Nurses Story:

The Nurse's Story Carol Gino, 2010-10-12 With uncompromising honesty Carol Gino strips the TV image to reveal the gritty truths of a nurse's life

A Nurse's Story Tilda Shalof, 2005-02-22 The team of nurses that Tilda Shalof found herself working with in the intensive care unit ICU of a big city hospital was known as Laura's Line. They were a bit wild, smart, funny, disrespectful of authority but also caring and incredibly committed to their jobs. Laura set the tone with her quick remarks. Frances from Newfoundland was famous for her improvised recipes. Justine, the union rep, wore t-shirts emblazoned with defiant slogans like "Nurses Care But It's Not in the Budget". Shalof was the one who had been to university. The others accused her of being sooo sensitive. They depended upon one another. Working in the ICU was both emotionally grueling and physically exhausting. Many patients quite simply were dying and the staff strove mightily to prolong their lives. With their skill, dedication and the resources of modern science, they sometimes were almost too successful. Doctors and nurses alike wondered if what they did for terminally ill patients was not in some cases too extreme. A number of patients were admitted when it was too late even for heroic measures. A boy struck down by a cerebral aneurysm in the middle of a little league hockey game. A woman rescued too late from a burning house. It all took its toll on the staff. And yet on good days they thrived on what they did. Shalof describes a colleague who is managing a crashing patient. I looked at her. Nicky was flushed with excitement. She was doing five different things at the same time, planning ahead for another five. She was totally focused in her element, in control, completely at home with the chaos. There was a huge smile on her face. Nurses like to fix things. If they can. Shalof, a veteran ICU nurse, reveals what it is really like to work behind the closed hospital curtains. The drama, the sardonic humour, the grinding workload, the cheerful camaraderie, the big issues and the small all are brought vividly to life in this remarkable book.

Nursing Stories Nicholas Eschenbruch, 2007 Focusing on terminally ill people in a German hospice, this study addresses the question how meaningful experience is constructed for these patients in an attempt to preserve their dignity as persons. It is based on material from diary texts and active participation of the author in the role of a nurse.

The Call of Nursing William B. Patrick, 2013-05-30 The Call of Nursing is not a typical book about nurses. It takes us behind the curtain of silence that often hangs between us, the patients who rely on the health care system and the women and men who form the backbone of that system and who are entrusted with our intimate care. It lets us hear why nurses today do what they do and it allows those nurses to show us in their own words what has mattered most to them in their professional careers. The twenty-three intimate self-portraits in The Call of Nursing help us see more clearly the kinds of challenges nurses face and accept on a routine basis and offer a rare glimpse into lives of women and men committed to care and service.

Foreword Magazine 2013 Book of the Year Finalist Education

Nurses Matter Verena Tschudin, 1999-11-11 Today's nurses find themselves in the position of having to redefine their identity. They must ask themselves why they matter, what is important about them as professionals and how they contribute as team members. Starting from an ethical standpoint, this book explores

the nature of nursing and the dilemmas facing today's professionals. The author shares her vision of a new kind of professional, a vision which will empower readers to discover fresh meaning in their work and in their role. Stories of Resilience in Nursing Michael Traynor, 2019-08-23. Ideas about resilience and identity continue to be promoted, discussed and debated in nursing. This book uses narratives to explore these complex and important concepts, unsettling our certainties and opening up new perspectives on what they might mean and involve. This engaging book recounts direct and vivid stories told by or about nurses. These vignettes discuss nursing's ideals without idealising them and show nursing work and the lives of nurses in all their complexity. They include contributions from mental health nurses, a former nurse student, nurses, a migrant nurse and a whistle-blowing nurse among others. The book ends with chapter-by-chapter contextual material to promote reflection, discussion and further reading. Written with nursing students preparing to transition to the workplace and professional status in mind, this thought-provoking book is also suitable for nurses and nurse academics interested in resilience and issues around professional identity.
