no easy task because politicians have to be willing to say things that have true meaning This is a much bigger plan that you bargained for and I hope America will be strong again To do this we must be a community willing to look out for each other helping those that are down and giving a pathway to success      **Plotting to Kill the President** Mel Ayton,2017-02-01 A history of plotters would be assassins and individuals who have threatened the lives of American presidents from Washington to Hoover and the story of the guards agents and officers who protected them      **The President's Legislative Policy Agenda, 1789-2002** Jeffrey E. Lee, 2024-05-23 The President s Dilemma in Asia provides one of the first comprehensive and comparative theory of presidential government formation In the authoritarian era presidents had greater control over key institutional actors in the process such as the legislature the ruling party and the bureaucracy However after democratic transition they have to navigate competing pressures from these political institutions This book highlights the major trade off that presidents of new democracies face in their relationship with the different political institutions the so called president s dilemma and their strategy in dealing with the dilemma Existing studies of presidential government formation in new democracies have largely overlooked the entirety of the structure of the political institutions surrounding the president and its impact on the president

s government formation strategy This book offers a view that government formation is a window to understanding how presidents weigh the benefits of appointing ministers representing different political institutions under a variety of given institutional circumstances The question of which institution presidents attempt to accommodate through government formation is a high stakes one and addressing it is important because particular patterns of personnel distribution can influence the kind of policies political leaders adopt and the level of accountability and responsiveness to constituents these policies represent Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterized by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The series is edited by Nicole Bolleyer Chair of Comparative Political Science Geschwister Scholl Institut LMU Munich and Jonathan Slapin Professor of Political Institutions and European Politics Department of Political Science University of Zurich Talking with the President John Wilson, 2015-03-04 This book provides a Pragmatic analysis of presidential language focusing on the language of six Presidents John F Kennedy Richard M Nixon Ronald W Reagan William F Clinton George W Bush and Barack H Obama
