Medieval and Early Modern Representations of Authority in Scotland and the British Isles Kate Buchanan, Lucinda H.S. Dean, 2016-05-20 What use is it to be given authority over men and lands if others do not know about it Furthermore what use is that authority if those who know about it do not respect it or recognise its jurisdiction And what strategies and language written and spoken visual and auditory material cultural and political did those in authority throughout the medieval and early modern era use to project and make known their power These questions have been crucial since regulations for governance entered society and are found at the core of this volume In order to address these issues from an historical perspective this collection of essays considers representations of authority made by a cross section of society within the British Isles Arranged in thematic sections the 14 essays in the collection bridge the divide between medieval and early modern to build up understanding of the developments and continuities that can be followed across the centuries in question Whether crown or noble government or church burgh or merchant all desired power and influence but their means of representing authority were very different These essays encompass a myriad of methods demonstrating power and disseminating the image of authority including material culture art literature architecture and landscapes saintly cults speeches and propaganda martial posturing and strategic alliances music liturgy and ceremonial display Thus this interdisciplinary collection illuminates the variable forms in which authority was presented by key individuals and institutions in Scotland and the British Isles By placing these within the context of the European powers with whom they interacted this volume also underlines the unique relationships developed between the people and those who exercised authority over them

*Journal &c* ,1914 Transforming the Church Interior in Renaissance Florence Joanne Allen,2022-05-05 Before the late

sixteenth century the churches of Florence were internally divided by monumental screens that separated the laity in the nave from the clergy in the choir precinct Enabling both separation and mediation these screens were impressive artistic structures that controlled social interactions facilitated liturgical performances and variably framed or obscured religious ritual and imagery In the 1560s and 70s screens were routinely destroyed in a period of religious reforms irreversibly transforming the function meaning and spatial dynamics of the church interior In this volume Joanne Allen explores the widespread presence of screens and their role in Florentine social and religious life prior to the Counter Reformation She presents unpublished documentation and new reconstructions of screens and the choir precincts which they delimited Elucidating issues such as gender patronage and class her study makes these vanished structures comprehensible and deepens our understanding of the impact of religious reform on church architecture **The Forgotten Chaucer**

**Scholarship of Mary Eliza Haweis, 1848-1898** Mary Flowers Braswell, 2016-06-17 The author of numerous books on Geoffrey Chaucer the nineteenth century scholar Mary Eliza Haweis has been largely erased from general histories of Chaucer studies In her critical biography Mary Flowers Braswell traces Haweis s career bringing her out of obscurity and placing her contributions to Chaucer scholarship in the context of those of influential Chaucerians of the period such as Frederick James Furnivall Walford Dakin Selby and Walter Rye Braswell draws on extensive archival research from a broad range of late Victorian newspapers journals and society papers to weave a fascinating picture of Haweis s own life and work which in quantity and quality rivaled that of her contemporaries Haweis we discover corrected assumptions related to the Chaucer seal and texts bringing her findings to the attention of the public in works such as Chaucer for Schools the first textbook on the poet Braswell also sheds light on the ways in which fashion society culture art and leisure activities intermingled with scholarship archival recovery museum work editing writing and publishing in the late Victorian middle and upper classes Concluding with a discussion of Haweis s forgotten role as head of the Chaucer section for the National Home Reading Union Braswell s book makes a strong case both for Haweis s influence as a Chaucer scholar and her importance as an educator in nineteenth century Britain and the United States The Trouble with Tom Paul Collins, 2009-07-07 Follows the trail of the corpse of the author of Common Sense who was shunned as an infidel by the church buried in an open field on a New York farm and whose body was later dug up and moved to Britain years later by a well meaning admirer who never got around to burying the remains
