Soussloff, 2017-11-23 Michel Foucault had been concerned about painting and the meaning of the image from his earliest publications yet this aspect of his thought is largely neglected within the disciplines of art history and aesthetic theory In *Foucault on Painting* Catherine M Soussloff argues that Foucault s sustained engagement with European art history critically addresses present concerns about the mediated nature of the image in the digital age Foucault s writing on painting covers four discrete periods in European art history seventeenth century southern Baroque mid nineteenth century French painting Surrealism and figurative painting in the 1960s and 70s as well as five individual artists Vel zquez Manet Magritte Paul Reyberolle and G rard Fromanger As Soussloff reveals in this book Foucault followed a French intellectual tradition dating back to the seventeenth century which understands painting as a separate area of knowledge Painting a practice long considered silent in its operations and effects afforded Foucault an ideal discipline to think about history and philosophy simultaneously Using a comparative approach grounded in art history and aesthetics Soussloff explores the meaning of painting for Foucault s philosophy and for contemporary art theory proposing a new relevance for a Foucauldian view of ethics and the pleasures and predicaments of contemporary existence

Writing and Filming the Painting Laura M. Sager Eidt,2008 This innovative interdisciplinary study compares the uses of painting in literary texts and films In developing a framework of four types of ekphrasis the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists Analyzing selected works of art by Goya Rembrandt and Vermeer and their ekphrastic treatment in various texts and films this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity Because of its highly cross disciplinary nature this book is of interest not only to scholars of literature and aesthetics but also for scholars of film studies By providing an innovative approach to discussing non documentary films about artists the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century

Painting as Model Yve-Alain Bois,1993-05-04 Informed by both structuralism and poststructuralism these essays by art critic and historian Yve Alain Bois seek to redefine the status of theory in modernist critical discourse Warning against the uncritical adoption of theoretical fashions and equally against the a priori rejection of all theory Bois argues that theory is best employed in response to the specific demands of a critical problem The essays lucidly demonstrate the uses of various theoretical approaches in conjunction with close reading of both paintings and texts

Iconoclasm in Aesthetics Michael Kelly,2003-09-04 Contemporary theorizing about art is dominated by a clash between two approaches philosophers have characteristically taken the view that art is a vehicle of some universal meaning or truth while art historians and others working in the humanities emphasize the concrete nature and historical particularity of the work of art Is art capable of sustaining these two approaches Or as Kelly argues is art rather determined by its historical particularity If so then if philosophers continue to pursue mainly the universality of art they inadvertently end up exhibiting a disinterest and distrust in art Kelly calls such disinterest and distrust iconoclasm and in this book he discusses four philosophers Heidegger Adorno Derrida and Danto who are ultimately iconoclasts despite their deep philosophical engagement with the arts He concludes by suggesting ways in which iconoclasm in aesthetics can be avoided in the future
