safe environment Creating a Nonviolent Culture in a Modern Organization Miriam Baermann, 2021-12-21 Increasing violence amongst youth in society burn out as a widespread disease and scandals in companies are only some of the headlines which appear regularly in the news media Politics scarcely seems to have any success in fighting violence and injustice in society and in the world The thesis here suggests that people do not have to wait for a savior such as a politician but that everyone can contribute to a less violent more peaceful and just world It will be demonstrated that organizations have an enormous influence on society and this book deals with the possibilities which an organization has to contribute to a less violent culture By the term organization all forms of organized groups of people who come together for a certain purpose are meant for example schools clubs public social aids and others whilst we mainly concentrate on companies in our research The intention is to focus particularly on the issues related to the theme of creating a nonviolent culture in the workplace In the first part on culture we deal with several questions regarding culture including such fundamental questions as What is organizational culture What are the dimensions of culture and is it possible to influence it and if yes how does it work In the second part we take a look at the terms violence and nonviolence and a survey of how these aspects occur in society and organizations is made The third part is the largest and deals with the qualities of leadership and with the organizational conditions which are necessary to create a nonviolent culture We hope it will become clearer to the reader that nonviolence is not a strategy or a formula to be used It can appear very different in different situations There are component elements which can promote it and there are certain principles that cannot be violated if one wishes to establish true nonviolence Nevertheless there is no one patent formula nor one exclusively correct way of creating a nonviolent culture It requires considerable creativity and endurance to create it and can take a variety of forms **Nursing Administration** Laura C. Young, Arlene Nash Hayne, 1988 This advanced text and reference for graduate nursing administration courses and practicing administrators balances management concepts with practical examples from the real world Especially interesting chapters include Games and Playing Strategies and Risk Management **EBOOK: Implementing Excellence in your Health Care Organization: Managing, Leading and Collaborating** Robert McSherry, Jerry Warr, 2010-07-16 This second book in this practical introductory series on practice issues in healthcare explores the key issues and factors which influence the workings of a healthcare organisation and how these may be addressed through collaborative working and user focused care at an introductory and practical level The book will be presented in three sections Working in Organisations Collaborative working User Focused Care The emphasis of this second text is on how the organization and those who work within it contribute to both positively and negatively the excellence of the healthcare organization and the care it gives Rather than a theoretical tome on team working leadership and change management this book instead highlights and explores the tools and techniques that ALL healthcare staff need to be successful employees and managers delivering excellent care The authors will outline and examine the evidence available for all areas covered both to support and to critique excellence standards and

give a lively and practical introduction to the key organizational factors of a healthcare setting. Many topics abound including Management leadership ethics equity governance user involvement team working interprofessional excellence. The focus on multiprofessional working will make this accessible to a variety of healthcare groups. In keeping with the series the book will include case examples real life practice and reflective exercises as well as the theory needed to inform delivery of excellence.
