Pursuing Excellence for the Glory of God Keith A. Currivean, 2022-01-13 What is education How and why do educators do what we do And in what way can and ought education be distinctively Christian These are a few of the probing questions for which this book seeks answers Among other contributions Currivean's book explores a biblical philosophy of Christian education with unprecedented breadth and depth To accomplish this objective it considers what education is chapter 1 what philosophy of education is chapter 2 and what the ultimate goal of education is chapter 3 Additionally this book provides a never before Christian overview of twelve philosophies of education chapters 4-15 Each of those chapters provides an introduction of a particular philosophy of education and some of that philosophy's exemplars Each of those chapters also contributes a constructive Christian critique Chapter 16 highlights a biblical philosophy of Christian education featuring some people some principles and some priorities for a biblical philosophy of Christian education viz pursuing excellence for the glory of God

Marked Absent: Christ and Education in Northern Ireland Nathan F. Conkey, *To a Thousand Generations* Douglas Wilson, 1996-06 In arguing for biblical infant baptism it is not sufficient for us to say that infant baptism is merely consistent with the Scriptures or that a biblical case can be made for it In order for us to be satisfied that we are being biblical Christians we must be content with nothing less than a clear biblical case requiring infant baptism In a doctrinal matter of this importance the standards of evidence are high

Taking Off Roofs and Building Bridges Alan J. Pihringer, 2022-09-27 Why don't they believe the same things I do Why don't they see things my way We get frustrated when people hold differing opinions from ours or view life's major issues from conflicting angles Their system of belief their worldview seems foreign to us as they filter the events of this world in ways that we would never have imagined and then come to conclusions that we would never even consider When other people's worldviews contradict ours both of us cannot be right Is there a way to account for the differences and determine if one is right and the other wrong For the Christian especially can we defend the Christian worldview in a way that upholds our entire system of belief and then opens the door to share the gospel with those who believe differently from us The method of worldview apologetics enables the Christian to expose the faults in other worldviews demonstrate the truth of the Christian worldview and build a bridge for others to hear the gospel of Jesus Christ Both scholarly and practical worldview apologetics equips the Christian to assess and critique differing belief systems and fulfill the call to Great Commission outreach

Anarchist Pedagogies Robert H. Haworth,2012-08-01 Education is a challenging subject for anarchists Many are critical about working within a state run education system that is embedded in hierarchical standardized and authoritarian structures Numerous individuals and collectives envision the creation of counterpublics or alternative educational sites as possible forms of resistance while other anarchists see themselves as saboteurs within the public arena believing that there is a need to contest dominant forms of power and educational practices from multiple fronts Of course if anarchists agree that there are no blueprints for education the question remains in what dynamic and creative ways can we construct nonhierarchical anti authoritarian mutual and voluntary educational spaces Contributors to this edited volume engage readers in important and challenging issues in the area of anarchism and education From Francisco Ferrer s modern schools in Spain and the Work People s College in the United States to contemporary actions in developing free skools in the U K and Canada to direct action education such as learning to work as a street medic in the protests against neoliberalism the contributors illustrate the importance of developing complex connections between educational theories and collective actions Anarchists activists and critical educators should take these educational experiences seriously as they offer invaluable examples for potential teaching and learning environments outside of authoritarian and capitalist structures Major themes in the volume include

learning from historical anarchist experiments in education ways that contemporary anarchists create dynamic and situated learning spaces and finally critically reflecting on theoretical frameworks and educational practices Contributors include David Gabbard Jeffery Shantz Isabelle Fremeaux John Jordan Abraham P DeLeon Elsa Noterman Andre Pusey Matthew Weinstein Alex Khasnabish and many others

Democracy and Tradition Jeffrey Stout, 2009-02-09 Do religious arguments have a public role in the post 9 11 world Can we hold democracy together despite fractures over moral issues Are there moral limits on the struggle against terror Asking how the citizens of modern democracy can reason with one another this book carves out a controversial position between those who view religious voices as an anathema to democracy and those who believe democratic society is a moral wasteland because such voices are not heard Drawing inspiration from Whitman Dewey and Ellison Jeffrey Stout sketches the proper role of religious discourse in a democracy He discusses the fate of virtue the legacy of racism the moral issues implicated in the war on terrorism and the objectivity of ethical norms Against those who see no place for religious reasoning in the democratic arena Stout champions a space for religious voices But against increasingly vocal antiliberal thinkers he argues that modern democracy can provide a moral vision and has made possible such moral achievements as civil rights precisely because it allows a multitude of claims to be heard Stout s distinctive pragmatism reconfigures the disputed area where religious thought political theory and philosophy meet Charting a path beyond the current impasse between secular liberalism and the new traditionalism *Democracy and Tradition* asks whether we have the moral strength to continue as a democratic people as it invigorates us to retrieve our democratic virtues from very real threats to their practice **Labor's**

Millennium Brett H. Smith, 2010-01-01 Historians have traditionally interpreted the American land grant higher education movement as the result of political and economic forces Little attention has been given however to any explicit or implicit theological motivations for the movement This book tells the story of how the Christian belief of many founders of the University of Illinois motivated their educational theory and practice Constructing a social gospel of labor s millennium their shorthand for God s kingdom being enhanced through agricultural and mechanical education they initially proposed that the university would impart a millenarian blessing for the larger society by providing abundant food economic prosperity vocational dignity and a charitable spirit of sacred unity and public service Rich in primary source research Smith s account builds a compelling case for at least one such institution s adaptation of an inherited evangelical educational tradition transitioning into a new era of higher learning that has left its mark on university life today **Jesuit Higher Education**
