

Paul & I Discover America

I could have known that this sweet-natured, intelligent boy who had been such a continuous joy to live with, would confront my unspoken, deeply felt patriotism with his own generation's discontent and disgust. But I had chosen not to read the signs he had left for me. Now, as I watched him spread the flag across his buttocks, I felt irrationally fragmented, broken and scattered by love of child and country, terrible anger, rising despair. Would the sight have been more bearable had I not recognized the tattered rectangle as a remnant from a Fourth of July parade during his early childhood? Then he had sat upon my shoulders and waved his small flag exuberantly, perhaps even proudly, at fairs and marching bands as they paraded on the street.

Paul & I Discover America Daniel Fader

Not since
THE GREENING OF AMERICA
has there been a book so important to
an understanding of this country
and its national psyche.

In these pages,
the author of the widely-acclaimed
HOOKED ON BOOKS and
THE NAKED CHILDREN
tells of a spiritual journey he made
with his wife and children through
the period of the fifties and sixties.
As his son Paul grows up,
Fader feels the deep desire to
once again take pride in a country
that he had believed in

Paul And I Discover America

Capes,Rodney

Reeves, E. Randolph Richards, 2011-09-28 David Capes Rodney Reeves and E Randolph Richards attempt to transform students' vague appreciation of Paul by confronting them with the man who was the talk of the marketplace from Ephesus to Athens. Informed by contemporary scholarship and refined in the classroom, this textbook promises to renew investment in the work of Paul. Now in paper.

What Technology Wants Kevin Kelly, 2011-09-27 From the author of the New York Times bestseller *The Inevitable*, a sweeping vision of technology as a living force that can expand our individual potential. In this provocative book, one of today's most respected thinkers turns the conversation about technology on its head by viewing technology as a natural system, an extension of biological evolution. By mapping the behavior of life, we paradoxically get a glimpse at where technology is headed or what it wants. Kevin Kelly offers a dozen trajectories in the coming decades for this near-living system. And as we align ourselves with technology's agenda, we can capture its colossal potential. This visionary and optimistic book explores how technology gives our lives greater meaning and is a must-read for anyone curious about the future.

Embark on a breathtaking journey through nature and adventure with Explore with is mesmerizing ebook, Witness the Wonders in **Paul And I Discover America** .
