**Polychrome Sculpture** Johannes Taubert, 2016-02-15 In the decades since its initial publication in German in 1978 Polychrome Sculpture has come to be widely regarded as a watershed text on the making and meaning of European medieval and Baroque painted wood sculpture An early proponent of interdisciplinary research Johannes Taubert played a pioneering role in combining the rigorous scientific analysis of materials with a fuller understanding of form and function an approach that has led to the development of technical art history as practiced today Many of the essays in this volume apply such scientific techniques as microscopic analysis to an art historical understanding of Romanesque and late Gothic wood sculpture revealing that far from serving a merely decorative function the painted surface of these works was intricately connected to their meaning The paint layers on the sculptures for example which the author spent years documenting through close examination and analysis were intended to impart a heightened sense of reality to the life sized sculptures thereby enhancing the viewer's experience of worship Taubert believed it was crucial for conservators to understand this context before undertaking any treatments No other book offers such a focused subtle and interdisciplinary examination of the subject as Polychrome Sculpture This influential work is now available in English for the first time in a meticulous translation enhanced and updated by new color illustrations annotations to the original text and a new introduction

Kracht, 2018-04 Framed by theories of syncretism and revitalization Religious Revitalization among the Kiowas examines changes in Kiowa belief and ritual in the final decades of the nineteenth century During the height of the horse and bison culture Kiowa beliefs were founded in the notion of *daudau* a force permeating the universe that was accessible through vision quests Following the end of the Southern Plains wars in 1875 the Kiowas were confined within the boundaries of the Kiowa Comanche Apache Plains Apache Reservation As wards of the government they witnessed the extinction of the bison herds which led to the collapse of the Sun Dance by 1890 Though prophet movements in the 1880s had failed to restore the bison other religions emerged to fill the void left by the loss of the Sun Dance Kiowas now sought *daudau* through the Ghost Dance Christianity and the Peyote religion Religious Revitalization among the Kiowas examines the historical and sociocultural conditions that spawned the new religions that arrived in Kiowa country at the end of the nineteenth century as well as Native and non Native reactions to them A thorough examination of these sources reveals how resilient and adaptable the Kiowas were in the face of cultural genocide between 1883 and 1933 Although the prophet movements and the Ghost Dance were short lived Christianity and the Native American Church have persevered into the twenty first century Benjamin R.
