Painting With Ilona:

Painting With Ilona Ilona R. Smithkin, 1983-06 **Lives of the Artists** Calvin Tomkins, 2010-01-05 Whether writing about Jasper Johns or Jeff Koons Cindy Sherman or Richard Serra Calvin Tomkins shows why it is both easier and more difficult to make art today If art can be anything where do you begin For more than three decades Calvin Tomkins's incisive profiles in *The New Yorker* have given readers the most satisfying reports on contemporary art and artists available in any language In *Lives of the Artists* ten major artists are captured in Tomkins's cool and ironic style to record the new directions art is taking during these days of limitless freedom As formal technique and rigorous training continue to fall away art has become an approach to living As the author says the lives of contemporary artists are today so integral to what they make that the two cannot be considered in isolation Among the artists profiled are Jeff Koons and Damien Hirst the reigning heirs of deliberately outrageous art that feeds off the allegedly corrupting influences of capitalist glut and entertainment Matthew Barney of the pregenital obsessions Cindy Sherman who manages multiple transformations as she disappears into her own work and Julian Schnabel who has forged a second career as award winning film director Tomkins shows that the making of art remains among the most demanding jobs on earth Take a Number, Darling Jack Sharkey, 1976 Since concert pianist Duncan Latimer and his wife Ellen a famous soap opera star lead impeccable lives their PR lady has no qualms over having a reporter from a scandal magazine interview them But just before he arrives so does Duncan's old Navy buddy and Ellen's former lover from her literally messy past as well as an extra wife Duncan forgot to tell anyone about It's crazy and comical confusion all the way *The Stargazer* Martha Grimes, 2013-07-16 Saturday night It was not a night to be spending alone riding a bus When he was a teenager at the comprehensive Saturday night without a girl without a date without at least your mates to raise hell with Saturday night alone would have been shameful One wouldn't want to be seen alone on a Saturday night Who are you kidding That was never your life Jury not yours *Painting a New World* Donna Pierce, Rogelio Ruiz Gomar, Clara Bargellini, Frederick and Jan Mayer Center for Pre-Columbian and Spanish Colonial Art, 2004-05-01 The little known story of viceregal Mexico is told by an international team of scholars whose work was previously available only piecemeal or not at all in English Much of their research was undertaken especially for this volume **BOOK JACKET**

Imagining Identity in New Spain Magali M. Carrera, 2010-01-01 Using an interdisciplinary approach that also considers legal literary and religious documents of the period Magali Carrera focuses on eighteenth century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized Winner Book Award Association of Latin American Art 2004 Reacting to the rising numbers of mixed blood Spanish Indian Black African people in its New Spain colony the eighteenth century Bourbon government of Spain attempted to categorize and control its colonial subjects through increasing social regulation of their bodies and the spaces they inhabited The discourse of calidad status and raza lineage on which the regulations were based also found expression in the visual culture of New Spain particularly in

the unique genre of casta paintings which purported to portray discrete categories of mixed blood plebeians Using an interdisciplinary approach that also considers legal literary and religious documents of the period Magali Carrera focuses on eighteenth century portraiture and casta paintings to understand how the people and spaces of New Spain were conceptualized and visualized She explains how these visual practices emphasized a seeming realism that constructed colonial bodies elite and non elite as knowable and visible At the same time however she argues that the chaotic specificity of the lives and lived conditions in eighteenth century New Spain belied the illusion of social orderliness and totality narrated in its visual art Ultimately she concludes the inherent ambiguity of the colonial body and its spaces brought chaos to all dreams of order

Cosmopolitanism in Mexican Visual Culture María Fernández, 2014-01-06 Since the colonial era Mexican art has emerged from an ongoing process of negotiation between the local and the global which frequently involves invention synthesis and transformation of diverse discursive and artistic traditions In this pathfinding book Mar a Fern ndez uses the concept of cosmopolitanism to explore this important aspect of Mexican art in which visual culture and power relations unite the local and the global the national and the international the universal and the particular She argues that in Mexico as in other colonized regions colonization constructed power dynamics and forms of violence that persisted in the independent nation state Accordingly Fern ndez presents not only the visual qualities of objects but also the discourses ideas desires and practices that are fundamental to the very existence of visual objects Fern ndez organizes episodes in the history of Mexican art and architecture ranging from the seventeenth century to the end of the twentieth century around the consistent but unacknowledged historical theme of cosmopolitanism allowing readers to discern relationships among various historical periods and works that are new and yet simultaneously dependent on their predecessors She uses case studies of art and architecture produced in response to government commissions to demonstrate that established visual forms and meanings in Mexican art reflect and inform desires expectations memories and ways of being in the world in short that visual culture and cosmopolitanism are fundamental to processes of subjectification and identity

originated in the popular music culture of the 1970s and has since grown into a rich cultural activity encompassing numerous forms of media. The act of recombining pre-existing material continues to bring up pressing questions of authenticity, reception, authorship, copyright, and the techno-politics of media activism, especially with the emergence of artificial intelligence which relies on remix methods and principles for content production. This book approaches remix studies from various angles, including sections on history, aesthetics, ethics, politics, and practice, and offers theoretical chapters alongside case studies of remix projects. This second edition includes ten new chapters and nine revised chapters. Reprinted chapters from the first edition are updated with editorial prefaces. This volume offers in-depth insight for long-term relevance among the many interdisciplinary fields that rely on and also contribute to remix studies. This companion is a valuable resource for both researchers and remix practitioners as well as a teaching tool for instructors using remix practices in the classroom.

Mapping Diversity in Latin America Mabel Moraña, Miguel A. Valerio, 2025-02-28. *Mapping Diversity in Latin America* offers ample critical coverage of recent approaches to the historical study of race and ethnicity in Latin America since the arrival of Spanish and Portuguese colonizers to the present. Bringing together the work of leading scholars, this volume presents readers with a thorough and updated examination of the formation and evolution of ideas surrounding race and ethnicity, social movements, and political processes in Latin America that provides multiple routes for future research on the topic. The book's nineteen chapters establish the basis for a productive comparative analysis of racial developments in the whole continent to allow for a combination of diachronic and synchronic study of regional processes. Both the scope of the book and the historical and geocultural coverage on these topics are unique in the field of Latin American Studies. Taking an interdisciplinary approach to understanding issues of collective identity, otherness, alterity, and the like, *Mapping Diversity in Latin America* sheds light on histories that have been traditionally overlooked in texts on race in Latin America, such as the rich history of diasporic Asian, Syrian, Lebanese, and Jewish communities, and the more recent emergence of Latinx populations in the United States. The book includes a critical examination of fundamental concepts such as *mestizaje*, *mulataje*, *creolization*, *negritud*, and *blanquitud*, as well as critical and theoretical approaches to the study of these issues in postcolonial societies.
