Philips Star Finder:

Phillips Family Finder, 1990 *The Chaldaean*, 1919 *Astronomy*, 1987 **The Making of History's Greatest Star Map** Michael Perryman, 2010-03-20 From prehistoric times mankind has looked up at the night sky and puzzled at the changing positions of the stars How far away they are is a question that has confounded scientists for centuries Over the last few hundred years many scientific careers and considerable resources have been devoted to measuring their positions and motions with ever increasing accuracy And in the last two decades of the 20th century the European Space Agency developed and launched the Hipparcos satellite around which this account revolves to carry out these exacting measurements from space What has prompted these remarkable developments Why have governments been persuaded to fund them What are scientists learning from astronomy s equivalent of the Human Genome Project This book traces the subject s history explains why such enormous efforts are considered worthwhile and interweaves these with a first hand insight into the Hipparcos project and how big science is conducted at an international level The involvement of amateur astronomers and the Hipparcos contributions to climate research death stars passing close to the Sun and the search for extra solar planets and even intelligent life itself are some of the surprising facets of this unusual space mission The Map Catalog Joel Makower, 1986 Every kind of map and chart on Earth and even some above it Sky and Telescope Charles Federer, 1963 **Astronomy** John C. MacBean, 1977 Philip's Guide to the Night Sky Philip's Maps, Sir Patrick Moore, 2012-05-21 Find your way around the night sky with this handy guide to stargazing for the complete novice In Philip s Guide to the Night Sky Sir Patrick Moore explains how to find the most famous constellations and the brightest stars and when to look for them Clear star maps showing stars visible to the naked eye help you to navigate the skies The maps are suitable for use in Britain Ireland northern Europe and Canada Sir Patrick introduces the wonders of the night sky to absolute beginners in his characteristically entertaining and informative style The Moon the planets the Sun and the stars are explained in non technical language while the constellations are described with the help of star maps and tables The four main chapters in Philip s Guide to the Night Sky are devoted to what s on view in each season of the year The information is appropriate for observers in Britain and Ireland northern Europe and Canada it will also be helpful a little outside these latitudes Using prominent patterns such as the Plough and Orion Sir Patrick teaches the reader to star hop from constellation to constellation thus learning to navigate the night sky Star maps and photographs illustrate and clarify what will be on view Philip s Guide to the Night Sky is an ideal introduction to stargazing suitable for all ages and with no need for anything more technical than the naked eye Wrinkles in Practical Navigation Squire Thornton Stratford Lecky, 1912 **Finding List of the Enoch Pratt Free Library of Baltimore City** Enoch Pratt Free Library, 1886 **Finding List** Philadelphia. Apprentices' Library Company, 1892 Finding List, 1904 *Media Materialities* Iain A. Taylor, Dr. Oliver Carter, 2023-11-28 Provides new perspectives on the increasingly complex relationships between media forms and formats

materiality and meaning Drawing on a range of qualitative methodologies our consideration of the materiality of media is structured around three overarching concepts form the physical qualities of objects and the meanings which extend from them format objects considered in relation to the protocols which govern their use and the meanings and practices which stem from them and ephemeral meaning the ways in which media artefacts are captured transformed and redefined through changing social cultural and technological values Each section includes empirical chapters which provide expansive discussions of perspectives on media and materiality It considers a range of media artefacts such as 8mm film board games maps videogames cassette tapes transistor radios and Twitter amongst others These are punctuated with a number of short takes less formal often personal takes exploring the meanings of media in context We seek to consider the materialities which emerge across the broad and variegated range of the term s use and to create spaces for conversation and debate about the implications that this plurality of material meanings might have for the study of study of media culture and society
