Pauvreté Et Marché Du Travail Urbain En Afrique Subsaharienne Analyse Comparative

Patrick Gilliard

Pauvreté Et Marché Du Travail Urbain En Afrique Subsaharienne Analyse Comparative:

Pauvreté et marché du travail urbain en Afrique subsaharienne Jean-Pierre Lachaud, 1994 *Pauvreté et marché du travail urbain en Afrique au sud du Sahara* Jean-Pierre Lachaud, 1993 Urban Labor Markets in Sub-Saharan Africa Philippe De Vreyer, François Roubaud, 2013-06-07 Although labor is usually the unique asset upon which poor people can make a living little is known about the functioning of labor markets in Sub-Saharan Africa The purpose of this volume is to contribute to the building of knowledge in this area In this book the authors use a unique set of identical and simultaneous labor force surveys conducted in seven capitals of Western Africa as well as in some other African countries Cameroon Madagascar Democratic Republic of Congo in the 2000s They present innovative and original results on how people are faring in these labour markets using up to date econometric and statistical methods Because so little is known about labor markets in the region each chapter starts with detailed descriptive statistics that aim to shed light onto specific aspects of African urban labor markets Comparisons between the ten cities are systematically carried out Descriptive sections are followed by in depth analyses on various issues The book is divided into four parts that examine 13 topics Part I presents the main stylised facts which are investigated further in a more analytical way throughout the volume Part II focuses on job quality and labor market conditions such as unemployment and underemployment vulnerability and job satisfaction Part III explores the many dimensions of labor market inequalities through various lenses such as returns on education segmentation life cycle inequality with a particular focus on old age inter generational mobility time related inequality and gender and ethnic earnings discrimination Part IV addresses some key coping mechanisms and private responses with a focus on migration and child labor The book concludes with recommendations for future research Population and Poverty Naunihal Singh, 2002 **On the Postcolony** Achille Mbembe, 2001 Refreshing a stale debate about power in the postcolonial state this book addresses a topic debated across the humanities and social sciences how to define discuss and address power and the subjective experience of ordinary people in the face of power **Poverty and Policy in Post-apartheid South Africa** Haroon Borat, S. M. Ravi Kanbur, 2006 The political freedoms ushered in by the post 1994 transition were seen at that time as the basis for redressing long standing economic deprivations suffered by the majority of the population The reduction of poverty in all its dimensions was the goal The volume will be of interest to researchers graduate students and to the technical staff of international agencies and government ministries *L'extrême pauvreté au Niger* Patrick Gilliard, 2005 En Afrique subsaharienne le Niger est l'un des pays où la question de la pauvreté se pose avec le plus d'acuité Pendant les vingt dernières années la situation est devenue très difficile pour les segments les plus fragiles des sociétés rurales et urbaines On a assisté au développement d'un ensemble d'activités de survie comme la croissance de l'économie informelle et plus récemment des migrations vers les villes Beaucoup d'études sur la pauvreté en Afrique ont été faites par les grandes institutions internationales comme les Nations unies et la Banque mondiale Si les indicateurs soulignent la

dimension catastrophique du phénomène la question de la pauvreté reste partiellement abordée au-delà des chiffres. L'approche adoptée dans cet ouvrage est au contraire une vision par le bas au service d'un modèle de lutte contre la pauvreté définie à partir de la logique d'acteurs impliqués dans le vécu. Cette recherche est partie d'un contact direct avec la mendicité urbaine. À chaque coin de rue en grappes autour des feux rouges les mendiants sollicitent les passants. La mendicité est une pratique très présente dans la capitale Niamey. Il est humainement difficile de supporter cette réalité au quotidien sans se sentir profondément interpellé. Peu de recherches font état de la mendicité car les différences tudes sur la pauvreté menées à partir des années 1990 n'y accordaient que peu d'importance. Ce livre a l'ambition de combler une lacune dans le domaine.

Local and Global Jordi Borja, Manuel Castells, 2013-10-11 This text challenges the belief that cities will eventually disappear as territorial forms of social organization as new information technologies permit the articulation of social processes without regard for distance arguing that the specific role of cities will become more important and proposing that a dynamic and creative relationship be built up between the local and the global. In this way cities will remain the focus of social organization, political management and cultural expression equipped to deal with the enormous social and environmental problems of urbanization.

L'extrême pauvreté au Niger - Mendier ou mourir ? Romain Bertrand, 2005-03-01 En Afrique subsaharienne le Niger est l'un des pays où la question de la pauvreté se pose avec le plus d'acuité. Pendant les vingt dernières années la situation est devenue très difficile pour les segments les plus fragiles des sociétés rurales et urbaines. On a assisté au développement d'un ensemble d'activités de survie comme la croissance de l'économie informelle et plus récemment des migrations vers les villes. L'approche adoptée dans cet ouvrage est une vision par le bas au service d'un modèle de lutte contre la pauvreté définie à partir de la logique d'acteurs impliqués dans le vécu. Peu de recherches font état de la mendicité car les différences tudes sur la pauvreté menées à partir des années 1990 n'y accordaient que peu d'importance. Ce livre a l'ambition de combler une lacune dans le domaine.

Pauvreté, vulnérabilité et marché du travail au Burkina Faso Jean-Pierre Lachaud, 1997 Briefly discusses economic and social development in Burkina Faso from the early 1980s to 1994. Focuses on the period 1994-1995.
