The Death-ego and the Vital Self Gavriel Reisner, 2003 This volume presents original views of the relationship between desire and romance It begins by looking anew at the nature of desire citing its central theoretical text as Freud's *Beyond the Pleasure Principle* It traces the struggle between myth and romance between the ego on its way to death and the self in search of life through close readings of poems and letters of John Keats and in detailed considerations of a series of novels including *Frankenstein* *Wuthering Heights* *Jane Eyre* and *Sons and Lovers*

Modern Heroism Roger Sale, 2023-04-28 In these three studies hinging on an unusual theme Roger Sale examines three very different writers an impassioned novelist a wry and witty literary critic and a donnish teller of apparently old fashioned romances that have achieved a cult following today Many people assume that heroism is dead because the heroic styles of past ages no longer exist Roger Sale contends that this assumption is accompanied by other beliefs that are part of what he calls the Myth of Lost Unity a variation on the myth of the Golden Age a sense that the world was once whole but in recent centuries has gradually disintegrated a feeling that the human condition is now lost or alienated or drifting and a conviction that the proper response to life is resignation cynicism or despair Sale reminds us that Lawrence Empson and Tolkien all came to believe in the major features of the Myth of Lost Unity Each however replied to what seemed his and our fate and defied the implications of the myth achieving a community as a badge of that defiance Sale's exploration of their separate merits reveals how their heroism made them alike The strength of *Modern Heroism* lies in the formidable critical powers Sale exercises in his three variations on its theme This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973

The Central and the Peripheral Jakub Lipski, Joanna Malicka, Paweł Schreiber, 2014-09-26 Representing reality in terms of secure familiar centres and dangerous lesser known peripheries is one of the most elementary human cognitive instincts However we live in a world where this established division is becoming more and more problematic One person's periphery can be another's centre and many simple geographies of the world and of the mind clearly separating the known from the unknown have become obsolete How can one reconcile this complexity with the fact that human thinking cannot escape the centre periphery dichotomy How is it possible to find one's way in a world in which peripheries become centres and centres turn into peripheries The chapters of this book try to determine how the problem of centres and peripheries has been dealt with in the domains of literature and culture The contributors focus on different aspects of the issue from travel writing through attempts at mapping the self to finding central and peripheral territories in narrative itself
