Subject Headings for School and Public Libraries Joanna F. Fountain, 2012-01-16 For public and school libraries this resource reflects recent changes in Library of Congress subject headings and authority files and provides bilingual information essential to reference librarians and catalogers serving Spanish speakers Libraries must provide better access to their collections for all users including Spanish language materials The American Library Association has recognized this increasing need Subject Headings for School and Public Libraries Bilingual Fourth Edition is the only resource available that provides both authorized and reference entries in English and Spanish A first check source for the most frequently used headings needed in school and public libraries this book incorporates thousands of new and revised entries to assist in applying LCSH and CSH headings Of the approximately 30 000 headings listed most include cross references and all of the cross reference terms are translated MARC21 tags are included for all authorized entries to simplify entering them into computerized catalogs while indexes to all headings and free floating subdivisions are provided in translation from Spanish to English This book gives librarians access to accurate translations of the subject terms printed in books published and cataloged in English speaking countries invaluable information in settings with Spanish speaking patrons

*Cocaine* Mark Galanter, Barry Stimmel, 2014-02-04 Here

is a timely volume that reviews the current state of knowledge of cocaine use. Some of the country's leading authorities on cocaine use and abuse examine the pharmacology and neurochemistry of central stimulant abuse with a focus on the specific effects of cocaine. They also address recent experiences concerning the epidemiology of cocaine use from several different databases. This highly useful and informative book also explains the effectiveness of the existing diagnostic and treatment approaches.

**Intensive Outpatient Treatment for the Addictions** Edward Gottheil, 1997-04-25

Intensive Outpatient Treatment for the Addictions provides descriptions, discussions, and the first outcome evaluations of the new intensive outpatient treatment modality. Giving you a general history and discussion of key principles, detailed descriptions of program procedures, and follow-up data, a study of the characteristics of outcomes of early dropouts, and a comparison between intensive outpatient programs and traditional programs, this book will help government, HMO, and other substance abuse treatment planners and managers in designing the structure and services within their treatment delivery systems. Based on clinical observations and reports, intensive outpatient treatment approaches have quickly become common, even preferred practice. This speedy acceptance occurred, however, without accompanying research evaluation and support.

Intensive Outpatient Treatment for the Addictions provides the evaluation of results and the descriptions of principles and procedures you need to understand and conduct intensive outpatient treatment. Inside this resource, you will find a randomized controlled comparison of intensive outpatient treatment and individual counseling, a comparison of the outcome of six intensive outpatient treatment and ten traditional programs, an assessment of readiness for change stage in relation to improvement as measured by the Addiction Severity Index, treatment evaluation methodology, outcomes of substance abuse treatment. Rather than question whether intensive outpatient treatment is better than traditional treatment, however, the important issue for further research is more likely to be which patients do better in which modalities.

Intensive Outpatient Treatment for the Addictions allows you to help your patients by showing you how to design and provide the treatment delivery system that will be most effective.
