Revolt of the Ministers Colin Baker, 2001-03-23 I certainly had very extreme views, very violent views, and I certainly did advocate extreme methods. So a leading Nyasaland nationalist characterised the struggle for independent Malawi, but Dr Hastings Banda, a highly respected medical doctor based for many years in London, was invited back to Nyasaland to lead the movement to independent Malawi and the Malawi National Congress. Here was, or so it seemed, a loyal and progressive Government with pro-Western leadership, a final success in the story of British decolonisation. Yet within three months, all but one of the cabinet ministers had resigned or were dismissed; former ministers fled the country, including distinguished members of the independence movement. Even the pro-Congress Europeans feared for their lives. Colin Baker unravels this potentially disastrous episode in Malawi's history and in the story of decolonisation. He illuminates not only the immediate post-independence problems of Malawi, a newly independent African state, but charts the growth of Banda's autocracy. This detailed and revealing study reveals the problems inherent in the whole momentous story of Africa in independence and decolonisation.

The Rise of Nationalism in Central Africa Robert I. Rotberg, 1965 Detailed study of the political evolution of two independent states of tropical Africa, tracing their efforts to achieve self-government. *A History of Malawi, 1859-1966* John McCracken, 2012 This title features a general history of Malawi, focusing mainly on the colonial period when it was known as Nyasaland, but placing that period in the context of the pre-colonial past. **Historical Dictionary of**

Malawi Owen J. M. Kalinga, 2012 Malawi, established as the British protectorate of Nyasaland in 1891, gained its independence in 1964 and moved immediately into three decades of one-party rule. Since the mid-1990s, however, the country has held multi-party elections as directed by its constitution, and President Bingu wa Mutharika is currently serving his second term. The fourth edition of the *Historical Dictionary of Malawi*, now newly expanded and updated, covers a wide range of areas in Malawi history, including the rise and fall of state systems, religious and socio-political movements, the economy, environment, transportation, war, disease, and natural sciences. Author Owen J. M. Kalinga charts developments from pre-history to the post-Banda Malawi, from Tom Bokwito to James Sangala, and from the UMCA mission at Magomero to the second term

of Bingu wa Mutharika's presidency paying particular attention to the individuals, groups, communities and forces that have molded this South African country. The dictionary itself contains over 1 000 cross referenced entries on crucial aspects of Malawi history and it is the most extensive single volume reference work on Malawi available. In addition to the dictionary entries, Kalinga provides a chronology containing important dates and events and an informative bibliographical section organized by subject. The final part of the bibliography gives the reader a list of current and obsolete newspapers and periodicals related to Malawi, an ideal resource for further research. This newly updated edition is an excellent access point for students, researchers and anyone wanting to know more about Malawi. **Handbook for Candidates** Nyasaland.

Supervisor of Elections, 1961 **International Politics**, 1960 The Lag of 21st Century Democratic Elections: in the African Union Member States Carl W. Dundas, 2011-11-08 This book explores the reasons for the uneven development of democratic elections in the Member States of the African Union. It notes the slow pace of some Member States of the Union to get on top of delivering credible elections and analyzes the attempts which are being made in the 21st Century to remedy the situation. **Malawi** British Information Services, 1964 Unpopular Sovereignty Luise White, 2015-03-23 In 1965 the white minority government of Rhodesia after 1980 Zimbabwe issued a unilateral declaration of independence from Britain rather than negotiate a transition to majority rule. In doing so, Rhodesia became the exception if not anathema to the policies and practices of the end of empire. In Unpopular Sovereignty Luise White shows that the exception that was Rhodesian independence did not in fact make the state that different from new nations elsewhere in Africa; indeed, this history of Rhodesian political practices reveals some of the commonalities of mid twentieth century thinking about place and race and how much government should link the two. White locates Rhodesia's independence in the era of decolonization in Africa, a time of great intellectual ferment in ideas about race, citizenship and freedom. She shows that racists and reactionaries were just as concerned with questions of sovereignty and legitimacy as African nationalists were and took special care to design voter qualifications that could preserve their version of legal statecraft. Examining how the Rhodesian state managed its own governance and electoral politics, she casts an oblique and revealing light by which to rethink the narratives of decolonization.

Political Culture and Nationalism in Malawi Joey Power, 2010 Malawi's political culture is examined as it emerged in the colonial and early post colonial periods, particularly in light of anti colonial protest. Inspired by the events leading up to the overthrow of Dr Hastings Kamuzu Banda's Life Presidency, this book explores the deep logic of Malawi's political culture as it emerged in the colonial and early post colonial periods. It draws on archival sources from three continents and oral testimonies gathered over a ten year period provided by those who lived these events. Power narrates how anti colonial protest was made relevant to the African majority through the painstaking engagement of politicians in local grievances and struggles which they then linked to the fight against white settler domination in the guise of the Central African Federation. She also explores how Dr Banda, leader of independent Malawi for thirty years, the Nyasaland African Congress and its

successor the Malawi Congress Party functioned within this political culture and how the MCP became a formidable political machine Central to this process was the deployment of women and youth to cut across parochial politics and consolidate a broad base of support No less important was the deliberate manipulation of history and the use of rumor and innuendo symbol and pageantry persecution and reward It was this mix that made people both accept and reject the MCP regime sometimes simultaneously

A History of Southern Africa Alois S. Mlambo, Neil Parsons, 2018-09-08 From early human civilisation to today this book illuminates the history of southern Africa Interweaving social cultural and political history archaeology anthropology and environmentalism Neil Parsons and Alois Mlambo provide an engaging account of the region's varied past Placing African voices and agency at centre stage rather than approaching the subject through a colonial lens A History of Southern Africa provides an engrossing narrative of the region This textbook is ideal for both undergraduate and postgraduate students of History and African Studies and will provide an essential grounding for those taking courses in the history of southern Africa Its lively and accessible approach will appeal to anyone with an interest in global history

Pan-Africanism Versus Partnership Brooks Marmon, 2023-04-29 This book takes the transnational history of southern Africa's liberation struggles in an innovative direction It provides one of the first targeted studies of the manner in which the wider process of African decolonisation shaped the political struggle for control of Southern Rhodesia colonial Zimbabwe It offers an in depth survey of the repercussions of pan African developments on national level political thought amidst one of the most seminal moments of the continent's history The book draws on over a year of fieldwork in southern Africa as well as archival collections in the USA and UK to explore the seismic re-alignments that occurred in the white settler dominated territory in southern Africa as self determination became a widely accepted international principle virtually overnight In particular it focuses on the impact of decolonisation struggles and or independence in Ghana Nigeria the Democratic Republic of the Congo and Malawi on Zimbabwe's liberation struggle In so doing it also offers new context on the roots of contemporary repression in Zimbabwe

Garfield Todd: The End of the Liberal Dream in Rhodesia Susan Woodhouse, 2018-04-17 Against the backdrop of a politically approved view that Europeans did little to further the Zimbabwean nationalist freedom movements before Independence in 1980 this book will help to nail that misconception against a wall The story of Garfield Todd and his various roles as Christian missionary liberal prime minister of southern Rhodesia high profile opponent of UDI and its architect Ian Smith from 1965 to 1980 will surely be an eye opener for many young people in central and southern Africa who may never have heard of this great man who spent his life in education and public service The role of Garfield Todd and some of the people who worked with him has been effectively airbrushed from the pages of the official Zimbabwean story Why is the question Susan Woodhouse gives us the answer by telling the story of a small but influential group of men and women who dared swim against the racial current in Africa after the Second World War Its a story told with warmth personal insight and

often great humour This Edinburgh based author who Sir Garfield said knew the Todds better than anyone else has introduced a small but dedicated group of long forgotten activists to a new generation of readers *So Far and No Further!* Jrt Wood, 2012-05 *So Far and No Further* Rhodesia's Bid for Independence during the Retreat from Empire 1959-1965 Ian Smith's unilateral declaration of independence for Rhodesia now Zimbabwe on 11 November 1965 was seen by many as the act of a rebellious white minority seeking to preserve their privileged position in defiance of Britain's determination to shed her Empire and introduce rule by the African majority as soon as possible However the drama of UDI has long overshadowed and oversimplified the complexities of the preceding years In this account of that time based on sole access to the hitherto closed papers of Ian Douglas Smith and Sir Roy Welensky as well as extensive research at London's Public Record Office and in government and private collections elsewhere Dr J R T Wood chronicles the collision course on which Britain and Rhodesia were set after 1959 complementing his study of the fate of the Federation of Rhodesia and Nyasaland in his definitive *The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953-1963* Britain Wood shows was intent on shedding her Empire as quickly as possible against a backdrop of the Cold War and the rise of Chinese and Soviet sponsored African nationalism She delivered some 600 one man one vote constitutions to her fledgling nations and had no intention of granting Rhodesia independence on different terms Unlike Britain's other African possessions however Rhodesia had enjoyed self governance since 1923 The largely white Rhodesian electorate wary of the consequences of premature and ill prepared majority rule sought instead dominion status akin to that of Canada Australia and New Zealand Their intention was gradually to pave the way for majority rule since 1923 Rhodesia's electoral qualifications had excluded race It was always understood that the African majority would acquire power the concern was the speed and smoothness of that acquisition Culminating in those dramatic days of November 1965 when Ian Smith concluded in the face of resolute British stonewalling that he had no alternative but UDI this unique account is the first in a series which chronicles the course of events that ultimately led to Robert Mugabe's accession to power in 1980 and all that entailed *A History of Zimbabwe, 1890-2000 and Postscript, Zimbabwe, 2001-2008* Chengetai J. M. Zvobgo, 2009-10-02 This study combines in one volume the history of Zimbabwe from the advent of British settlers in 1890 to 2000 including women's rights and human rights in Zimbabwe It is a political social and economic history The Postscript examines the major developments in Zimbabwe from 2001 to 2008 The two previous major studies on the history of Zimbabwe *The Past Is Another Country* by Martin Meredith London Andre Deutsch 1979 and *The Road to Zimbabwe 1890-1980* by Anthony Verrier London Jonathan Cape 1986 are now out of date This volume brings the historical study of Zimbabwe almost up to the present day **Africa, Its Problems and Prospects** Army Library (U.S.), 1962 **Negotiating the End of the British Empire in Africa, 1959-1964** Peter Docking, 2021-12-02 This book examines conferences and commissions held for British colonial territories in East and Central Africa in the early 1960s Until 1960 the British and colonial governments regularly employed hard methods of colonial management in East and Central

Africa such as instituting states of emergency and imprisoning political leaders. A series of events at the end of the 1950s made hard measures no longer feasible including criticism from the United Nations. As a result softer measures became more prevalent and the use of constitutional conferences and commissions became an increasingly important tool for the British government in seeking to manage colonial affairs. During the period 1960-64 a staggering sixteen conferences and ten constitutional commissions were held for British colonies in East and Central Africa. This book is the first of its kind to provide a detailed overview of how the British sought to make use of these events to control and manage the pace of change. The author also demonstrates how commissions and conferences helped shape politics and African popular opinion in the early 1960s. Whilst giving the British government temporary respite conferences and commissions ultimately accelerated the decolonisation process by transferring more power to African political parties and engendering softer perceptions on both sides. Presenting both British and African perspectives this book offers an innovative exploration into the way that these episodes played an important part in the decolonisation of Africa. It shows that far from being dry and technical events conferences and commissions were occasions of drama that tell us much about how the British government and those in Africa engaged with the last days of empire.
