Victimhood Nationalism Jie-Hyun Lim,2025-04-01 Nationalism today depends on the perception of victimhood The historical memory of past suffering endows nationalist movements with political legitimacy and a sense of moral superiority Koreans recall Japanese colonial atrocities while Japan commemorates the atomic bombings of Hiroshima and Nagasaki Israel sanctifies the Holocaust and Poland trumpets the Nazi and Soviet occupations Even Germany and Russia perpetrators of historical crimes today cast themselves as victims by pointing to national suffering In this theoretically sophisticated and empirically rich book Jie Hyun Lim offers a new way to understand nationalism and its political instrumentalization of suffering developing the concept of victimhood nationalism and exploring it in a range of global settings He examines relations among Poland Germany Israel Korea and Japan focusing on how memories of colonialism the Holocaust and Stalinist terror have converged and intertwined in transnational spaces With an emphasis on memory formation Lim scrutinizes how perpetrators in Germany and Japan transformed themselves into victims as well as how nationalists in Poland Korea and Israel portray themselves as hereditary victims in order to rebut external criticism He considers the construction of nations as victims and perpetrators tracing the interaction of history and memory Ultimately the book contends challenging victimhood nationalism is necessary to overcome the endless competition over national suffering and instead promote reconciliation mutual understanding and transnational solidarity **America's War in Vietnam** Larry H.

PaulSchiff Berman,2017-07-05 International law is no longer a sufficient rubric to describe the complexities of law in an era of globalization Accordingly this collection situates cross border norm development at the intersection of interdisciplinary scholarship on comparative law conflict of laws civil procedure cyberlaw legal pluralism and the cultural analysis of law as well as traditional international law It provides a broad range of seminal articles on transnational law making governmental

and non governmental networks judicial influence and cooperation across borders the dialectical relationships among national international and non state legal norms and the possibilities of bottom up and plural law making processes The introduction situates these articles within the framework of law and globalization and suggests four important ways in which such a framework enlarges the traditional focus of international law This book therefore provides a crucial reference for scholars and practitioners seeking to understand the varied processes of norm development in the emerging global legal order

Why Vietnam Margaret Colbert Brown, 2025-03-30 Explores the complex reasons behind the USA s involvement in Vietnam analyzing political social and military factors The reasons behind the USA s

involvement in Vietnam remain a subject of extensive debate Initially America supported the French until their defeat at Dien Bien Phu which then shifted to backing the South Vietnamese government due to fears of communism spreading throughout Southeast Asia Why Vietnam delves into the myriad reasons for US involvement examining theories that date back to 1918 when Woodrow Wilson ignored Ho Chi Minh's plea for independence at the Treaty of Versailles through to Johnson's full commitment to the undeclared war which restrained the military to a defensive role in protecting South Vietnam instead of an offensive one that would send troops across the DMZ into Laos and Cambodia The questions of why the USA became involved whether their involvement was justified and if the war was ever winnable have been fiercely debated for over 50 years This book seeks to address these whys by providing a thorough examination of all contributing factors from presidential actions to foreign policy and the social and political climates of the war era

Memory in a Global Age A. Assmann, S. Conrad, 2010-07-21 A significant contribution to memory studies and part of an emergent strand of work on global memory This book offers important insights on topics relating to memory globalization international politics international relations Holocaust studies and media and communication studies

Shaping US Military Law Joshua E. Kastenberg, 2016-04-01 Since the United States entry into World War II the federal judiciary has taken a prominent role in the shaping of the nation's military laws Yet a majority of the academic legal community studying the relationship between the Court and the military establishment argues otherwise providing the basis for a further argument that the legal construct of the military establishment is constitutionally questionable Centering on the Cold War era from 1968 onward this book weaves judicial biography and a historic methodology based on primary source materials into its analysis and reviews several military law judicial decisions ignored by other studies This book is not designed only for legal scholars Its intended audience consists of Cold War military and political historians as well as political scientists and military and national security policy makers Although the book's conclusions are likely to be favored by the military establishment the purpose of this book is to accurately analyze the intersection of the later twentieth century's American military political social and cultural history and the operation of the nation's armed forces from a judicial vantage

Genocide, Mass Atrocity, and War Crimes in Modern History James Larry Taulbee, 2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law Genocide Mass Atrocity and War Crimes in Modern History Blood and Conscience is an easy to

understand resource that explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs **Vietnam** George Donelson

Moss,2016-07-01 This book provides a comprehensive narrative history of U S involvement in Southeast Asia from 1942 to 1975 with a concluding section that traces U S Vietnam relations from the end of the war in 1975 to the present Unlike most general histories of U S involvement in Vietnam which are either conventional diplomatic or military histories this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth elucidating more of the complexities of the U S Vietnam entanglement It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina and why they failed Key topics The Fall of Saigon The End as Prelude Vietnam A Place and A People The Elephant and the Tiger An Experiment in Nation Building Raising the Stakes Going to War The Chain of Thunders The Year of the Monkey A War to End a War The End of the Tunnel Market For anyone curious to know about the long American involvement in Southeast Asia 1942 1975 *Military Justice in Vietnam* William Thomas Allison,2007 A concise look at how military justice during the Vietnam War served the dual purpose of punishing U S soldiers crimes and infractions while also serving the important role of promoting core American values democracy and rule of law to the Vietnamese
