Nelson, 2017-07-05 *Slavery Geography and Empire in Nineteenth Century Marine Landscapes of Montreal and Jamaica* is among the first *Slavery Studies* books and the first in *Art History* to juxtapose temperate and tropical slavery Charmaine A Nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest One could easily assume that nineteenth century Montreal and Jamaica were worlds apart but through her astute examination of marine landscape art the author re connects these two significant British island colonies sites of colonial ports with profound economic and military value Through an analysis of prints illustrated travel books and maps the author exposes the fallacy of their disconnection arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid Canada of its deeply colonial history as an integral part of Britain s global trading network which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations The first study to explore James Hakewill s Jamaican landscapes and William Clark s Antiguan genre studies in depth it also examines the Montreal landscapes of artists including Thomas Davies Robert Sproule George Heriot and James Duncan Breaking new ground Nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists She analyzes this moment of deep political crisis for British slave owners between the end of the slave trade in 1807 and complete abolition in

1833 who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave resistance Nelson explores how vision and cartographic knowledge translated into authority which allowed colonizers to civilize the terrains of the so called New World while belying the oppression of slavery and indigenous displacement

*Visualizing Harbours in the Classical World* Federico Ugolini, 2020-05-14 In recent years there has been intense debate about the reality behind the depiction of maritime cityscapes especially harbours Visualizing Harbours in the Classical World argues that the available textual and iconographic evidence supports the argument that these representations have a

symbolic rather than literal meaning and message and moreover that the traditional view that all these media represent the reality of the contemporary cityscapes is often unrealistic Bridging the gap between archaeological sciences and the humanities it ably integrates iconographic materials epigraphic sources history and archaeology along with visual culture Focusing on three main ancient ports Alexandria Rome and Leptis Magna Federico Ugolini considers a range of issues around harbour iconography from the triumphal imagery of monumental harbours and the symbolism of harbour images their identification across the Mediterranean and their symbolic ideological and propagandistic messages to the ways in which aspects of Imperial authority and control over the seas were expressed in the iconography of the Julio Claudian Trajan and Severii periods how they reflected the reputé growth and power of the mercantile class during the Imperial era and how the use of imagery reflected euergetism and paideia which would inform the Roman audience about who had power over the sea

**The Origins of Israeli Mythology** David Ohana,2012-01-23 It is claimed that Zionism as a meta narrative has been formed through contradiction to two alternative models the Canaanite and crusader narratives These narratives are the most daring and heretical assaults on Israeli Jewish identity The Israelis according to the Canaanite narrative are from this place and belong only here according to the crusader narrative they are from another place and belong there The mythological construction of Zionism as a modern crusade describes Israel as a Western colonial enterprise planted in the heart of the East and alien to the area its logic and its peoples The nativist construction of Israel as neo Canaanism demands breaking away from the chain of historical continuity These are the greatest anxieties that Zionism and Israel needed to encounter and answer forcefully The Origins of Israeli Mythology seeks to examine the intellectual archaeology of Israeli mythology as it reveals itself through the Canaanite and crusader narratives
