Psychiatric Nursing Norman L. Keltner, 2013-12-27 Learn the therapeutic skills you need for your role in psychiatric nursing care Psychiatric Nursing uses a practical three pronged approach to psychotherapeutic management that clearly explains how to care for patients with psychiatric disorders It

emphasizes the nurse's three primary tools: themselves, medications, and the environment. Written by Norman L. Keltner, Carol E. Bostrom, and Teena McGuinness, each an educator and advanced practice nurse, this text covers the latest trends and treatments and provides a solid real-world foundation for the practice of safe and effective psychiatric nursing care. Unique! A practical three-pronged approach to psychotherapeutic management includes: 1. the therapeutic nurse-patient relationship, 2. psychopharmacology, and 3. milieu management. Unique! Norm's Notes offer helpful tips from the lead author at the beginning of each chapter, making it easier to understand difficult topics. Unique! Putting It All Together summaries are provided at the end of each chapter. Patient and Family Education boxes highlight information that should be provided to patients and families. Family Issues boxes highlight the issues families must confront when a member suffers from mental illness. Nursing care plans emphasize assessment, planning, nursing diagnoses, implementation, and evaluation for specific disorders. Case studies depict psychiatric disorders and show the development of effective nursing care strategies. Clinical examples from the authors' own experiences illustrate concepts with real-life clinical situations. Learning objectives at the beginning of each chapter preview the important principles to follow. Study Notes summarize each chapter's important content. Critical thinking questions help you expand your clinical reasoning skills. Suicide and Other Self-Destructive Behaviors chapter identifies risk factors associated with suicidality and various forms and characteristics of self-mutilation. War-Related Psychiatric Disorders chapter describes the symptoms and treatment options for posttraumatic stress disorder and traumatic brain injury patients. New approach for Introduction to Milieu Management chapter recognizes the shift of the therapeutic environment from inpatient units to community settings plus nurses' changing roles. New approach for Nutraceuticals and Mental Health chapter focuses on foods that provide health and medical benefits. Student resources on the companion Evolve website include downloadable audio chapter summaries, NCLEX examination style review questions, psychotropic drug monographs, and learning activities.

Leddy & Pepper's Conceptual Bases of Professional Nursing Lucy Hood, 2013-11-26. Easy to read and highly practical. Also new is a unique online Interactive Literature Assessment Tool that gets students thinking critically about the relationship between issues discussed in current journal articles and their future nursing careers. This edition also offers an expanded student resource program which is customizable to the student's level of practice expertise.

Spiritual Capital

Dr Bernadette Flanagan, Dr Michael O'Sullivan, 2012-10-28 Spiritual capital is a concept that is being embraced by a range of theorists in response to the great destruction being wrought by the global economic crisis. Spiritual Capital seeks to refocus discussion on core social values, individual value systems and the internal dynamics that impel human beings to live by truth, goodness and love. Genuine social capital requires the cultivation of spiritual capital. While some scholars approach spiritual capital from the perspective of the beneficial social influence of religious belief and practice, others approach it more broadly as the value of transcendent or artistic human activities which foster contemplative living, stimulate creativity, encourage moral behaviour and motivate individuals. This book defines, refines and disseminates the concept of spiritual capital. Contributions by practitioner scholars in applied spirituality who have practical experience of spiritual capital at work in diverse human situations provide accounts of concrete expressions of spiritual capital and create an interdisciplinary discussion between spirituality practitioners, artists, ecologists, sociologists and others on the frontiers of change in contemporary culture.

Coping with Caring Meredith Mealer, 2019-07-08 Nurses typically go in to the profession of nursing because they want to care for patients, not knowing that the inherent stresses of the work environment put them at risk for developing psychological disorders such as burnout syndrome, posttraumatic stress disorder (PTSD), anxiety and depression. Symptoms of these disorders are often debilitating and affect the nurse's functioning on both a personal and professional level. While environmental and/or organizational strategies are important to help combat stress, oftentimes the triggers experienced by nurses are non-modifiable, including patient deaths, prolonging life in futile conditions, delivering post-mortem care and the feeling of contributing to a patient's pain and suffering. It is paramount that nurses enhance their ability to adapt to their work environment. Resilience is a multidimensional psychological characteristic that enables one to thrive in the face of adversity and bounce back from hardships and trauma. Importantly, resilience can be learned. Factors that promote resilience include attention to physical well-being and development of adaptive coping skills. This book provides the nurse and the administrators who manage them with an overview of the psychological disorders that are prevalent in their profession, first-person narratives from nurses who share traumatic and/or stressful situations that have impacted their career and provide detailed descriptions of promising coping strategies that can be used to mitigate symptoms of distress.
