*Theæ palace of the sun* Robert W. Berger,1993      **Palace of the Sun** Robert W. Berger,2010-11-01 The Palace of the Sun is the first substantial book length study of the parts of the Louvre built under Louis XIV in the 1660s and 1670s since Louis Hautecœur's *Le Louvre et les Tuileries de Louis XIV* 1927 Berger discusses a broad range of topics from architectural symbolism to structural analysis All the varied ideas for completing the Louvre from the beginning of the 17th century and forward are surveyed and the evolution of the final design during the crucial years 1667-68 is analyzed in full detail The text is supported throughout by a corpus of source documents and writings never before assembled in one place Here for the first time all the known drawings for the Sun King's Louvre are published together accompanied by a catalogue raisonné

**Antiquarianism and the Visual Histories of Louis XIV** Robert Wellington,2017-07-05 Antiquarianism and the Visual Histories of Louis XIV Artifacts for a Future Past provides a new interpretation of objects and images commissioned by Louis XIV 1638-1715 to document his reign for posterity The Sun King's image makers based their prediction of how future historians would interpret the material remains of their culture on contemporary antiquarian methods creating new works of art as artifacts for a future time The need for such items to function as historical evidence led to many pictorial developments and medals played a central role in this Coin like in form but not currency the medal was the consummate antiquarian object made in imitation of ancient coins used to study the past Yet medals are often elided from the narrative of the arts of ancient France their neglect wholly disproportionate to the cultural status that they once held This revisionary study uncovers a numismatic sensibility throughout the iconography of Louis XIV and in the defining monuments of his age It looks beyond the standard political reading of the works of art made to document Louis XIV's history to argue that they are the results of a creative process wedded to antiquarianism an intellectual culture that provided a model for the production of history in the grand siècle      **King of the World** Philip Mansel,2020-09-01 Louis XIV was a man in pursuit of glory Not content to be the ruler of a world power he wanted the power to rule the world And for a time he came tantalizingly close Philip Mansel's *King of the World* is the most comprehensive and up to date biography in English of this hypnotic flawed figure who continues to captivate our attention This lively work takes Louis outside Versailles and shows the true extent of his global ambitions with stops in London Madrid Constantinople Bangkok and beyond We witness the importance of his alliance with the Spanish crown and his success in securing Spain for his descendants his enmity with England and his relations with the rest of Europe as well as Asia Africa and the Americas We also see the king's effect on the two great global diasporas of Huguenots and Jacobites and their influence on him as he failed in his brutal attempts to stop Protestants from leaving France Along the way we are enveloped in the splendor of Louis's court and the fascinating cast of characters who prostrated and plotted within it *King of the World* is exceptionally researched drawing on international archives and incorporating sources who knew the king intimately including the newly released correspondence of Louis's second wife Madame de Maintenon Mansel

s narrative flair is a perfect match for this grand figure and he brings the Sun King's world to vivid life This is a global biography of a global king whose power was extensive but also limited by laws and circumstances and whose interests and ambitions stretched far beyond his homeland Through it all we watch Louis XIV progressively turn from a dazzling attractive young king to a belligerent reactionary who sets France on the path to 1789 It is a convincing and compelling portrait of a man who three hundred years after his death still epitomizes the idea of le grand monarque Foundation, Dedication and Consecration in Early Modern Europe M. Delbeke, M. Schraven, 2011-12-09 Bringing together contributions from art history architectural history historiography and history of law this volume is the first comprehensive exploration of the manifold meanings of foundation dedication and consecration rituals and narratives in early modern culture **Versailles Mirrored** Robert Wellington, 2025-09-04 Why has Louis XIV's Palace of Versailles defining symbol of hedonistic opulence in 17th century France and synonymous with the notion of the divine right of kings continued to shape the aesthetics of cultural capital in the centuries since his death In *Versailles Mirrored* Robert Wellington tracks this enduring fascination with the Sun King's palace through eight case studies spanning the 17th to 21st centuries The book demonstrates how the extravagant palace style began as a symbol of the state in the 17th century how it was adopted by the nouveau riche to show off their financial success in the 19th century and remarkably how that palace look returned to play a role in statecraft in the hands of US President Donald Trump Wellington links the aristocratic architectural traditions of France England and Germany to North America through the lens of Versailles French architecture and the decorative arts Opening with a brief overview of the history of Versailles and the political and cultural motivations of its creation subsequent chapters address aristocratic buildings in France and Germany built by the Sun King's contemporaries historicism in the 19th century in Britain Germany and America and the present day with Trump's buildings and Chateau Louis XIV known as the world's most expensive home purchased by the Crown Prince of Saudi Arabia In uncovering the motivations of those patrons the book ultimately reveals why Versailles remains a powerful point of reference for those who wish to flaunt their social cultural and political capital

*Scene Design at the Court of Louis XIV* Frederick Paul Tollini, 2003 This study adds another insight into the period of Louis XIV that the confluence of the theatrical arts from older traditions developed to shape a distinctly French style which all pertained to the glorification of the Sun King While previous studies have stressed the literary and musical side of the performances of the period this study examines the settings and scene designs which completed the picture of the royal mythologies Besides giving an account of the festivities of Versailles and other venues and setting them in their social environment this work relates the spectacles to the political and social milieu incorporating both contemporary literary theory and cultural history **Paradise** Jasbir Juggi, 2024-03-29 No one knows heaven's paradise but earthly paradises created by mortals may mirror the paradise of the afterlife Mughal Emperor Shah Jahan crafted paradises with Diwan-e-Khas in Delhi and the Taj Mahal in Agra Enthralled by the splendor he inscribed a Persian couplet on the Diwan's arches If there is

paradise on earth it is this it is this it is this The title and contents of this book echo the crux of this couplet This travelogue explores the author's five decade journey through European monarchs architectural marvels of paradisiacal proportions and their eminence relative to South Asian architectural resurgence under Shah Jahan in the 17th century CE Art and Architecture in France, 1500-1700 Anthony Blunt, Richard Beresford, 1999-01-01 The sixteenth and seventeenth centuries in France were an epoch of spectacular artistic activity exemplified by the chateaux of the Loire valley the palace of Versailles the paintings of Poussin and Claude and the sculpture of Coysevox which echo the political and cultural importance of France and the Sun King Anthony Blunt presents major artists and their principal works chronologically provides an overview of the main projects of the period and of the artistic personalities behind them and clearly sets the historical context This new edition of one of the classics of the Pelican History of Art series has been revised and updated with color illustrations and a new bibliography *Structure in Architecture* Rowland J. Mainstone, 2024-10-28 All buildings must stand An adequate structure was as necessary for the simplest primitive hut as it is for the tallest or widest spanning modern building However this requirement became more difficult to satisfy as designers became more adventurous and the experience already gained became less directly applicable The present papers look at the consequent evolution of design methods and the types of understanding that have been essential guides A particular focus is the question of how earlier innovations made without the benefits of modern theory were possible Other papers look in detail at the most outstanding of these achievements such as the church of Hagia Sophia in Istanbul and the dome of Florence Cathedral **Louis XIV's Architect** Richard Ballard, 2023-12-30 A must read for those seeking to understand the intersection of politics and art in a pivotal moment of European history This is a study of royal absolutism in a most extreme form in modern European history and of the nature of Louis XIV's concept of personal glory and of the embodiment of France as a new superpower It is a study of political ideas expressed in architecture to establish Versailles as the centre of French world power and royal prestige It is also a personal story full of social cultural and economic history of the period as seen in the life and work of Louis Le Vau from a humble family of craftsmen who was a self taught architect in the early history of the profession skilled in technical craft skills and even grand design He was a major contributor to the architectural glories of Paris including the Louvre Vincennes Versailles and the College of the Four Nations And all achieved despite interference from the great magnates of the age like Mazarin and Colbert and constant mind changing by the King who wanted every feature in the buildings to reflect his concept of personal royal prestige Le Vau was Louis XIV's First Architect from 1654 until his death and disgrace in 1670 The social cultural economic and political backdrop is striking with court intrigue scandal corruption luxury indulgence and the rise of a rich bourgeoisie but the main thrust of the story concerns Louis XIV and the royal personal ambition and the work of a stone cutter's son who became the Sun King's instrument The study is good on the more technical features of architectural history reminiscent of Pevsner's marvellous Buildings of England series **Let's Go Paris 14th Edition** Let's Go Inc., 2006-11-28
