Pageant Of The Sea The Macpherson Collec:

Art and the Sea Emma Roberts, 2022-04-15 This edited collection re examines the relationship between art and the sea reflecting growing interest in the intersections between art and maritime history Artists have always been fascinated by and drawn to the sea and this book considers some of the themes and approaches in art that have evolved as a result of this captivation The chapters consider how an examination of art can provide new insights into existing knowledge of port and maritime history and are representative of a cultural turn in port and maritime studies which is becoming increasingly visible In Art and the Sea multiple perspectives are offered as a result of the contributors individual positions and methodologies some museological others art historical or maritime historical Each chapter proposes a new way of building upon available interpretations of port and maritime history whether this be to reject support or reconsider existing knowledge The book as a whole is a timely addition therefore to the developing body of revisionist texts in port and maritime history The interdisciplinary nature of the volume relates to a current trend for interdisciplinarity in art history and will appeal to those with an interest in art history geography sociology history and transport maritime studies

as aquatint and lithography as well as the production of beautiful examples of line engraving and woodcut The eighteenth and nineteenth centuries saw the establishment and expansion of major ports not just in Britain but in continental Europe Africa Asia Australia and in North and South America The National Maritime Museum upon which collection this book is based is at the centre of the preservation and display of Britain s maritime heritage Its print collection reveals the firm link between art and commerce in the development of these ports The Connoisseur ,1952 **Dictionary Catalog of the Art and Architecture Division** New York Public Library.
