**Pattern in the Material Folk Culture of the Eastern United States** Henry Glassie, 1975      **Pattern in the Material Folk Culture of the Eastern United States** Henry H. Glassie, 1969      *Pattern in the material folk culture of the eastern United States*, 1968      **Folk Housing in Middle Virginia** Henry Glassie, 1975 In this fascinating analysis of eighteenth century vernacular houses of Middle Virginia Henry Glassie presents a revolutionary and carefully constructed methodology for looking at houses and interpreting from them the people who built and used them Glassie believes that all relevant historical evidence unwritten as well as written must be taken into account before historical truth can be found He is convinced that any study of man's past must make use of nonverbal and verbal evidence since written history the story of man as recorded by the intellectual elite does not tell us much about the everyday life thoughts and fears of the ordinary people of the past Such people have always been in the majority however and a way has to be found to include them in any valid history In *Folk Housing in Middle Virginia* Glassie admirably sets forth such a way The people who lived in Middle Virginia in the eighteenth century are almost unknown to history because so little has been written about them After Glassie selected the area roughly Goochland and Louisa counties for study he selected a representative part of the countryside recorded all the older houses there developed a transformational grammar of traditional house designs and examined the area's architectural stability and change Comparing the houses with written accounts of the period he found that the houses became more formal and less related to their environment at the same time as the areas established political economic and religious institutions were disintegrating It is as though the builders of the houses were deliberately trying to impose order on the surrounding chaotic world Previous orthodox historical interpretations of the period have failed to note this Glassie has provided new insights into the intellectual and social currents of the period and at that time has rescued a heretofore little known people from historiographical oblivion Combining a fresh perceptive approach with a broad interdisciplinary body of knowledge he has made an invaluable breakthrough in showing the way to understand the people of history who have left their material things as their only legacy Henry Glassie is College Professor of Folklore at Indiana University He is the author of *Pattern in the Material Folk Culture of the Eastern United States* *Passing the Time in Ballymenone* *Irish Folktales* and *The Spirit of Folk Art* He has served as president of the Vernacular Architecture Forum and the American Folklore Society      *Folk Culture*, 1968      Invitation to Vernacular Architecture Thomas Carter, Elizabeth C. Cromley, 2005 Review *Invitation to Vernacular Architecture* A Guide to the Study of Ordinary Buildings and Landscapes is a manual for exploring and interpreting vernacular architecture the common buildings of particular regions and time periods Thomas Carter and Elizabeth Collins Cromley provide a comprehensive introduction to the field Rich with illustrations and written in a clear and jargon free style *Invitation to Vernacular Architecture* is an ideal text for courses in architecture material culture studies historic preservation American studies and history and a useful guide for anyone interested in the built environment Jacket

**Roots of a Region** John A. Burrison, 2007 *Roots of a Region* reveals the importance of folk traditions in shaping and expressing the American South. This overview covers the entire region and all forms of expression: oral, musical, customary, and material. The author establishes how folklore pervades and reflects the region's economic history, especially the Civil War, race relations, religion, and politics. He follows with a catalog of those folk cultural traits from food and crafts to music and story that are distinctly southern. The book then explores the Native American and Old World sources of southern folk culture. Two case studies serve as examples to students and as evidence of the author's larger points. The first traces the origins and development of an artifact type: the clay jug; the second examines a place, Georgia, and the relationship of its folklore to the region as a whole. The author concludes by looking to the future of folklife in a region that has lost much of its agrarian base as it modernizes, a future dependent on recent immigration and appreciation of older southern traditions by a largely urban audience. Supporting these explorations are 115 illustrations, sixteen in color, and an extensive bibliography of books on southern folk culture. John A. Burrison is Regents Professor of English and director of the folklore curriculum at Georgia State University. He also serves as curator of the Goizueta Folklife Gallery at the Atlanta History Museum and of the Folk Pottery Museum of Northeast Georgia at Sautee Nacoochee Center. His previous books are *Brothers in Clay: The Story of Georgia Folk Pottery*, *Storytellers*, *Folktales and Legends from the South*, and *Shaping Traditions: Folk Arts in a Changing South*.

**Sense Of Place** Barbara Allen, Thomas J. Schlereth, 2021-10-21 Despite the homogenization of American life, areas of strong regional consciousness still persist in the United States, and there is a growing interest in regionalism among the public and among academics. In response to that interest, ten folklorists here describe and interpret a variety of American regional cultures in the twentieth century. Their book is the first to deal specifically with regional culture and the first to employ the perspective of folklore in the study of regional identity and consciousness. The authors range widely over the United States, from the Eastern Shore to the Pacific Northwest, from the Southern Mountains to the Great Plains. They look at a variety of cultural expressions and practices: legends, anecdotes, songs, foodways, architecture, and crafts. Tying their work together is a common consideration of how regional culture shapes and is shaped by the consciousness of living in a special place. In exploring this dimension of regional culture, the authors consider the influence of natural environment and historical experience on the development of regional culture; the role of ethnicity in regional consciousness; the tensions between insiders and outsiders that stem from a sense of regional identity; and the changes in culture in response to social and economic change. With its focus on cultural manifestations and its folkloristic perspective, this book provides a fresh and needed contribution to regional studies. Written in a clear, readable style, it will appeal to general readers interested in American regions and their cultures. At the same time, the research and analytical approach make it useful not only to folklorists but to cultural geographers, anthropologists, and other scholars of regional studies.
