Pact With Silence:

Exhuming Loss Layla Renshaw, 2016-06-16 This book examines the contested representations of those murdered during the Spanish Civil War of the 1930s in two small rural communities as they undergo the experience of exhumation identification and reburial from nearby mass graves Based on interviews with relatives of the dead community members and forensic archaeologists it pays close attention to the role of excavated objects and images in breaking the pact of silence that surrounded the memory of these painful events for decades afterward It also assesses the significance of archaeological and forensic practices in changing relationships between the living and dead The exposure of graves has opened up a discursive space in Spanish society for multiple representations to be made of the war dead and of Spain's traumatic past Handbook of Interpersonal Communication Gerd Antos, Eija Ventola, 2008-12-10 Interpersonal communication IC is a continuous game between the interacting interactants It is a give and take a continuous dynamic flow that is linguistically realized as discourse as an on going sequence of interactants moves Interpersonal communication is produced and interpreted by acting linguistically and this makes it a fascinating research area The handbook Interpersonal Communication examines how interactants manage to exchange facts ideas views opinions beliefs emotion etc by using the linguistic systems and the resources they offer In interpersonal communication the fine tuning of individuals use of the linguistic resources is continuously probed The language used in interpersonal communication enhances social relations between interactants and keeps the interaction on the normal track When interaction gets off the track linguistic miscommunication may also destroy social relationships This volume is essentially concerned with this fine tuning in discourse and how it is achieved among various interactant groups The volume departs from the following fundamental questions How do interpersonal relations manifest themselves in language What is the role of language in developing and maintaining relationships in interpersonal communication What types of problems occur in interpersonal communication and what kind of strategies and means are used to solve them How does linguistically realized interpersonal communication interact with other semiotic modes Interpersonal communication is seen and researched from the perspective of what is being said or written and how it is realized in various generic forms The current research also gives attention to other semiotic modes which interact with the linguistic modes It is not just the social roles of interactants in groups the possible media available the non verbal behaviors the varying contextual frames for communication but primarily the actual linguistic manifestations that we need to focus upon when we want to have a full picture of what is going on in human interpersonal communication It is this linguistic perspective that the volume aims to present to all researchers interested in IC The volume offers an overview of the theories methods tools and resources of linguistically oriented approaches e g from the fields of linguistics social psychology sociology and semiotics for the purpose of integration and further development of the interests in IC Topics e g Orientation to interaction as primarily linguistically realized processes Expertise on theorizing and analyzing cultural and situational

contexts where linguistic processes are realized Expertise on handling language corpora Expertise on theorizing and analyzing interaction types as genres Orientation to an integrated view of linguistic and non linguistic participant activities and of how interactants generate meanings and interact with space Expertise on researching the management of the linguistic flow in interaction and its successfulness Mistakes, Errors and Failures across Cultures Elisabeth Vanderheiden, Claude-Hélène Mayer, 2020-03-14 This volume provides comprehensible strength based perspectives on contemporary research and practice related to navigating mistakes errors and failures across cultures It addresses these concepts across cultural contexts and explores any or all of these three concepts from a positive psychology or positive organisational perspective highlighting their potential as resources The volume further discusses the consequences of errors and failures at individual organisational and societal levels ranging from severe personal problems to organisational and collective crises perspectives how those can be turned into opportunities for contingent and sustainable improvement processes The book shows that there are significant cultural differences in the understanding interpretation and handling of errors and failures This volume provides practical guidance for transcultural understanding of mistakes errors and failure through new models ideas for self reflection therapeutic and counselling interventions and organisational change management processes This book is a must for researchers and practitioners working on mistakes errors and failures across cultures and disciplines *Umbr(a): Incurable*, 2006 **Truth Recovery and Transitional Justice** Isif Kovras, 2014-05-16 This book investigates why some societies defer transitional justice issues after successful democratic consolidation Despite democratisation the exhumation of mass graves containing the victims from the violence in Cyprus 1963 1974 and the Spanish civil war 1936 1939 was delayed until the early 2000s when both countries suddenly decided to revisit the past Although this contradicts the actions of other countries such as South Africa Bosnia and Guatemala where truth recovery for disappeared missing persons was a central element of the transition to peace and democracy Cyprus and Spain are not alone this is an increasing trend among countries trying to come to terms with past violence Truth Recovery and Transitional Justice considers the case studies of Spain and Cyprus and explores three interrelated issues First the book examines which factors can explain prolonged silence on the issue of missing persons in transitional settings It then goes on to explore the transformation of victims groups from opponents of truth recovery to vocal pro reconciliation pressure groups and examines the circumstances in which it is better to tie victims rights to an overall political settlement Finally the author goes on to compare Spain and Cyprus with Greece a country that remains resistant to post transitional justice norms This book will be of interest to students of transitional justice human rights peace and conflict studies and security studies in general *Genre Fusion* Sara J. Brenneis, 2014 Genre Fusion demonstrates how Spanish authors accurately represent the lived experience of Spain s history and collective memory by overlapping the genres of fiction and historiography Limited Achievements Z. seen an explosion of novels and films about the Spanish Civil War and Franco dictatorship. This growth of so called memory studies in literary scholarship has focused on the representation of memory and trauma in contemporary narratives dealing with the Civil War and ensuing dictatorship. In contrast the novel of the postwar period has received relatively little critical attention of late despite the fact that memory and trauma also feature in different ways and to varying degrees in many works written during the Franco years. The essays in this study argue that such novels merit a fresh critical approach and that contemporary scholarship relating to the representation of memory and trauma in literature can enhance our understanding of the postwar Spanish novel. The volume opens with essays that engage with aspects of contemporary theoretical approaches to memory in order to reveal the ways in which these are pertinent to Spanish novels written in the first postwar decades with studies on novels by Camilo Jos Cela, Carmen Laforet, Arturo Barea and Ana Mar a Matute. Its second section focuses on the representation of trauma in specific postwar novels drawing on elements from trauma studies scholarship to discuss neglected works by Mercedes Salisachs, Dolores Medio and Ignacio Aldecoa. The final essays continue the focus on the theme of trauma and revisit works by women writers namely Carmen Laforet, Rosa Chacel, Ana Mar a Matute and Mar a Zambrano that foreground the experiences of female protagonists who are seeking to deal with a traumatic past. The essays in this volume thus propose a new direction for the study of Spanish literature of 1940s, 1950s and early 1960s enhancing existing approaches to the postwar Spanish novel through an engagement with contemporary scholarship on memory and trauma in literature.

Democracy Without Justice in Spain Omar G. Encarnacion, 2014-01-11 Spain is a notable exception to the implicit rules of late twentieth century democratization after the death of General Francisco Franco in 1975 the recovering nation began to consolidate democracy without enacting any of the mechanisms promoted by the international transitional justice movement. There were no political trials, no truth and reconciliation commissions, no formal attributions of blame and no apologies. Instead Spain's national parties negotiated the Pact of Forgetting, an agreement intended to place the bloody Spanish Civil War and the authoritarian excesses of the Franco dictatorship firmly in the past, not to be revisited even in conversation. Formalized by an amnesty law in 1977, this agreement defies the conventional wisdom that considers retribution and reconciliation vital to rebuilding a stable nation. Although not without its dark side, such as the silence imposed upon the victims of the Civil War and the dictatorship, the Pact of Forgetting allowed for the peaceful emergence of a democratic state, one with remarkable political stability and even a reputation as a trailblazer for the national rights and protections of minority groups. Omar G. Encarnaci n examines the factors in Spanish political history that made the Pact of Forgetting possible, tracing the challenges and consequences of sustaining the agreement until its dramatic reversal with the 2007 Law of Historical Memory. The combined forces of a collective will to avoid revisiting the traumas of a difficult and painful past and the reliance on the reformed political institutions of the old regime to anchor the democratic transition created a climate conducive to forgetting. At the same time the political movement to forget encouraged the embrace of a

new national identity as a modern and democratic European state Demonstrating the surprising compatibility of forgetting and democracy Democratization Without Justice in Spain offers a crucial counterexample to the transitional justice movement The refusal to confront and redress the past did not inhibit the rise of a successful democracy in Spain on the contrary by leaving the past behind Spain chose not to repeat it

Memory Battles of the Spanish Civil War Sebastiaan Faber,2018-01-31 The ability to forget the violent twentieth century past was long seen as a virtue in Spain even a duty But the common wisdom has shifted as increasing numbers of Spaniards want to know

what happened who suffered and who is to blame Memory Battles of the Spanish Civil War shows how historiography fiction and photography have shaped our views of the 1936-39 war and its long painful aftermath Faber traces the curious trajectories of iconic Spanish Civil War photographs by Robert Capa Gerda Taro and David Seymour critically reads a dozen recent Spanish novels and essays interrogates basic scholarly assumptions about history memory and literature and interviews nine scholars activists and documentarians who in the past decade and a half have helped redefine Spain's relationship to its past In this book Faber argues that recent political developments in Spain from the grassroots call for the recovery of historical memory to the indignados movement and the foundation of Podemos provide an opportunity for scholars in the humanities to engage in a more activist public and democratic practice

The Reinvention of Spain Sebastian Balfour, Alejandro Quiroga, 2007-10-25 Unravelling the debate about the Spanish nation and its identity in the new democracy this book looks at the issue as both a historical debate and a contemporary political problem particularly complex due to the legacy of the Francoist Dictatorship which deeply eroded the legitimacy of Spanish nationalism During and since the transition Spanish nationalist discourse has evolved to meet the challenge of new concepts of nation and identity These formulations argue very different configurations of the relationship between nation and state While the Constitution of 1978 defines Spain as a nation of nationalities many politicians and intellectuals now claim that Spain is a nation of nations others that it is a nation of

nations and regions or a post traditional nation state or post national state For the peripheral nationalists it is merely a state of nations and regions What is at issue is not whether Spain exists or not as a nation rather it is the traditional ways of seeing Spain from both the centre and the periphery that are being challenged The Reinvention of Spain examines the ways in which Spanish and regional identities are projected and how influence the external actions of the Spanish state It also analyses the dynamic of comparative grievance and competition between regions deriving from the peculiar architecture of the state in Spain and their effect on social and political cohesion Finally it examines scenarios of change that might foster solutions but asserts that Spain will continue to reinvent itself Legacies of Violence in Contemporary Spain Ofelia Ferrán, Lisa

Hilbink, 2016-07-15 This book provides a comprehensive interdisciplinary study of the multiple legacies of Francoist violence in contemporary Spain with a special focus on the exhumations of mass graves from the Civil War and post war era The various contributions frame their study within a broader reflection on the nature function and legacies of state sanctioned violence in its many forms Offering perspectives from fields as varied as history political science literary and cultural studies forensic and cultural anthropology international human rights law sociology and art this volume explores the multifaceted nature of a society's reckoning with past violence It speaks not only to those interested in contemporary Spain and Western Europe but also to those studying issues of transitional and post transitional justice in other national and regional contexts
