Irina Bokova Director General of UNESCO from the Foreword

Holocaust Education and the Semiotics of Othering in Israeli Schoolbooks Nurit Elhanan-Peled, 2023-09-11 The Zionist pedagogical narrative reproduced in schoolbooks views the migration of Jews to Israel as the felicitous conclusion of the journey from the Holocaust to the Resurrection. It negates all forms of diasporic Jewish life and culture and ignores the history of Palestine during the 2000 year long Jewish exile. This narrative otherizes three main groups vis-à-vis whom Israeliness is constituted: Holocaust victims who are presented in a traumatizing manner as the stateless and therefore persecuted Jews we refuse but might become again if we lose control over Palestinian Arabs who constitute the second group of others; Palestinians are racialized, demonized and portrayed as our potential exterminators; The third group of others comprises non-European Mizrahi and Ethiopian Jews. They are described as backward people who lack history or culture and must undergo constant acculturation to fit into Israel's Western society. Thus a rhetoric of victimhood and power evolves and a nationalistic interpretation of the never again imperative is inculcated justifying the Occupation and oppression of Palestinians and the marginalization of non-European Jews. This rhetoric is conveyed multimodally through discourse genres and visual elements. The present study which advocates a multidirectional memory proposes an alternative Hebrew/Arabic multi-voiced and poly-centered curriculum that would relate the accounts of the people whom the pedagogic narrative seeks to conceal and exclude. This joint curriculum will differ from the present one not only in content but also ideologically and semiotically. Instead of traumatizing and urging vengeance it will encourage discussion and celebrate diversity and hybridity.

As the Witnesses Fall Silent: 21st Century Holocaust Education in Curriculum, Policy and Practice Zehavit Gross, E. Doyle Stevick, 2015-03-16 This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world. It comes at a critical time as the world observes the 70th anniversary of the liberation of Auschwitz. We are now at a turning point as the generations that witnessed and survived the Shoah are slowly passing on. Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples. The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning. Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present. These efforts take place at a time when scholarship about the Holocaust itself has made great strides. In this book these issues are framed by some of the leading voices in the field including Elie Wiesel and Yehuda Bauer and then explored by many distinguished scholars who represent a wide range of expertise. Holocaust education is of such significance so rich in meaning so powerful in content and so diverse in practice that the need for extensive high quality empirical research is critical. This book provides exactly that.

Diverse Voices in Photographic Albums Mary Trent, Kris Belden-Adams, 2022-07-29 Through a variety of case studies by global scholars from diverse academic fields this book explores photographic album practices of historically marginalized figures from a range of time periods geographic locations and socio cultural contexts Their albums stories span various racial ethnic gender and sexual identities nationalities religions and disabilities The vernacular albums featured in this volume present narratives that move beyond those reflected in our existing histories Essays examine the visual material and aural

strategies that album makers have used to assert control over the presentation of their histories and identities and to direct what those narratives have to say a point of special relevance as these albums move out of private domestic space and into public archives institutions and digital formats This book does not consider photographic albums and scrapbooks as separate genres but as a continuum of modern creative practices of photographic and mass print collage aimed at self expression and narrative building that co evolved and were readily accessible The book will be of interest to scholars working in art history history of photography visual culture material culture media studies and cultural studies [Saving Israel](#) Daniel Gordis, 2010-06-17 Is Israel worth saving and if so how do we secure its future The Jewish State must end say its enemies from intellectuals like Tony Judt to hate filled demagogues like Mahmoud Ahmadinejad Even average Israelis are wondering if they wouldn't be better off somewhere else and whether they ought to persevere Daniel Gordis is confident his fellow Jews can renew their faith in the cause and in [Saving Israel](#) he outlines how 2009 National Jewish Book Award winner Addresses the most pressing issues faced by Israel and American Jews today without recycling the same old arguments Lays to rest some of the most pernicious myths about Israel including Jews could thrive without Israel Israeli Arabs just want equality and Palestinians just want their own state peace will come if Israel will just do the right things Morally powerful from a writer whose reflections are consistently as intellectually impressive as they are moving Gordis addresses the exigencies of our time with the urgency they overridingly demand and with the depth of feeling they inspire Cynthia Ozick Gordis has written many popular personal essays and memoirs in the past but [Saving Israel](#) is a full throated call to arms Never has the case for defending no celebrating the existence of Israel been so clear so passionate or so worthy of wholehearted support [The Arabs and the Holocaust](#) Gilbert Achcar, 2010-04-13 An unprecedented and judicious examination of what the Holocaust means and doesn't mean in the Arab world one of the most explosive subjects of our time There is no more inflammatory topic than the Arabs and the Holocaust the phrase alone can occasion outrage The terrain is dense with ugly claims and counterclaims one side is charged with Holocaust denial the other with exploiting a tragedy while denying the tragedies of others In this pathbreaking book political scientist Gilbert Achcar explores these conflicting narratives and considers their role in today's Middle East dispute He analyzes the various Arab responses to Nazism from the earliest intimations of the genocide through the creation of Israel and the destruction of Palestine and up to our own time critically assessing the political and historical context for these responses Finally he challenges distortions of the historical record while making no concessions to anti-Semitism or Holocaust denial Valid criticism of the other Achcar insists must go hand in hand with criticism of oneself Drawing on previously unseen sources in multiple languages Achcar offers a unique mapping of the Arab world in the process defusing an international propaganda war that has become a major stumbling block in the path of Arab Western understanding **Open Wounds** Vicken Cheterian, 2015-09-16 The assassination of the author Hrant Dink in Istanbul in 2007 a high profile advocate of Turkish Armenian reconciliation reignited the debate in Turkey on the annihilation

of the Ottoman Armenians Many Turks soon re awakened to their Armenian heritage reflecting on how their grandparents were forcibly Islamised and Turkified and the suffering their families endured to keep their stories secret There was public debate around Armenian property confiscated by the Turkish state and the extermination of the minorities At last the silence had been broken Open Wounds explains how after the First World War the new Turkish Republic forcibly erased the memory of the atrocities and traces of Armenians from their historic lands a process to which the international community turned a blind eye The price for this amnesia was Vicken Cheterian argues a century of genocide Turkish intellectuals acknowledge the price society must pay collectively to forget such traumatic events and that Turkey cannot solve its recurrent conflicts with its minorities like the Kurds today nor have an open and democratic society without addressing the original sin on which the state was founded the Armenian Genocide

A History of Czechs and Jews Martin Wein, 2015-02-11 Was Israel founded by Czechoslovakia A History of Czechs and Jews examines this question and the resulting findings are complex Czechoslovakia did provide critical secret military sponsorship to Israel around 1948 but this alliance was short lived and terminated with the Prague Trial of 1952 Israel s Czech guns were German as much as Czech and the Soviet Union strongly encouraged Czechoslovakia s help for Israel Most importantly however the Czechoslovak Israeli military cooperation was only part of a much larger picture Since the mid 1800s Czechs and Jews have been systematically comparing themselves to each other in literature music politics diplomacy media and historiography A shared perception of similar fates of two small nations trapped between East and West in constant existential danger helped forge a Czech Jewish national friendship amid periods of estrangement Yet this Czech Jewish national friendship an idea that can be traced from Masaryk and Kafka via Weizman and Ben Gurion to Havel and Netanyahu was more myth than reality Relations were often mixed and highly dependent on larger historical developments affecting Central Europe and the Middle East As the Czech Republic emerges as Israel s main EU ally this book provides a timely analysis of this old new alliance and is essential reading for students and scholars with an interest in History and Jewish Studies

Above the Death Pits, Beneath the Flag Jackie Feldman, 2008 Israeli youth voyages to Poland are one of the most popular and influential forms of transmission of Holocaust memory in Israeli society Through intensive participant observation group discussions student diaries and questionnaires the author demonstrates how the State shapes Poland into a living deathscape of Diaspora Jewry In the course of the voyage students undergo a rite de passage in which they are transformed into victims victorious survivors and finally witnesses of the witnesses By viewing touching and smelling Holocaust period ruins and remains by accompanying the survivors on the sites of their suffering and survival crying together and performing commemorative ceremonies at the death sites students from a wide variety of family backgrounds become carriers of Shoah memory They come to see the State and its defense as the romanticized answer to the Shoah These voyages are a bureaucratic response to uncertainty and fluidity of identity in an increasingly globalized and fragmented society This study adds a measured and compassionate ethical voice to ideological

debates surrounding educational and cultural forms of encountering the past in contemporary Israel and raises further questions about the representation of the Holocaust after the demise of the last living witnesses
