Westwick, 2020 The story behind the technology that revolutionized both aeronautics and the course of history On a moonless night in January 1991 a dozen airplanes appeared in the skies over Baghdad Or rather didn't appear They arrived in the dark their black outlines cloaking them from sight More importantly their odd angular shapes which made them look like flying origami rendered them undetectable to Iraq's formidable air defenses Stealth technology developed during the decades before Desert Storm had arrived To American planners and strategists at the outset of the Cold War this seemingly ultimate way to gain ascendancy over the USSR was only a question What if the United States could defend its airspace while at the same time send a plane through Soviet skies undetected A craft with such capacity would have to be essentially invisible to radar an apparently miraculous feat of physics and engineering In *Stealth* Peter Westwick unveils the process by which the impossible was achieved At heart *Stealth* is a tale of two aerospace companies Lockheed and Northrop and their fierce competition with each other and with themselves to obtain what was estimated one of the largest procurement contracts in history Westwick's book fully explores the individual and collective ingenuity and determination required to make these planes and in the process provides a fresh view of the period leading up to the end of the Soviet Union Taking into account the role of technology as well as the art and science of physics and engineering Westwick offers an engaging narrative one that immerses readers in the race to produce a weapon that some thought might save the world and which certainly changed it *The Ninety-Nines Inc.* , 1996-06 *Year Book, Trotting and Pacing* United States Trotting Association, 1972 **11th Armored Division, Thunderbolt** , 1992-06-15 The 50th Anniversary Volume provides the clearest view yet of the 11th This volume includes a history of each individual unit of the Thunderbolts all new photos and biographies plus unit insignias *Chinese Cultural Diplomacy in the 21st Century* Minglei Wang, 2025-09-23 This book examines the China Cultural Centre CCC project's establishment operation and programming through the lens of cultural diplomacy The work illuminates the main structural and operational characteristics of the CCC project by highlighting their similarities and differences compared to other cultural diplomacy initiatives especially the Confucius Institutes CIs It also provides insights on its working modes and associated activities primarily based on the case of the CCC in Australia supplemented by information from other CCCs Furthermore it sheds light on the implications for the CCC project expanding current discussions about Chinese cultural diplomacy The book holds that the operation and programming of CCCs reflect common views of Chinese cultural diplomacy strategically orientated state led and quantity driven while also highlighting the inclusion of foreign collaborators and a bottom up strategy for facilitating engagement and understanding This book will be of much interest to students of diplomacy studies public diplomacy foreign policy Chinese

In Search of Admiration and Respect Yanqiu Zheng, 2024-09-23 *In Search of Admiration and Respect* examines the institutionalization of Chinese cultural diplomacy in the period between high imperialism and the international ascendance of the People's Republic of China. During these years Chinese intellectuals and officials tried to promote the idea of China's cultural refinement in an effort to combat negative perceptions of the nation. Yanqiu Zheng argues that unlike similar projects by more established powers, Chinese cultural diplomacy in this era was not carried out solely by a functional government agency; rather, limited resources forced an uneasy collaboration between the New York-based China Institute and the Chinese Nationalist government. *In Search of Admiration and Respect* uses the Chinese case to underscore what Zheng calls the infrastructure of persuasion in which American philanthropy, museums, exhibitions, and show business had disproportionate power in setting the agenda of unequal intercultural encounters. This volume also provides historical insights into China's ongoing quest for international recognition. Drawing upon diverse archival sources, Zheng expands the contours of cultural diplomacy beyond established powers and sheds light on the limited agency of peripheral nations in their self-representation.
