The Iconography of Humiliation in New Kingdom Egypt Mark D. Janzen, 2024-11-26 This volume analyzes the iconography of bound foreigners on New Kingdom monuments and artifacts to better understand Egyptian perspectives on foreigners and their treatment of prisoners of war. Depictions of foreign captives in humiliating or torturous poses are ubiquitous in Egyptian iconography and reflect the celebratory nature of royal ideology in this case by degrading enemies. Egyptologists have scrutinized these scenes for details regarding various military matters but existing scholarly literature offers few studies focused on enemy captives and the sheer physical brutality of the depictions of their bindings. Janzen examines the bound foreigner motif in New Kingdom sources demonstrating that these prisoners of war played vital roles in Egyptian ideology and religion. Their depictions in bizarre or torturous poses served to reinforce ideological underpinnings of pharaoh's right to rule perpetually ritualizing their defeat and or punishment through the presence of this iconography on ceremonial objects used primarily by the king and on temple walls and monuments. The subjugation of foreigners also constituted an important economic function as incorporating prisoners of war into the Egyptian workforce was crucial for economic prosperity and growth in New Kingdom Egypt. The volume also explores cross cultural and anthropological parallels placing Egyptian treatment of foreign prisoners in its ancient context. The book provides a fascinating study of the subject suitable for scholars and students of Egyptology and ancient history particularly that of New Kingdom Egypt as well as those working on power warfare and violence in the ancient world more broadly.

The Architecture of Late Assyrian Royal Palaces David Kertai, 2015 The Late Assyrian Empire c 900-612 BCE was the first

state to rule over the major centres of the Middle East and the Late Assyrian court inhabited some of the most monumental palaces of its time The Architecture of Late Assyrian Royal Palaces is the first volume to provide an in depth analysis of Late Assyrian palatial architecture offering a general introduction to all key royal palaces in the major centres of the empire Assur Kaluhu Dur Sharruken and Nineveh Where previous research has often focused on the duality between public and private realms this volume redefines the cultural principles governing these palaces and proposes a new historical framework analysing the spatial organization of the palace community which placed the king front and centre It brings together the architecture of such palaces as currently understood within the broader framework of textual and art historical sources and argues that architectural changes were guided by a need to accommodate ever larger groups as the empire grew in size

Archaeology and Bible History Joseph P. Free, Howard Frederic Vos, 1992 Using Bible history as the unifying element rather than a topical approach this book shows how archaeological discoveries in Bible lands have helped to confirm the accuracy of Scripture The authors also deal with issues of Biblical interpretation and criticism not strictly archaeological in nature Free's text has been updated and revised by Vos **A Guide to the Babylonian and Assyrian Antiquities** British Museum, 1908 **Ancient History: a Revised Chronology** Anthony Lyle, 2012-05-29 This book is a culmination of that research After trashing his work 10 times and starting over he managed to get a revised chronology that seemed to be more accurate than that being put out by the status quo universities It combines secular world history with Biblical history in a far more even and smoother match than that proposed by former historians who have attempted the same This is his version 12 which doesn't try to match different histories based on dates but rather by matching people and events and then applying revised dates to those events and people This work will call into question the conclusions of historians of the last 200 years about the ancient periods of time and provide an alternative dating for those times It is a World History in that it incorporates the ancient history of India China Japan as well as the traditional Middle Eastern and European societies of ancient times It re-evaluates the beginnings of civilization and the solar system refuting common historical and scientific beliefs of the modern world Documents that have previously been written off as Mythology have been re-evaluated as well as they give a different perspective of ancient times and what happened back then The use and creation of calendars is an important feature added to this work which is seldom taken into account by modern histories Incorporated in this work are many of the more recent archaeological finds that have yet to be incorporated in status quo works and institutions He makes no apology for the fact that this is Biblically based and the conclusions that have been reached by this work fit very well in Biblical contexts and adds some understanding to the events that took place in the Biblical narratives **A guide to the exhibition galleries of the British museum, Bloomsbury. Under revision** British museum, 1895
