**Paleoecology**, 1973      **Paleoecology**, 1973      Bulletin of the Southwestern Association of Petroleum Geologists  
American Association of Petroleum Geologists, 1969-07      **Foundations of Paleoecology** S. Kathleen Lyons, Anna K.  
Behrensmeyer, Peter J. Wagner, 2019-12-13 Approximately 99% of all life that has ever existed is extinct Fortunately these  
long dead species have left traces of their lives and interactions with other species in the rock record that paleoecologists use  
to understand how species and ecosystems have changed over time This record of past life allows us to study the dynamic  
nature of the Earth and gives context to current and future ecological challenges This book brings together forty four classic  
papers published between 1924 and 1999 that trace the origins and development of paleoecology The articles cross  
taxonomic groups habitat types geographic areas and time and have made substantial contributions to our knowledge of the  
evolution of life Encompassing the full breadth of paleoecology the book is divided into six parts community and ecosystem  
dynamics community reconstruction diversity dynamics paleoenvironmental reconstruction species interaction and  
taphonomy Each paper is also introduced by a contemporary expert who gives context and explains its importance to ongoing  
paleoecological research A comprehensive introduction to the field Foundations of Paleoecology will be an essential  
reference for new students and established paleoecologists alike
