simply artless Granted the heroic and epic mode of the Renaissance was that practiced most self consciously and proudly Yet it is one of the accomplishments of Renaissance art that heroic and epic subjects and style occasionally made way for less affirmative subjects and compositional norms for improvisation away from the Vitruvian ideal The limits of idealizing art during the very period denominated as High Renaissance is a topic that involves us in the history of class prejudice of gender stereotypes of the conceptualization of the present of attitudes toward the ordinary and of scruples about the power of sight Exploring the low style leads us particularly to works of art intended for display in private settings as personally owned objects potentially as signs of quite personal emotions rather than as subscriptions to publicly vaunted ideologies Not all of them show shepherds or peasants none of them not even Giorgione s *La tempesta* is a classic pastoral idyll The rosso stile is to be understood as more comprehensive than that The issue is not only who is represented but whether the work can or cannot be fit into the mold of a basically affirmative art

Maritain's Ontology of the Work of Art J.W.

Hanke, 2012-12-06 I Since the appearance in 1902 of Benedetto Croce s *L estetica come scienza dell espressione e linguistica generale* the problem of the ontology of the work of art or aesthetic object what kind of thing it is and what its mode of being is has come to occupy a central place in the philosophy of art Moreover a particular conception of the identity of art objects is at present a driving force in some quarters of the art world itself As Harold Rosenberg so well points out Minimalist or Reductive Art has attempted sometimes quite self consciously to establish the autonomous physical reality of the work of art by emptying it of all expressive and representational content What is the ontological problem One rather crude way of stating it is to ask where the work of art or object of aesthetic contemplation exists Is it to pick some examples to be identified with the material product of the artist s labors which exists spatially outside of and independently of artist and beholder Or does it exist only in the mind of the beholder or the artist Is it either one perception of a beholder or a series of his perceptions Or is it the class of all perceptions of either all spectators or all qualified spectators Put another way it would be a question of whether and to what such purported names as Beethoven s Fifth Symphony refer

Moral Upbringing through the Arts and Literature Pawel Kazmierczak, Jolanta Rzegocka, 2018-12-17

Mark Twain the great American writer of the South whose characters struggle with difficult choices famously said Always do what is right It will gratify half of mankind and astound the other Taking Twain s phrase as a starting point this book considers how literature and art explore different systems of values and principles of conduct and how they can teach us to cope at times of trial Morality remains one of the most contested areas of thought and ethics in the modern world due to numerous misapprehensions and the move away from solidarity from

what we share and hold in common particularly our inherent pursuit of virtue and consideration of principles concerning the distinction between right and wrong good and bad Featuring essays by scholars from countries which have seen traditions of virtue and character formation perish in the course of tragic social experiments this book highlights the role of literature and arts in educating about virtues and character in both a regional and global context The volume offers philosophical analysis of moral education and engages with the literary canon discussing the ways in which virtue was taught and can still be taught with Aristotle as one of the regained tools of learning The essays span countries from England Spain Italy and Belgium to the USA Costa Rica ancient China and Israel with Poland the Polish Lithuanian Commonwealth and Central Europe receiving considerable coverage They address themes of virtue and character formation from the Bronze Age to the present and serve as inspiring reading for educators literary scholars historians ethicists artists and active readers **Graham's American Monthly Magazine of Literature, Art, and Fashion** ,1855
