The Fians; or, Stories, poems & traditions of Fionn and his warrior band, collected by J.G. Campbell, with intr. and bibliogr. notes by A. Nutt Fenians, John Gregorson Campbell, 1891 **Traditions of Heroic and Epic Poetry: Characteristics and techniques** John Bryan Hainsworth, Arthur Thomas Hatto, 1980 Direct Speech in Beowulf and Other Old English Narrative Poems Élise Louviot, 2016 A new examination of the little studied phenomena of Direct Speech in Old English poetry Some of the most celebrated passages of Old English poetry are speeches Beowulf and Unferth s verbal contest Hrothgar s words of advice Satan s laments Juliana s words of defiance etc Yet Direct Speech as a stylistic device has remained largely under examined and under theorized in studies of the corpus As a consequence many analyses are unduly influenced by anachronistic conceptions of Direct Speech leading to problematic interpretations not least concerning irony and implicit characterisation This book uses linguistic theories to reassess the role of Direct Speech in Old English narrative poetry Beowulf is given a great deal of attention because it is a major poem and because it is the focus of much of the existing scholarship on this subject but it is examined in a broader poetic context the poem belongs to a wider tradition and thus needs to be understood in that context The texts examined include several major Old English narrative poems in particular the two Genesis Christ and Satan Andreas Elene Juliana and Guthlac A Elise Louviot is a Lecturer at the University of Reims Champagne Ardenne France and a specialist of Old English poetry Her research interests include orality tradition formulas and the linguistic expression of subjectivity Chinese Narrative Poetry Dore Jesse Levy, 1988 Chinese Narrative Poetry brings a new perspective to some of China s best loved and most influential poems including Ts ai Yen s Poem of Affliction Po Chu yi s Song of Everlasting Sorrow and Wei Chuang s recently discovered Song of the Lady of Ch in Composed in the shih form during the Late Han Six Dynasties and T ang periods these poems stand

out as masterworks of narrative art Yet paradoxically their narrative qualities have been little recognized or explored in either traditional Chinese or modern Western scholarship The reason for this neglect is that Western literary traditions acknowledge their origins in epic poetry and thus take narrative for granted but the Chinese tradition is fundamentally based on lyric and does not admit of a separate category for narrative poetry Drawing on both classical Chinese critical works and the most recent Western contributions to the theory of narrative Levy shows how narrative elements developed out of the lyrical conventions of shih In doing so she accomplishes a double purpose guiding the modern reader to an understanding of the nature of narrative in Chinese poetry and shedding light on the ways in which Chinese poets adapted the devices of lyric to the needs of a completely different expressive mode Students of Chinese literature will welcome this pathbreaking study but Chinese Narrative Poetry will interest other scholars as well because it addresses questions of crucial importance for literary theory and comparative literature particularly the central issue of the applicability of Western critical concepts to non Western literature and culture

Narrators, Narratees, and Narratives in Ancient Greek Literature René Nünlist, Angus M. Bowie, Irene de Jong, 2017-07-31 This is the first in a series of volumes which together will provide an entirely new history of ancient Greek narrative literature Its organization is formal rather than biographical It traces the history of central narrative devices such as the narrator and his narratees time focalization characterization description speech and plot It offers not only analyses of the handling of such a device by individual authors but also a larger historical perspective on the manner in which it changes over time and is put to different uses by different authors in different genres The first volume lays the foundation for all volumes to come discussing the definition and boundaries of narrative and the roles of its producer the narrator and recipient the narratees

approach this problem of definition by defining poetry not as a literary genre within a set of genres but as the very manifestation of human imagination the substance which all creative acts derive from **The Contemporary Narrative Poem** Steven P. Schneider,2012-12-15 Over the past thirty years narrative poems have made a comeback against the lyric approach to poetry that has dominated the past century Drawing on a decade of conferences and critical seminars on the topic The Contemporary Narrative Poem examines this resurgence of narrative and the cultural and literary forces motivating it Gathering ten essays from poet critics who write from a wide range of perspectives and address a wide range of works the collection transcends narrow conceptions of narrative antinarrative and metanarrative The authors ask several questions What formal strategies do recent narrative poems take What social cultural and epistemological issues are raised in such poems How do contemporary narrative poems differ from modernist narrative poems In what ways has history been incorporated into the recent narrative poetry How have poets used the lyric within narrative poems How do experimental poets redefine narrative itself through their work And what role does consciousness play in the contemporary narrative poem The answers they supply will engage every poet and student of poetry **On Biblical Poetry** F.W.
