## **Paediatric Anaesthesia Anaesthesia In A Nutshell:**

Paediatric and Neonatal Anaesthesia Ann E. Black, Angus McEwan, 2004 Anaesthesia in a Nutshell is a series of pocket books designed to give the trainee anaesthetist essential information on each sub specialty module giving the trainee confidence in the first few weeks of their training The editors have ensured that each volume is comprehensive reflecting the individual module syllabus and focusing on best clinical practice Anaesthesia in a Nutshell is a series of pocket books designed to mirror the current modular training system The content is pitched at the right level for starting out in each sub specialty module giving the trainee confidence in those first weeks The succinct note style is convenient for quick reference and revision and the portable format allows them to be constant companions in theatre and on the ward The editors have ensured that each volume is comprehensive reflecting the individual module syllabus and focussing on best clinical practice Selected further reading and key references enable the trainee to build on their initial training and expand their knowledge as they progress through each sub specialty **Oxford Handbook of Anaesthesia** Rachel Freedman, Lara Herbert, Aidan O'Donnell, Nicola Ross, 2022-01-13 Returning for its fifth edition the Oxford Handbook of Anaesthesia has been re energized by new editors and a specialist contributor team while still retaining its much loved clear and concise style Written for anaesthetists at all stages of their careers from trainees sitting exams through to experienced consultants as well as ODPs and nurses involved in theatre area work and pre assessment this comprehensive guide to the anaesthetic world is as indispensable as ever This new edition has been completely revised and brings you the most up to date guidance and information to keep pace with fast moving areas of anaesthesia including a completely revised regional anaesthesia chapter Now in full colour and packed with enhanced illustrations throughout including new ECG rhythm strips and illustrations of specialist equipment the Handbook also includes colour coding for easier navigation Designed for daily use this Handbook is your essential companion to anaesthesia with everything you need at your fingertips whether on the go or for revision

Anaesthesia: An Introduction Ian Harley, Phillipa Hore, 2012-09-01 Anaesthesia is an evolving medical speciality with new drugs techniques and equipment constantly being sought to improve patient safety and outcomes In this book Australasian medical students junior hospital doctors working in anaesthesia and critical care and anaesthesia nurses and technicians will find a succinct and readable introduction to the principles and practice of anaesthesia The book is structured as follows It opens with an overview of general anaesthesia regional anaesthesia and sedation Requisite knowledge of physiology and pharmacology is outlined Comprehensive coverage is then provided of core topics perioperative management of patients undergoing surgical procedures anaesthetic techniques anaesthetic sub specialties pain anaesthetic equipment and the anaesthetic environment For this fifth edition of the book all original material has been thoroughly reviewed and updated Extensive revisions have been made to coverage of preoperative assessment intraoperative management anaesthetic emergencies and postoperative care Coverage of anaesthetic sub specialties has been substantially expanded The section on

resuscitation includes coverage of new guidelines and equipment The section on acute pain is new highlighting the importance of this topic

*Perioperative Care of the Child* Linda Shields, 2009-12-21 Perioperative Care of the Child Edited by well known and highly regarded children's nurse Linda Shields Perioperative Care of the Child is an essential resource for any children's nurse working in a perioperative setting and all student nurses on the child branch This timely and valuable text provides comprehensive coverage of the essential skills and knowledge required by practitioners in order to deliver safe and effective perioperative nursing care for the child requiring surgery before during and after any operation Perioperative Care of the Child explores the role of the nurse in a wide variety of perioperative contexts including anaesthetics surgical procedures including coverage of fetal surgery endoscopic procedures and care of children with burns paediatric transplantation postoperative recovery and pre and post hospital care This essential resource benefits from an international perspective with contributions from experienced and highly specialised clinicians from around the world Essential reading for children's and perioperative nurses and others who work in the perioperative area Evidence based with clear links to nursing practice Focuses on key skills and knowledge Emphasises patient centred care Edited by an internationally regarded children's nurse

**Perioperative Practice Case Book** Hannah Abbott, Stephen Wordsworth, 2016-08-16 This case book is the ideal text for Operating Department Practitioners ODPs as well as student ODPs and nurses preparing to work in perioperative care Delivering individualised holistic and evidence based care can be challenging in the perioperative setting requiring the practitioner to apply specialist clinical knowledge to each individual patient This text presents 20 interactive case studies that will support the reader in assimilating a wide range of professional knowledge in order to develop a comprehensive plan of care for patients they encounter The practical cases Demonstrate how care will vary depending on the patient's physiological assessment and their personal social cultural and emotional needs Will consolidate the reader's learning around pathophysiology pharmacology assessment skills and clinical skills Include common clinical procedures as well as those that are more complex and require a deeper analysis of the evidence in order to improve patient care Use Stop and Think boxes to encourage readers to reflect on key points within the case study in order to develop their own knowledge and assist in their CPD This text will support all learners at both pre and post registration level as they develop their knowledge of perioperative care Its goal is to help the practitioner deliver excellent and confident care in perioperative practice and in other healthcare settings Although clearly targeted at the student Operating Department Practitioner Abbott and Wordsworth have produced a learning resource that any learner in the perioperative environment will find both informative and a useful learning aid The editors have set out the twenty patient case studies in a sequence that allows the student to work through them as their course and competence progresses although students can dip into the case studies in any order that supports their current clinical placement The section introducing perioperative care is essential reading for any perioperative practitioner with an up to date introduction to the latest concepts of teamwork and human factors in

patient safety Coupled with the patient centred focus of the case studies this provides any reader with an understanding of the changing approach to patient care in the perioperative environment Bill Kilvington President College of Operating Department Practitioners UK I have read this book several times and found that the chapter contents are excellent This book will be useful for ODPs and theatre nurses it will enhance their knowledge and skills and may also enhance their abilities to work in operating departments and care well for patients The book covers preoperative care intraoperative care and postoperative care which is essential for all practitioners working in operating departments The content of this book is very informative and will be of great use to both students and qualified practitioners I find it very impressive and I envisage it to be very useful to all theatre practitioners Paul Wicker formerly Head of Perioperative Studies Edge Hill University UK and Visiting Professor Nanjing University China
