

SCOPE OF PRACTICE FOR NURSES

Nursing services must be provided with specialized judgment and skill, based on knowledge and application of the principles of biological, physical and social science as acquired by a completed course of study in an approved school of vocational or professional nursing.

LVNs and RNs must provide safe, compassionate nursing care as a member of the profession, provider of patient-centered care, patient safety advocate and member of the health care team.

Licensed Vocational Nurses (LVNs) and Registered Nurses (RNs), with a focus on patient safety, are required to function within the parameters of the legal scope of practice and in accordance with the federal, state and local laws, rules and regulations, and policies, procedures and guidelines of the employing health care institution or practice setting.

LICENSED VOCATIONAL NURSE (LVN)

- Has a directed scope of practice to provide focused nursing care that requires specialized judgment and skill.
- Requires appropriate supervision by an RN, APRN, physician, physician assistant, podiatrist or dentist for LVN practice.
- Does not perform medical diagnosis or prescription of therapeutic or corrective measures.
- Provides care to assigned patients with predictable health care needs.
- Utilizes a systematic approach to provide individualized, goal-directed nursing care by:
 - Collecting data and performing focused assessments.
 - Helping to plan nursing care for patients and to develop/modify the nursing plan of care.
 - Implementing appropriate aspects of nursing care.
 - Helping evaluate the patient's responses to nursing care.
- May help implement established teaching plans for patients with common health problems and their families with well-defined health learning needs.
- Cannot practice completely independently; however, direct and on-site supervision may not be required in all settings or patient care situations.
 - An appropriate clinical supervisor may need to be physically available to assist the LVN in emergencies.
 - The setting in which the LVN provides nursing care should have well-defined policies, procedures, and guidelines in which assistance and support are available from an appropriate clinical supervisor.
 - The LVN must ensure he or she has access to an appropriate clinical supervisor and that the policies, procedures and guidelines for that setting are established.
- Cannot delegate tasks to UAPs; however, LVNs may assign tasks to other LVNs and UAPs according to 22 TAC § 217.11(2).

REGISTERED NURSE (RN)

- Has an independent scope of practice to provide nursing services that requires substantial specialized judgment and skill.
- Does not require supervision by another health care provider for RN practice.
- Does not perform medical diagnosis or prescription of therapeutic or corrective measures, unless licensed as an advanced practice registered nurse.
- Provides care to patients and their families with complex health care needs.
- Utilizes a systematic approach to provide individualized, goal-directed, nursing care by:
 - Performing comprehensive nursing assessments of patients.
 - Making nursing diagnoses that serve as the basis for the strategy of care.
 - Developing a plan of nursing care.
 - Implementing nursing interventions.
 - Evaluating the patient's responses to nursing care.
- Teaches and counsels patients as part of the implementation phase of the nursing process.
- Initiates, delivers, assigns or delegates certain interventions within the plan of care for patients within legal, ethical and regulatory parameters with a focus on patient safety.
 - The RN considers a UAP's education, training, skill, competence, and physical and emotional abilities.
 - RNs may supervise LVNs. Supervision is defined as directing, guiding and influencing the outcome of an LVN's performance and activity. The RN may have to directly observe and evaluate the nursing care provided depending on the LVN's skills and competence, patient conditions and emergencies.
 - The RN is responsible for supervising unlicensed personnel when tasks are delegated. The proximity of supervision depends on patient conditions and skill level of the unlicensed personnel.

UAP: Unlicensed Assistive Personnel

The above is a synopsis of how the scope of practice for licensed vocational nurses differs from registered nurses in Texas. The Licensed Vocational Nurse Scope of Practice and Registered Nurse Scope of Practice Position Statements are accessible on the HHS webpage at www.hhs.texas.gov under the "Practice" menu tab. The level and impact of the nursing process differs between the RN and LVN as well as between the different levels of RN education according to the Board's Differentiated Essential Competencies of Graduates of Texas Nursing Programs.

Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Nursing Scope

Stds Of Practice full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Nursing Scope Stds Of Practice eBooks, including some popular titles.

FAQs About Nursing Scope Stds Of Practice Books

What is a Nursing Scope Stds Of Practice PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Nursing Scope Stds Of Practice PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF.

How do I edit a Nursing Scope Stds Of Practice PDF? Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Nursing Scope Stds Of Practice PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Nursing Scope Stds Of Practice PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
