Pathfinders A Saga Of Exploration In Southern Africa:

The Pathfinders Peter Becker,1985 The Zoological Exploration of Southern Africa 1650-1790 L. C.

Rookmaaker,1989-06-01 The 18th century witnessed a new interest in African animals Research was undertaken at the Cape of Good Hope by explorers whose books manuscripts and drawings concerning mammals and birds are listed and discussed within this text This text gives details on four collections of 300 mammal and bird drawings connected with Levaillant s research Many examples are illustrated The zoological contents of the material left by these seven explorers are analyzed for all mammals and birds emphasizing the history taxonomy nomenclature and zoogeography **Nineteenth-Century**

Travels, Explorations and Empires, Part II vol 7 Peter J Kitson,William Baker,2021-12-16 A collection of writings on travels undertaken in the Victorian era The texts collected in these volumes show how 19th century travel literature served the interests of empire by promoting British political and economic values that translated into manufacturing goods *The Great Ages of Discovery* Stephen J. Pyne,2021-02-23 For more than 600 years Western civilization has relied on exploration to learn about a wider world and universe The Great Ages of Discovery details the different eras of Western exploration in terms of its locations its intellectual contexts the characteristic moral conflicts that underwrote encounters and the grand gestures that distill an age into its essence Historian and MacArthur Fellow Stephen J Pyne identifies three great ages of discovery in his fascinating new book The first age of discovery ranged from the early 15th to the early 18th century sketched out the contours of the globe aligned with the Renaissance and had for its grandest expression the circumnavigation of the world ocean The second age launched in the latter half of the 18th century spanning into the early 20th century carrying the Enlightenment along with it pairing especially with settler societies and had as its prize achievement the crossing of a continent The third age began after World War II and pivoting from Antarctica pushed into the deep oceans and interplanetary space Its grand gesture is Voyager s passage across the solar system Each age had in common a galvanic rivalry Spain and Portugal in the first age Britain and France followed by others in the second and the USSR and USA in the third With a deep and passionate knowledge of the history of Western exploration Pyne takes us on a journey across hundreds of years of geographic trekking The Great Ages of Discovery is an interpretive companion to what became Western civilization s quest narrative with the triumphs and tragedies that grand journey brought the legacies of which are still very much with us *Travellers in Africa* Timothy Youngs,2017-03-01 Works of travel have been the subject of increasingly sophisticated studies in recent years This book undermines the conviction with which nineteenth century British writers talked about darkest Africa It places the works of travel within the rapidly developing dynamic of Victorian imperialism Images of Abyssinia and the means of communicating those images changed in response to social developments in Britain As bourgeois values became increasingly important in the nineteenth century and technology advanced the distance between the consumer and the product were justified by the scorn of African ways of eating The book argues that the ambiguities and

ambivalence of the travellers are revealed in their relation to a range of objects and commodities mentioned in narratives For instance beads occupy the dual role of currency and commodity The book deals with Henry Morton Stanley s expedition to relieve Emin Pasha and attempts to prove that racial representations are in large part determined by the cultural conditions of the traveller s society By looking at Joseph Conrad s *Heart of Darkness* it argues that the text is best read as what it purports to be a kind of travel narrative Only when it is seen as such and is regarded in the context of the fin de siecle can one begin to appreciate both the extent and the limitations of Conrad s innovativeness

White on Black Jan Nederveen Pieterse,1992-01-01 *White on Black* is a compelling visual history of the development of European and American stereotypes of black people over the last two hundred years Its purpose is to show the pervasiveness of prejudice against blacks throughout the western world as expressed in stock in trade racist imagery and caricature Reproducing a wide range of illustrations from engravings and lithographs to advertisements candy wrappings biscuit tins dolls posters and comic strips the book challenges the hidden assumptions of even those who view themselves as unprejudiced Jan Nederveen Pieterse sets Western images of Africa and blacks in a chronological framework including representations from medieval times from the colonial period with its explorers settlers and missionaries from the era of slavery and abolition and from the multicultural societies of the present day Pieterse shows that blacks have been routinely depicted throughout the West as servants entertainers and athletes and that particular countries have developed their own comforting black stereotypes about blacks Sambo and Uncle Tom in the United States Golliwog in Britain Bamboula in France and Black Peter in the Netherlands Looking at conventional portrayals of blacks in the nursery in sexual arenas and in commerce and advertising Pieterse analyzes the conceptual roots of the stereotypes about them The images that he presents have a direct and dramatic impact and they raise questions about the expression of power within popular culture and the force of caricature humor and parody as instruments of oppression

Representing Africa John McAleer,2017-03-01 Southern Africa played a varied but vital role in Britain s maritime and imperial stories it was one of the most intricate pieces in the British imperial strategic jigsaw and representations of southern African landscape and maritime spaces reflect its multifaceted position *Representing Africa* examines the ways in which British travellers explorers and artists viewed southern Africa in a period of evolving and expanding British interest in the region Drawing on a wide range of archival sources contemporary travelogues and visual images many of which have not previously been published in this context this book posits landscape as a useful prism through which to view changing British attitudes towards Africa Richly illustrated this book will be essential reading for scholars and students interested in British African imperial and exploration history art history and landscape and environment studies
