Pillars in the History of Biblical Interpretation, Volume 2 Stanley E. Porter, Sean A. Adams, 2016-11-03 This two volume set is part of a growing body of literature concerned with the history of biblical interpretation The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed Volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has nineteen essays on twenty seven of those who were active primarily after this date Each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field This is followed by an often new application of the scholar s theory By focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed **Phenomenology 2010. Essays from Latin America Macedo Duarte, Andre de, Lerner, Rosemary R.P., Zirion Quijano, Antonio, 2010-01-01 *Paul Ricoeur's Idea of Reference* Sanja Ivic, 2018-11-26 This book investigates the importance of Ricoeur s hermeneutics and poetics in rethinking humanities In particular Ricoeur s insights on reference as refiguration and his idea of interpretation as a triadic process which consists of mimesis 1 prefiguration mimesis 2 configuration and mimesis 3 refiguration will be applied to philosophy of science and to literary and historical texts It will be shown that Ricoeur s idea of emplotment can be extended and applied to scientific literary and historical texts This multidisciplinary research will include philosophy of science metaphysics hermeneutics and literary theory **From Ricoeur to Action** Todd S. Mei, David Lewin, 2012-03-15 *From Ricoeur to Action* engages with the thinking of the French philosopher Paul Ricoeur 1913 2005 in order to propose innovative responses to 21st century problems actively contributing to global conflict Ricoeur s ability to draw from a diverse field of philosophers and theologians and to provide mediation to seemingly irreconcilable views often has both explicit and implicit practical application to socio political questions Here an international team of leading Ricoeur scholars develop critical yet productive responses through the development of Ricoeur s thought with respect to such topics as race environmental ethics technology political utopia and reinterpreting religion Representing a new generation of Ricoeur scholarship that attempts to move beyond an exegetical engagement with his philosophy this collection of original essays examines key problems in the 21st century and the ways in which Ricoeur s philosophy understands the subtleties of these problems and is able to offer a productive response As such it presents an elucidation of the practical significance of Ricoeur s thinking and an innovative contribution to resolving socio political conflicts in the 21st century *Jesus, Paul and*

Matthew, Volume Two Andries Van Aarde, 2020-04-16 This book is the second of two volumes which reflect on the trend in biblical scholarship that contrasts the vision of the historical Jesus with that of the apostle Paul on the one hand and the vision of Paul with that of the evangelist Matthew on the other. It argues that Jesus replaced the concept of politics of holiness with that of politics of compassion. This means that the church as a community of Jesus followers forms a fictive family replacing a soteriology grounded in the biological family. God's adoption of people as God's children is based on the potential of people to absorb the divine into their humanity. This truism is to be found in the visions shared by the peasant Jesus, the apostle Paul, and the rabbi Matthew as well as in creedal Christianity. The book concludes with autobiographical reflective notes analogous to the parabolic story of the travellers to Emmaus from Jerusalem (Luke 24) and that of the African eunuch (Acts 8) on his way back from Jerusalem to Africa. The notes serve to consolidate the two volumes on Jesus, Paul, and Matthew and their messages of God's wisdom, justice, and mercy.

Fragile Futures Helle Samuelsen, 2024-02-02 Caring for small children and the family in Burkina Faso is hard work. Although the health infrastructure in Burkina Faso is weak and many citizens feel neglected by the state, *Fragile Futures* shows that the state continues to play an important role in people's engagements and hopes for a better future. Based on more than twenty years of research engagement with Burkina Faso, it is an ethnography of how rural citizens address ambiguities of sickness and care and try to secure a decent future for themselves and their families.

To Fight and Learn Leslie David Gottesman, Leslie Gottesman, 1998 This study examines the remarkable testimony of Eritrea's fighter teachers, the teenagers who spent years behind enemy lines teaching peasants and nomads to read and write during Eritrea's independence struggle.

Old Testament Story and Christian Ethics Robin A. Parry, 2005-06-02 Christian use of the Old Testament has tended to focus on law and wisdom literature and to marginalize narrative materials. This book restores story to its rightful place in Old Testament ethics and aims to set out parameters within which Christian ethical reappropriations of Old Testament narratives can take place. The argument begins by examining recent philosophical studies of the role of story in the ethical life. Special attention is paid to the work of Paul Ricoeur, Martha Nussbaum, and Robert C. Roberts. Then the theological foundations are laid by demonstrating the importance of narrative for Old Testament ethics and of the biblical metanarrative for Christian interpretation. Genesis 34 is examined as a detailed case study to exemplify the fruits of the method for Christian readers. The study considers reception history, feminist interpretation, discourse analysis, and canonical context to shed new light on the terrible story of the rape of Dinah.

Creativity and Critique Glenda Ballantyne, 2007-10-30 Many commentators have noted the fertile new intellectual period. Critique of Modernity opened up in the social theory of Alain Touraine, but until now its innovations have not been the subject of a sustained analysis. This work locates the wellsprings of Touraine's renewed interpretive power in an implicit and unfinished but unmistakable hermeneutical turn. To deepen and extend his potent but only partly developed insights, the second part of the book develops his hermeneutical premises more explicitly through a dialogue with the hermeneutical

philosophy of Paul Ricoeur The outcome is a critical hermeneutics of the subject which opens new possibilities for theorising human agency and social creativity and renews the project of critical theory **SCM Core Text: Theological**

Hermeneutics Alexander Jensen, 2007-06-28 This book introduces theological hermeneutics by giving a historical account of the development of hermeneutical thinking It defines hermeneutics as the analysis of the obstacles to understanding The history of hermeneutical thinking and responses to obstacles is told here beginning with the allegorical interpretation of myths in Hellenism through to the contemporary view of the hermeneutical problem as universal Following the opening chapters on the history of hermeneutical thought the book presents an overview of the various contemporary hermeneutical schools of thought and shows their rootedness in different parts of the hermeneutical tradition The focus is clearly on biblical interpretation however it does also take account of developments outside the field of theology as they influence the theological reflection on the hermeneutical problem The questions raised and the possible answers suggested in this volume will be of interest to students of other disciplines such as philosophy and literature **Paul Ricoeur's Renewal of**

Philosophical Anthropology Marc de Leeuw, 2021-12-27 In Paul Ricoeur's Renewal of Philosophical Anthropology Vulnerability Capability Justice Marc de Leeuw argues that Ricoeur's philosophical project integrates the anthropological tradition while renewing its importance as a hermeneutic anthropology of human capability Ricoeur posits that our cogito is neither its own absolute master nor fully transparent to itself inflicting a wound and fracturing the center of Cartesian self certainty But the Nietzschean disillusionment that ensues does not simply amount to a victorious anti cogito it opens another path towards self understanding In place of the direct route of intuition is found a more complex way forward one guided by interpretation The task of philosophical anthropology is to understand the human through its interpretative critical and imaginative ability as well as its capacity to act towards with and for others the interpretation of the world in front of us the interpretation of who we are and the interpretation of what it means to be among others as other selves coalesces in an anthropology that binds the question of the self to a moral ethical and political project one aiming to reflect our existence in common For Ricoeur the basic question of our subjective and normative standing demands a fundamental response a response toward our own otherness and to responsibilities triggered by the appeal of Others In both cases our vulnerability is inescapable we can never have an absolute self knowledge nor an absolute knowledge of Others Ricoeur turns this fundamental aporia into an affirmative philosophical anthropology of human action attestation and justice **Philosophical**

Hermeneutics Reinterpreted Paul Fairfield, 2011-08-11 In this important new study Paul Fairfield examines a number of issues of central importance to philosophical hermeneutics His aim is less to reexamine the basic hypotheses of hermeneutics Gadamer's hermeneutics in particular than to understand it in relational terms by bringing it into closer association with existentialism pragmatism critical theory and postmodernism Fairfield contends that there are important affinities and areas for critical exchange between hermeneutics and these four schools of thought which have until now remained

underappreciated Philosophical Hermeneutics Reinterpreted examines several of these connections by interpreting hermeneutics in relation to specific themes in the writings of key figures within each of these traditions In so doing he both clarifies some outstanding issues in hermeneutics and advances the subject beyond what Heidegger Gadamer and Ricoeur have given us **Approaching Philosophy of Religion** Anthony C. Thiselton,2017-05-18 The book opens with an engaging history of the subject mapping the major landmarks and outlining the main issues of current debate The rest of the book falls into three parts Part 1 Approaches Descriptions of the main approaches developed by scholars to study the subject with lively case histories and working examples showing the approaches in action and assessing their lasting value Part 2 Concepts and Issues Brief introductions to their origins and evolution highlighting their significance in the work of major thinkers Part 3 Key Terms Concise explanations of all the words and phrases that readers need to know in order to fully grasp the subject

Edusemiotics - A Handbook Inna Semetsky,2016-10-17 Edusemiotics is a pioneering area of study that connects semiotics the science of signs with educational theory and the philosophy of education This volume reflects cutting edge research by scholars in education and in semiotics worldwide bridging the two discourses to present the state of the art in this new transdisciplinary field The book s emphasis is on educational theory as based on semiotic philosophy as such it challenges the current conception of semiotics in education as merely a sub branch of applied semiotics It presents edusemiotics as a novel unified conceptual framework at the interface of theoretical semiotics and educational philosophy based on both theoretical and empirical studies from around the world The chapters in this handbook also bring to the fore the intellectual legacy of Charles S Peirce John Dewey Gilles Deleuze Umberto Eco Julia Kristeva Mikhail Bakhtin Paul Ricoeur Martin Heidegger and other thinkers pointing out the implications of edusemiotics for meaningful pedagogy and experiential learning in diverse contexts The Methodology of Herbert Blumer Kenneth Baugh,Kenneth Baugh, Jr,2006-11-02 This is a comprehensive account of the contributions of Herbert Blumer to the methodology of social research

Metaphysics of Mystery Marijn de Jong,2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx Casting a new light on these theologians de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics an interrelation which seemingly has been lost in more recent hermeneutical theology Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning By analyzing fundamental themes such as experience and interpretation nature and grace faith and reason and intelligibility and mystery de Jong reveals the modest theological metaphysics that lies at the heart of their methods This critical retrieval demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God *Digital Hermeneutics* Alberto Romele,2019-10-10 This is

the first monograph to develop a hermeneutic approach to the digital as both a technological milieu and a cultural phenomenon While philosophical in its orientation the book covers a wide body of literature across science and technology studies media studies digital humanities digital sociology cognitive science and the study of artificial intelligence In the first part of the book the author formulates an epistemological thesis according to which the virtual never ended Although the frontiers between the real and the virtual are certainly more porous today they still exist and endure In the book's second part the author offers an ontological reflection on emerging digital technologies as imaginative machines He introduces the concept of emagination arguing that human schematizations are always externalized into technologies and that human imagination has its analog in the digital dynamics of articulation between databases and algorithms The author takes an ethical and political stance in the concluding chapter He resorts to the notion of digital habitus for claiming that within the digital we are repeatedly being reconducted to an oversimplified image and understanding of ourselves Digital Hermeneutics will be of interest to scholars across a wide range of disciplines including those working on philosophy of technology hermeneutics science and technology studies media studies and the digital humanities

Conditions of Comparison Ming Xie, 2011-08-04 How do we know the other culture How do such inquiries impact on our knowledge of our own culture These questions lie at the heart of comparative intercultural studies As a theoretical inquiry into how conceptual resources of cultures such as explicit and implicit categories of thought may prefigure our perspectives this book reconceives and reorients comparative intercultural inquiry by arguing for the importance of an epistemological approach and for its potential to transform current critical paradigms in contrast to approaches that emphasize primarily the political and the ethical By critically engaging with and developing the insights of scholars and thinkers from both Anglo American and Continental traditions the book makes a significant meta critical contribution to a rethinking of comparative intercultural studies and literary theory It will be of interest to students and scholars in comparative literature English world literature and global and translation studies
