Dürer's Lost Masterpiece Ulinka Rublack,2023 Dürer's Lost Masterpiece tracks the history of a turning point in the career of the celebrated German artist Albrecht Dürer 1471-1528 when he stopped painting altarpieces after arguing with a merchant patron over payment As an eloquent homage to Dürer's life it brings us closer to the creation and meaning of his paintings than ever before Dürer's Lost Masterpiece considers the celebrated German artist Albrecht Dürer 1471-1528 his time and his legacy It tracks the history of a crucial and often overlooked turning point in his career when Dürer stopped painting altarpieces after falling out with the Frankfurt merchant Jacob Heller over a commission The story of this painting as Dürer's lost masterpiece functions as a lens through which to view the new relationship developing between art collecting and commerce in Europe up to the Thirty Years War 1618-1648 when global trade and cultural exchanges were increasing At the heart of the book is the argument that merchants and their mentalities were crucial for the making of Renaissance art and its legacy for modern art The book draws on a decade of research and uniquely draws the reader into the rich emotional worlds of three merchants each of whom typified the evolving relationship between art and commerce in that entrepreneurial and often ruthless age It brings to life Dürer's determined fight for creative makers to be adequately paid and explores the big questions about how European societies came to value the arts and crafts that remain relevant to our time

The Bookseller, 1909 Official organ of the book trade of the United Kingdom **Bookseller and the Stationery Trades' Journal**, 1908 **Italian Forgers** Carol Helstosky, 2024-05-15 Italian Forgers takes an unorthodox approach to the fascinating topic of art forgery focusing not on art forgery per se but on the major forgery scandals that shifted the Italian art market in response to constant and often intense demand for Italian objects By focusing on power dynamics that both precipitated forgery scandals and forged Italian cultural identities this book connects the debates and discussions about three well-known Italian forgers Giovanni Bastianini Icilio Joni and Alceo Dossena to anchor and investigate the mechanics of the Italian art market from unification through the fascist era Carol Helstosky examines foreign accounts of transactions and Italian writings about the art market The actions and words of Italian dealers illustrate how the Italian art and antiquities market was an undeniably modern industry on par with tourism in terms of its contribution to the Italian economy and to understandings of Italian identity These accounts also reveal how dealers artists go between guides and restorers worked to not only meet the intense demand for Italian products but also to develop highly sophisticated business practices to maintain financial stability and respond to shifts in demand consciously but not always conscientiously Italian Forgers weaves a compelling narrative about the history of Italian identity forgery and the value of the past As a result Helstosky brings historical perspective to the study of art forgery and art fraud She reveals how historical circumstances and structural imbalances of cultural power shaped the market for art and antiquities and amplified incidents of art deception and forgery scandals **Henry Walters and Bernard Berenson**

Stanley Mazaroff, 2020-05-05 Collecting Italian Renaissance paintings during America's Gilded Age was fraught with risk because of the uncertain identities of the artists and the conflicting interests of the dealers Stanley Mazaroff's fascinating

account of the close relationship between Henry Walters founder of the legendary Walters Art Museum in Baltimore and Bernard Berenson the era's preeminent connoisseur of Italian paintings richly illustrates this important chapter of America's cultural history When Walters opened his Italianate museum in 1909 it was labeled as America's Great Temple of Art With more than 500 Italian paintings including self portraits purportedly by Raphael and Michelangelo Walters's collection was compared favorably with the great collections in London Paris and Berlin In the midst of this fanfare Berenson contacted Walters and offered to analyze his collection sell him additional paintings and write a scholarly catalogue that would trumpet the collection on both sides of the Atlantic What Berenson offered was what Walters desperately needed a badge of scholarship that Berenson's invaluable imprimatur would undoubtedly bring By 1912 Walters had become Berenson's most active client their business alliance wrapped in a warm and personal friendship But this relationship soon became strained and was finally severed by a confluence of broken promises inattention deceit and ethical conflict To Walters's chagrin Berenson swept away the self portraits allegedly by Raphael and Michelangelo and publicly scorned paintings that he was supposed to praise Though painful to Walters Berenson's guidance ultimately led to a panoramic collection that beautifully told the great history of Italian Renaissance painting Based primarily on correspondence and other archival documents recently discovered at the Walters Art Museum and the Villa I Tatti in Florence the intriguing story of Walters and Berenson offers unusual insight into the pleasures and perils of collecting Italian Renaissance paintings the ethics in the marketplace and the founding of American art museums
