Who Killed American Poetry? Karen L. Kilcup, 2019-10-25 Throughout the 19th century American poetry was a profoundly populist literary form It circulated in New England magazines and Southern newspapers it was read aloud in taverns homes and schools across the country Antebellum reviewers envisioned poetry as the touchstone democratic genre and their Civil War era counterparts celebrated its motivating power singing poems on battlefields Following the war however as criticism grew more professionalized and American literature emerged as an academic subject reviewers increasingly elevated difficult dispassionate writing and elite readers over their supposedly common counterparts thereby separating authentic poetry for intellectuals from popular poetry for everyone else Conceptually and methodologically unique among studies of 19th century American poetry *Who Killed American Poetry* not only charts changing attitudes toward American poetry but also applies these ideas to the work of representative individual poets Closely analyzing hundreds of reviews and critical essays Karen L Kilcup tracks the century's developing aesthetic standards and highlights the different criteria reviewers used to assess poetry based on poets class gender ethnicity and location She shows that as early as the 1820s critics began to marginalize some kinds of emotional American poetry a shift many scholars have attributed primarily to the late century emergence of affectively restrained modernist ideals Mapping this literary critical history enables us to more readily apprehend poetry's status in American culture both in the past and present and encourages us to scrutinize the standards of academic criticism that underwrite contemporary aesthetics and continue to constrain poetry's appeal *Who Killed American Poetry* enlarges our understanding of American culture over the past two hundred years and will interest scholars in literary studies historical poetics American studies gender studies canon criticism genre studies the history of criticism and affect studies It will also appeal to poetry readers and those who enjoy reading about American cultural history

Towards a Romantic Conception of Nature H. R. Rookmaaker, Hendrik Roelof Rookmaaker, 1984-01-01 This study describes in detail the development of Coleridge's attitude to nature as it is reflected in his poetry. It analyses the different stages of Coleridge's search for a meaningful relation to nature from an uncritical adoption of the eighteenth century conventions in his early poetry to a projectionist view in his poems of 1802. It offers challenging new readings of some of Coleridge's major poems like *The Ancient Mariner* and *Dejection: an Ode* and tries to rehabilitate some minor ones like *The Picture*. Attention is also paid to his relation with Wordsworth. It discusses in detail the philosophical background of Coleridge's views and considers the contribution of German thought to his development. As a whole this study affords a new insight into the genesis of romanticism in England.
