Those Terrible Grey Horses Stephen Wood, 2015-05-24 The Royal Scots Dragoon Guards and their antecedents have been involved in every major British campaign since the 17th century On 18 June 1815 the Royal Scots Greys charged Napoleon's infantry columns capturing the eagle of the French 45th Infantry Napoleon is said to have commented of the regiment Ah ces terribles chevaux gris those terrible grey horses Today that eagle is the regimental badge of the Royal Scots Dragoon Guards Scotland's senior regiment and her only regular cavalry Here Stephen Wood tells the story of glorious cavalry charges and terrifying tank battles from the Western Front to the liberation of Basra Stunning paintings bring the narrative to life while contemporary photography depicts both the horror and the compassion of modern warfare as witnessed by the officers and troopers of this unique regiment

The Great Awakening and Southern Backcountry Revolutionaries Richard J. Chacon, Michael Charles Scoggins, 2014-07-08 This work documents the impact that the Great Awakening had on the inhabitants of colonial America's Southern Backcountry Special emphasis is placed on how this religious revival furrowed the ground on which the seeds of the American Revolution would sprout The investigation shows how the Great Awakening can be traced to the Europe's Age of Enlightenment This effort also demonstrates how and why this revival spread so rapidly throughout the colonies Special focus is placed on how the Great Awakening impacted the mindset of colonists of the Southern Backcountry Most significantly this research demonstrates how this 18th century revival not only cultivated a sense of American national identity but how it also fostered a colonial mindset against established authority which in turn facilitated the success of the American Revolution Additionally this investigation will document from a cross cultural perspective how religious revivals have fueled other revolutionary movements around the world Such analysis will include the Celtic Druid Revolt the Maji Maji Rebellion of East Africa along with the Mad Man's War in Southeast Asia Lastly the ethical ramifications of minimizing or denying the role that religion played in political and social transformations around the world will be addressed This final point is of paramount importance given current trend in academia to minimize the role that religion played in spurring revolutions while emphasizing material i.e. economic causal factors This attempt at divorcing religion from history is misguided and unethical because it is not only misleading but it also fails to fully

acknowledge the beliefs and values that motivated individuals to take certain actions in the first place [Brutal Virtue](#)

Anthony J. Scotti,2002-01-01 Lieutenant Colonel Banastre Tarleton is one of the most infamous figures in the annals of American Revolutionary War history His British Legion popularly known as the Green Horse or Tarleton s Legion was an extremely mobile military formation consisting of *Revolutionary War in the Southern Back Country, The James Swisher*,2007-12-04 A description of the events that led to the climax and eventual demise of the British campaigns in the Southern theater during the Revolutionary War The introductory chapter presents the British and Hessian employment of the eighteenth century European method of warfare and the ways it contrasted with the colonial army s diverse and constantly changing fighting styles The subsequent nine chapters detail the principal military efforts of the British in the South their capture of seaports movement in the backcountry and the critical winter campaign of 1780-81 This almost forgotten campaign and its trilogy of intense clashes at Guilford Court House Cowpens and Kings Mountain proved pivotal to American independence The leadership of the armies isolated in the backcountry and left to their own resources for survival is addressed The British profiles include the admirably courageous direction of Lord Charles Cornwallis his morally questionable but valorous cavalry commander Banastre Tarleton as well as a cadre of impressive young officers such as Webster Stuart O Hara Hall and Ewall Swisher s profiles of the Southern colonial army details the genius strategies of Maj Gen Nathaneal Greene and the astute backwoods tactical abilities of Daniel Morgan at Cowpens **American Revolution**

period as a productive exciting and much needed area of investigation This new volume explores the ways in which significant crusading figures have been employed as heroes and villains and by whom Each chapter analyses a case study relating to a key historical figure including the First Crusader Tancred villains Reynald of Ch tillon and Conrad of Montferrat the oft overlooked Queen Melisende of Jerusalem the entangled memories of Richard the Lionheart and Saladin and the appropriation of St Louis IX by the British Through fresh approaches such as a new translation of the inscriptions on the wreath laid on Saladin s tomb by Kaiser Wilhelm II this book represents a significant cutting edge intervention in thinking about memory crusader medievalism and the processes of making heroes and villains *The Making of Crusading Heroes and Villains* is the perfect tool for scholars and students of the crusades and for historians concerned with the development of reputations and memory

Making the Enfield Pattern 1853 Rifle-Musket Peter G. Smithurst, 2025-05-30 Explores the transition from hand crafted to mechanized production of military firearms focusing on the French Model 1777 and Russian Model 1808 muskets A variety of factors surround military firearms they needed to be produced in large numbers to a standardised pattern at an affordable price This book examines the transition from traditional hand craft methods to the beginnings of mechanised manufacture using as examples the French Model 1777 and the Russian Model 1808 infantry muskets A number of factors led to this choice The French Model 1777 musket designed by Honor Blanc working under General Gribeauval contained many novel features which became blueprints for the arms of numerous countries and was copied in its entirety by Russia Another factor is that they are the only firearms whose manufacture is covered in contemporary accounts A third factor is that they provide contrasts in their methods of manufacture the French 1777 musket was largely produced by hand craft methods whereas in Russia we see the beginnings of extensive mechanisation in the early 19th century Another important aspect which appears is interchangeability the ability to exchange identical parts of identical mechanism without special adjustment This is a vital factor at the foundation of modern manufacturing and first appears in early 18th century France was pursued again by Blanc in 1777 and was picked up in Russia For the first time all these technologies are examined explained compared and contrasted in extensive detail
