Hannah,Marion J. Ball,Margaret J.A. Edwards,2013-04-17 This series is intended for the rapidly increasing number of health care professionals who have rudimentary knowledge and experience in health care computing and are seeking opportunities to expand their horizons It does not attempt to compete with the primers already on the market Eminent international experts will edit author or contribute to each volume in order to provide comprehensive and current accounts of in novations and future trends in this quickly evolving field Each book will be practical easy to use and well referenced Our aim is for the series to encompass all of the health professions by focusing on specific professions such as nursing in individual volumes However integrated computing systems are only one tool for improving communication among members of the health care team Therefore it is our hope that the series will stimulate professionals to explore additional me ans of fostering interdisciplinary exchange This se ries springs from a professional collaboration that has grown over the years into a highly valued personal friendship Our joint values put people first If the Computers in Health Care series lets us share those values by helping health care professionals to communicate their ideas for the benefit of patients then our efforts will have succeeded   **Leadership and Nursing** John Daly,Sandra Speedy,Debra Jackson,2014-11-01 Leadership is fundamental to the nature of nursing to ensure the development of safe practice interdisciplinary relationships education research and ultimately the delivery of quality healthcare Leadership and Nursing Contemporary Perspectives 2e presents a global perspective of leadership issues within the Australian context It builds on the premise that nursing leadership is for all nurses not just those who are authorised to hold a position within an organisation In addition this book explores how leadership is not possible until one has an understanding of self and what motivates others The text is aimed at senior undergraduate and postgraduate nursing students making the transition to practice as well as professional nurses seeking to strengthen their clinical practice and governance Nine entirely new

chapters exploring the most up to date leadership issues and themes including Leadership and its influence on patient outcomes Leadership Developing and sustaining self Indigenous leadership in nursing speaking life into each other s spirits Leadership and empowerment in nursing Leadership in the era of Inter professional education in healthcare Leading development of health policy Leadership and the role of Professional Organisations Leading nursing in the Academy Avoiding derailment Leadership strategies for identity reputation and legacy management **Nursing Informatics** Ursula H. Hübner,Gabriela Mustata Wilson,Toria Shaw Morawski,Marion J. Ball,2022-07-25 This new edition of the classic textbook on health informatics provides readers in healthcare practice and educational settings with an unparalleled depth of information on using informatics methods and tools However this new text speaks to nurses and in a departure from earlier editions of this title to all health professionals in direct patient care regardless of their specialty extending its usefulness as a textbook This includes physicians therapists pharmacists dieticians and many others In recognition of the evolving digital environments in all healthcare settings and of interprofessional teams the book is designed for a wide spectrum of healthcare professions including quality officers health information managers administrators and executives as well as health information technology professionals such as engineers and computer scientists in health care The book is of special interest to those who bridge the technical and caring domain particularly nurse and medical informaticians and other informaticians working in the health sciences Nursing Informatics An Interprofessional and Global Perspective contains real life case studies and other didactic features to illustrate the theories and principles discussed making it an ideal resource for use within health and nursing informatics curricula at both undergraduate and graduate level as well as for workforce development It honors the format established by the previous editions by including a content array and questions to guide the reader Readers are invited to look out of the box through a dedicated global perspective covering health informatics applications in different regions countries and continents **The Nursing Informatics Implementation Guide** Eleanor Callahan Hunt,Sara Breckenridge Sproat,Rebecca Rutherford Kitzmiller,2013-03-09 Health institutions are investing in and fielding information technology solutions at an unprecedented pace With the recommendations from the Institute of Medicine around information technology solutions for patient safety mandates from industry groups such as Leapfrog about using infor mation systems to improve health care and the move toward evidence based practice health institutions cannot afford to retain manual practices The installation of multi million dollar computerized health systems repre sents the very life blood of contemporary clinical operations and a crucial link to the financial viability of institutions Yet the implementation of health information systems is exceptionally complex expensive and often just plain messy The need for improvement in the art and science of systems implemen tation is clear up to 70 80% of information technology installations fail The reasons are multi faceted ranging from the complexity of the diverse workflows being computerized the intricate nature of health organizations the knowledge and skills of users to other reasons such as strategies for obtaining key executive support weaving through

the politics peculiar to the institution and technical facets including the usability of systems Thus the art and science of successfully implementing systems remains deeply layered in elusiveness Still given the pervasiveness of system implementa tions and the importance of the outcomes this is a critical topic especially for nurses and informatics nurse specialists

The History of Medical Informatics in the United States Morris F. Collen,Marion J. Ball,2015-10-08 This is a meticulously detailed chronological record of significant events in the history of medical informatics and their impact on direct patient care and clinical research offering a representative sampling of published contributions to the field The History of Medical Informatics in the United States has been restructured within this new edition reflecting the transformation medical informatics has undergone in the years since 1990 The systems that were once exclusively institutionally driven hospital multihospital and outpatient information systems are today joined by systems that are driven by clinical subspecialties nursing pathology clinical laboratory pharmacy imaging and more At the core is the person not the clinician not the institution whose health all these systems are designed to serve A group of world renowned authors have joined forces with Dr Marion Ball to bring Dr Collen s incredible work to press These recognized leaders in medical informatics many of whom are recipients of the Morris F Collen Award in Medical Informatics and were friends of or mentored by Dr Collen carefully reviewed editing and updating his draft chapters This has resulted in the most thorough history of the subject imaginable and also provides readers with a roadmap for the subject well into later in the century   Performance Improvement Through Information Management Marion J. Ball,Judith V. Douglas,2012-12-06 Performance Improvement through Information Management highlights performance improvement and business strategies throughout various health care settings focusing on business drivers and management mechanisms explaining when how and why information technology solutions are of value Structured on three levels Market Environment Transformational Processes and Enabling Technologies the text describes the current state of the art of health care and the shape of things to come and provides practical solutions and strategies for implementing applications of technology within the current context of health care and its transformation This text will be an invaluable reference to the chief executive officers chief information officers senior executives and board members who are shaping health care today and into the 21st century Likewise it will appeal to healthcare administrators and managers healthcare systems specialists and students in advanced healthcare professional and academic programs   Strategies and Technologies for Healthcare Information Marion J. Ball,Judith V. Douglas,David E. Garets,2012-12-06 Changes in health care are at a breakneck pace Regardless of the many changes we have collectively experienced delivering health care has been is and will continue to be an enormously information intensive process Whether caring for a patient or a population whether managing a clinic or a continuum we are in a knowledge exchange business A major task for our industry and the task for chief information officers CIOs is to find and apply improved strategies and technologies for managing healthcare information In a fiercely competitive healthcare marketplace the pressures to suc ceed

in this undertaking and the rewards associated with success are enormous While the task is still daunting we can all be encouraged by progress being made in information management There are documented successes throughout health care and there is growing recognition by healthcare chief executive officers and boards that information strategies and their deployment are essential to organizational efficiency quite pos sibly organizational survival   Transforming Health Care Through Information Nancy M. Lorenzi,Robert T. Riley,Marion J. Ball,Judith V. Douglas,2013-03-09 This series is intended for the rapidly increasing number of health care professionals who have rudimentary knowledge and experience in health care computing and are seeking opportunities to expand their horizons It does not attempt to compete with the primers already on the market Eminent international experts will edit author or contribute to each volume in order to provide compre hensive and current accounts of innovations and future trends in this quickly evolving field Each book will be practical easy to use and well referenced Our aim is for the series to encompass all of the health profes sions by focusing on specific professions such as nursing in indi vidual volumes However integrated computing systems are only one tool for improving communication arnong members of the health care team Therefore it is our hope that the series will stimulate profes sionals to explore additional means of fostering interdisciplinary exchange This series springs from a professional collaboration that has grown over the years into a highly valued personal friendship Our joint values put people first If the Computers in Health Care series lets us share those values by helping health care professionals to communicate their ideas for the benefit of patients then our efforts will have succeeded   **Effective Utilization and Management of Emerging Information Technologies** Information Resources Management Association.
