Drechsel, 2014-03-27 This volume presents a historical sociolinguistic description and analysis of Maritime Polynesian Pidgin It offers linguistic and sociohistorical substantiation for a regional Eastern Polynesian based pidgin and challenges conventional Eurocentric assumptions about early colonial contact in the eastern Pacific by arguing that Maritime Polynesian Pidgin preceded the introduction of Pidgin English by as much as a century Emanuel J Drechsel not only opens up new methodological avenues for historical sociolinguistic research in Oceania by a combination of philology and ethnohistory but also gives greater recognition to Pacific Islanders in early contact between cultures Students and researchers working on language contact language typology historical linguistics and sociolinguistics will want to read this book It redefines our understanding of how Europeans and Americans interacted with Pacific Islanders in Eastern Polynesia during early encounters and offers an alternative model of language contact      *An Introduction to African Languages* George Tucker Childs, 2003-01-01 This book introduces beginning students and non specialists to the diversity and richness of African languages In addition to providing a solid background to the study of African languages the book presents linguistic phenomena not found in European languages A goal of this book is to stimulate interest in African languages and address the question What makes African languages so fascinating The orientation adopted throughout the book is a descriptive one which seeks to characterize African languages in a relatively succinct and neutral manner and to make the facts accessible to a wide variety of readers The author s lengthy acquaintance with the continent and field experiences in western eastern and southern Africa allow for both a broad perspective and considerable depth in selected areas The original examples are often the author s own but also come from other sources and languages not often referenced in the literature This text also includes a set of sound files illustrating the phenomena under discussion be they the clicks of Khoisan talking drums or the ideophones words like English lickety split found almost everywhere which will make this book a valuable resource for teacher and student alike      **Language and Language-in-Education Planning in the Pacific Basin** R.B.
