One of the senior officers branded as 'Johnny Come Lately' by pioneer aviators McCain nevertheless brought fresh approaches and innovation to naval aviation. His prewar and initial wartime commands encompassed tender based and shore based aviation which were critical to early operations in the Pacific yet McCain also understood the power and potential of carrier based aviation initially as commanding officer of the USS Ranger before the war then as a carrier task force commander under Adm. William F. Halsey in the Pacific in 1944 and 1945. Moreover he served tours as Chief of the Bureau of Aeronautics and the first Deputy Chief of Naval Operations Air in 1942-1944. In these posts he witnessed and played a role in the culmination of naval air power as a means of delivering crippling blows to the enemy's homeland. McCain was among only a handful of officers who achieved prominence during the war and who had experience in all of these varied and challenging levels of command.
