Patients Rights:

Patients' Rights Amnon Carmi, Harry Wax, 2002 *Protecting Patients' Rights?* Stephen Mackenney, Lars Fallberg, 2004
Ombudsman has been adopted in a number of countries over the years as a term for an administrative system that aims to protect the interests of individuals who complain against the system. However, this protection varies considerably from country to country. With an eminent list of international contributors, this book provides an overview of the role of the Ombudsman in relation to healthcare in countries with substantial cultural and historical differences. It demonstrates practical ways to protect patients' rights, looking at how each system operates, identifying the best components from each, as well as proposing future reforms. All healthcare professionals, including policy makers and shapers, will find this essential reading, gaining valuable lessons and insights to incorporate into their own organisations and systems. Naden, 2008 In the field of social policy, some topics are so complicated that they will always be subject to debate. Since no clear right or wrong exists, they are consigned to the gray areas of ongoing dispute. Among such issues open for debate, both across America and in this eye-opening series, are capital punishment, genetic engineering, gun control and global warming. Others involve terrorism and chemical and biological warfare, two outright evils though with highly disputable solutions. *Open for Debate* explores the past, present and future to shed light on complex, high priority public policy. A lucid, readily accessible format offers the pros and cons of each issue, with opinions from social policy experts. It features sidebars of fascinating facts and easy-to-understand diagrams of key statistics. *Open for Debate* introduces future public policy thinkers to both sides of twenty-first century life and death concerns. **Nursing Ethics** Ian E. Thompson, BA(Hons), PhD, Kath M. Melia, Kenneth M. Boyd, Dorothy Horsburgh, 2006-08-18 This title is directed primarily towards health care professionals outside of the United States.
