

THE PRIMITIVE EDGE OF EXPERIENCE

THOMAS H. OGDEN

Primitive Edge Of Experience

Antonino Ferro

Primitive Edge Of Experience:

The Primitive Edge of Experience Thomas H. Ogden, 1992-12 This is an extraordinary and exciting book the work of a truly original and creative psychoanalytic theoretician and most astute clinician Ogden continues to expand and to deepen his reformulations of the British object relations theorists M Klein W R Bion D W Winnicott W R D Fairbairn H Guntrip to illuminate further the world of internalized object relations His concepts are evolutionary and at times revolutionary Exploring the area of human experience that lies beyond the psychological territories addressed by the previous theorists he introduces the concept of an autistic contiguous mode as a way of conceiving of the most primitive psychological organization through which the sensory floor of the experience of self is generated He conceives of this mode as a sensory dominated presymbolic area of experience in which the most primitive form of meaning is generated on the basis of organization of sensory impressions particularly at the skin surface A major tenet in the book is a conceptualization of human experience throughout life as the product of a dialectical interplay among three modes of generating experience the depressive the paranoid schizoid and the autistic contiguous Each mode creates preserves and negates the other No single mode of generating experience exists independently of the others Psychopathology is conceptualized as a collapse of the dialectic in the direction of one or another mode of generating experience The outcome of such collapse may be entrapment in rigid asymbolic patterns of sensation collapse in the direction of the autistic contiguous mode or imprisonment in a world of omnipotent internal objects where thoughts and feelings are experienced as things and forces which occupy or bombard the self collapse in the direction of paranoid schizoid mode or isolation of the self from lived experience and aliveness of bodily sensations collapse in the direction of the depressive mode Ogden presents his unique development of the autistic contiguous mode as the synthesis interpretation and extension of the works of D Meltzer E Bick and F Tustin He is careful to state that this psychological organization is a developing and ongoing mode of generating experience and not a limited phase of development an elaboration of this primitive organization is an integral part of normal development All three modes are considered not positions to be passed through outgrown or overcome and relegated to the past but as integral dimensions of present adult ego functioning Sensory experience in an autistic contiguous mode has rhythmicity that is becoming the continuity of being it has boundedness that is the beginning of experience of the place where one feels things and lives it has features such as shape hardness cold warmth and texture beginnings of the qualities of who one is As his generous case examples aptly demonstrate Ogden's theories are solidly grounded in his discerning work with a broad variety of patients His brilliant pathfinding will enlighten and enrich the reader with invaluable insights He will listen with new ears and with a fresh conceptual framework with which to comprehend the most primitive elements of human development and the complex interplay among the different modes of experience This is a bold important instructive and stimulating book of equally great clinical and theoretical applicability The Journal of the American Psychoanalytic Association A Jason Aronson Book **The**

The Primitive Edge of Experience Thomas H. Ogden, 1989 **The Primitive Edge of Experience** Thomas Ogden, 2018 Ogden

constructs an anatomy and physiology of the psychic apparatus based on the interplay of the depressive the paranoid schizoid and the autistic contiguous positions The last position is his unique creation and refer to a primitive mode of experiencing that involves the moulding and shaping of boundaries Provided by publisher The Primitive Edge of Experience Thomas H. Ogden, 1992-12-01 This is an extraordinary and exciting book the work of a truly original and creative psychoanalytic theoretician and most astute clinician Ogden continues to expand and to deepen his reformulations of the British object relations theorists M Klein W R Bion D W Winnicott W R D Fairbairn H Guntrip to illuminate further the world of internalized object relations His concepts are evolutionary and at times revolutionary Exploring the area of human experience that lies beyond the psychological territories addressed by the previous theorists he introduces the concept of an autistic contiguous mode as a way of conceiving of the most primitive psychological organization through which the sensory floor of the experience of self is generated He conceives of this mode as a sensory dominated presymbolic area of experience in which the most primitive form of meaning is generated on the basis of organization of sensory impressions particularly at the skin surface A major tenet in the book is a conceptualization of human experience throughout life as the product of a dialectical interplay among three modes of generating experience the depressive the paranoid schizoid and the autistic contiguous Each mode creates preserves and negates the other No single mode of generating experience exists independently of the others Psychopathology is conceptualized as a collapse of the dialectic in the direction of one or another mode of generating experience The outcome of such collapse may be entrapment in rigid asymbolic patterns of sensation collapse in the direction of the autistic contiguous mode or imprisonment in a world of omnipotent internal objects where thoughts and feelings are experienced as things and forces which occupy or bombard the self collapse in the direction of paranoid schizoid mode or isolation of the self from lived experience and aliveness of bodily sensations collapse in the direction of the depressive mode Ogden presents his unique development of the autistic contiguous mode as the synthesis interpretation and extension of the works of D Meltzer E Bick and F Tustin He is careful to state that this psychological organization is a developing and ongoing mode of generating experience and not a limited phase of development an elaboration of this primitive organization is an integral part of normal development All three modes are considered not positions to be passed through outgrown or overcome and relegated to the past but as integral dimensions of present adult ego functioning Sensory experience in an autistic contiguous mode has rhythmicity that is becoming the continuity of being it has boundedness that is the beginning of experience of the place where one feels things and lives it has features such as shape hardness cold warmth and texture beginnings of the qualities of who one is As his generous case examples aptly demonstrate Ogden's theories are solidly grounded in his discerning work with a broad variety of patients His brilliant pathfinding will enlighten and enrich the reader with invaluable insights He will listen with new ears and with a fresh conceptual framework with which to comprehend the most primitive elements of human development and the complex

interplay among the different modes of experience This is a bold important instructive and stimulating book of equally great clinical and theoretical applicability The Journal of the American Psychoanalytic Association A Jason Aronson Book

Emotional Understanding Donna M. Orange,1995-10-13 With a unique blend of clinical compassion and philosophical reflection Donna M Orange illuminates the nature and process of psychoanalytic understanding within the intimate and healing human context of treatment Moving away from objectivist empiricism and its polar opposite constructivist relativism her work details a paradigm shift to a perspectival realism that does justice to the concerns of both Laying the groundwork for a fuller more encompassing view of psychoanalytic practice Emotional Understanding is enlightening reading for all mental health professionals interested in psychodynamic theory and treatment *Why Read Ogden? The Importance of Thomas Ogden's Work for Contemporary Psychoanalysis* Marina F R Ribeiro,2024-11-29 Why Read Ogden explores the importance of Thomas Ogden s work to contemporary psychoanalysis both as an interpreter of classic psychoanalytic thinkers and as a new and original theorist and clinician in his own right Ogden writes about the literary genre of psychoanalytic writing emphasising the amalgamation of theoretical and clinical writing with the author s personality Ogden also considers psychoanalytic writing a form of thinking We do not write what we think but we are thinking something unprecedented in writing Inspired by Ogden s proposal of a transitive and creative reading which the authors show him to demonstrate in his own writing about Freud Klein Bion and Winnicott this book takes as its organising principle the question of how Ogden s texts resonate with them personally Ogden is regarded as one of the most important and influential living psychoanalysts and this book addresses the lack of attention given to summarising and examining his key contributions This book will be essential reading for psychoanalysts and psychotherapists in practice and in training who wish to gain a comprehensive understanding of Ogden s work **Dimensions of Psychotherapy, Dimensions of Experience** Michael Stadter,David E. Scharff,2005-09-16 Dimensions of Psychotherapy Dimensions of Experience explores the three basic elements of psychotherapy time space and number summarising theory setting it in context and bringing concepts to life with clinical illustrations [Progress in Self Psychology, V. 14](#) Arnold I. Goldberg,2013-05-13 Volume 14 of Progress in Self Psychology The World of Self Psychology introduces a valuable new section to the series publication of noteworthy material from the Kohut Archives of the Chicago Institute for Psychoanalysis In this volume From the Kohut Archives features a selection of previously unpublished Kohut correspondence from the 1940s through the 1970s The clinical papers that follow are divided into sections dealing with Transference and Countertransference Selfobjects and Objects and Schizoid and Psychotic Patients As Howad Bacal explains in his introduction these papers bear witness to the way in which self psychology has increasingly become a relational self psychology a psychology of the individual s experience in the context of relatedness Coburn s reconstrual of countertransference as an experience of self injury in the wake of unresponsiveness to the analyst s own selfobject needs Livingston s demonstration of the ways in which dreams can be used to facilitate a playful and

metaphorical communication between analyst and patient Gorney's examination of twinship experience as a fundamental goal of analytic technique and Lenoff's emphasis on the relational aspects of phantasy selfobject experience are among the highlights of the collection Enlarged by contemporary perspectives on gender and self experience and a critical examination of Kohut Loewald and the Postmoderns Volume 14 reaffirms the position of self psychology at the forefront of clinical developmental and conceptual advance

Psychosis, Psychoanalysis and Psychiatry in Postwar USA Orna

Ophir, 2015-05-01 Covering the last four decades of the 20th century this book explores the unwritten history of the struggles between psychoanalysis and psychiatry in postwar USA inaugurated by the neosomatic revolution which had profound consequences for the treatment of psychotic patients Analyzing and synthesizing major developments in this critical and clinical field Orna Ophir discusses how leading theories redefined what schizophrenia is and how to treat it offering a fresh interpretation of the nature and challenges of the psychoanalytic profession The book also considers the internal dynamics and conflicts within mental health organizations their theoretical paradigms and therapeutic practices Opening a timely debate considering both the continuing relevance and the inherent limitations of the psychoanalytic approach the book demonstrates how psychoanalysts reinterpreted their professional identity by formalizing and disseminating knowledge among their fellow practitioners while negotiating with neighboring professions in the medical fields such as psychiatry pharmacology and the burgeoning neurosciences Chapters explore the ways in which psychoanalysts constructed and also transgressed upon the boundaries of their professional identity and practice as they sought to understand schizophrenia and treat its patients The book argues that among the many relationships psychoanalysis sustained with psychiatry some weakened their own social role as service providers while others made the theory and practice of psychoanalysis a viable contender in the jurisdictional struggles between professions Psychosis Psychoanalysis and Psychiatry in Postwar USA will appeal to researchers academics graduate students and advanced undergraduates who are interested in the history of psychoanalysis psychiatry the medical humanities and the history of science and ideas It will also be of interest to clinicians health care professionals and other practitioners

On the Daily Work of Psychodynamic Psychotherapy Ian Miller, Alistair Sweet, 2018-04-19 On the Daily Work of Psychodynamic Psychotherapy is an operating manual for the challenging often lonely and confusing work of doing therapy It locates clinical method in a historical tradition of many contributory workers including Freud Breuer Klein Segal Ferenczi Waelder Katan Tausk Sullivan Lacan Bion and Ogden In this way the book links clinicians with psychoanalytic thinkers across the foreclosures of scholastic orientation and politics to arrive at a methodology based in interpretive reflection and demonstrably active from the period of psychoanalytic origins as an application of the influence of mind upon mind The authors provide the reader with a methodology of clinical thinking of how clinicians orient themselves in clinical registration moment by moment It develops a route of fundamental therapeutic action applicable under all clinical situations from the single session consultation to intensive long term psychoanalytic

psychotherapy *Psychoanalytic and Buddhist Reflections on Gentleness* Michal Barnea-Astrog, 2019-03-04 Inspired by Buddhist teachings and psychoanalytic thought this book explores gentleness as a way of being and a developmental achievement It offers reflections on the unique position of gentle people as well as certain gentle layers of the psyche in general as they meet the world Examining the perceptual sensory conscious discrepancy that often exists between a gentle person and their surroundings it follows the intricate relationship between sensitivity and fear the need for self holding and the possibility of letting go Incorporating theoretical investigation clinical vignettes and personal contemplation the book looks into those states of mind and qualities of attention that may compose a favorable environment internal and interpersonal where gentleness can be delicately held There it is suggested gentleness may gradually shed the fragility confusion and destructiveness that often get entangled with it and serve as a valuable recourse Offering a unique perspective on a topic rarely discussed the book has broad appeal for both students and practitioners of psychoanalysis and psychotherapy as well as Buddhist practitioners and scholars *Re-Imagining Public Space* D. Boros, J. Glass, 2014-12-09 Public space both literally and figuratively is foundationally important to political life From Socratic lectures in the public forum to Occupy Wall Street and the Arab Spring public spaces have long played host to political discussion and protest The book provides a direct assessment of the role that public space plays in political life **Attuned Treatment of Developmental Trauma** Kathleen Adams, 2022-08-30 This book takes a painstaking look at developmental trauma as it manifests in group individual and combined psychotherapies tracking the growth of non abused individuals who have courageously addressed overwhelming childhood experiences to make sense of the chaos in their lives The cumulative impact of repetitive stress fear and shame in childhood wreaks havoc on the developing brain resulting in a life long vulnerability to anxiety despair and dissociative moments that are often described as developmental trauma Adverse childhood experiences are often overlooked by therapists This book focuses specifically on the profound suffering of high functioning private practice patients who manifest developmental trauma from chronic shock shame and neglect Adams offers a synthesis of diverse theoretical worlds in her study of adaptations to cumulative trauma namely relational psychoanalysis the British school of object relations trauma theory neuroscience and interpersonal neurobiology developmental psychopathology and attachment theory Using richly detailed clinical material this book provides invaluable clear examples to illustrate the effects of disorganized states in infancy making it essential reading for psychoanalysts psychotherapists and clinical psychologists working with traumatized patients *Interdisciplinary Perspectives on Torture* Lon Olson, Stuart Molloy, 2019-08-26 This volume offers diverse insights on how the practice of torture has impacted society and how we view human nature After the Second World War it was hoped that torture had been permanently vanquished among modern liberal states and was only practiced by brutal totalitarian regimes However events after 9 11 revealed that the re emergence of torture is an ever present threat even among leading democracies Drawing from their knowledge of the humanities and social sciences the

contributors offer their expertise on the deleterious effects of torture and reveal that its trauma is interwoven into the fabric of modern society requiring constant diligence to be rooted out and kept at bay Contributors are William Fitzhugh Brundage Federico Ciavattone Noora Virjamo Toni Koivulahti Diana Medlicott Stuart Molloy Lon Olson Martin Previsic David Senesh and Hedi Viterbo

Private Selves in Public Organizations M. Diamond, S. Allcorn, 2009-03-30 This book explores organizations as not simply rational technological structures and networks for organizing people around tasks and services it defines organizations as relational experiential and perceptual systems

Chicago 92: The Transcendent Function - Individual and Collective Aspects Mary Ann Mattoon, 1993 With an all encompassing theme The Transcendent Function Individual and Collective Aspects The Twelfth International Congress for Analytical Psychology was convened in Chicago on 23 August 1992 A wide range of papers and presentations elucidated diverse approaches to the roles played by symbols in analysis their relationships to one another and their beholders and possibilities for transcendence

Psychoanalytic Practice Today Antonino Ferro, 2019-06-21 Psychoanalytic Practice Today offers the reader a good understanding of the school of thought inspired by the late work of Wilfred R Bion The contributors share a belief in the curative power of the analytic encounter and in the capacity of the human mind to develop from the encounter with a mind capable of reverie dreaming and thinking The multitude of vignettes presented emphasise the necessity of the emotional involvement of the analyst with his or her patients for improvement to take place The book is divided in two parts Psychopathology and Emotions and Feelings The first part adapts a more classic description of psychiatric disorders by diagnostic criteria from neuroses to psychoses and including depression and borderline states The second part of the book takes a closer look at specific clinical manifestations of basic emotions such as anger surprise sadness and more complex ones such as jealousy abandonment and betrayal The common thread is represented by the central place of dreaming in the psychoanalytic field as a tool to understand these clinical manifestations and to allow for their psychic representation as an emotional experience The contributions together offer a varied introduction to current ideas that are growing increasingly interesting to English speaking readers with a sufficient character of originality irreverence and creativity that bears witness to the maturity of Italian psychoanalysis Psychoanalytic Practice Today will offer new ideas to the practicing psychoanalyst and psychodynamic psychotherapist

Wounded Leaders Nick Duffell, 2016-08-24 Political leaders in Britain are consistently drawn from a class born to be educated away from their families in institutions elite boarding schools This has a direct effect on their ability to love to relate to make good judgments and to develop the necessary leadership qualities for today's world In this controversial and highly acclaimed book the author guides the reader along the elite path through boarding school and Oxbridge to government unpacking what he calls the Entitlement Illusion Central to the Illusion is a uniquely British phenomenon an industrialised process for turning out servants of the Empire that has been unwilling to change with the times It was deified in the Victorian Rational Man Project and normalised by the British public who still buy into the trance

Up to date evidence from Neuroscience shows what a poor training for leadership this actually is *Psychoanalytic Theory*
Anthony Elliott, 2017-09-16 Influential exciting and often controversial psychoanalytic theory has had a major impact in the
humanities and social sciences In a new edition of this classic book Anthony Elliott masterfully introduces the reader to
psychoanalytic theory Discusses leading psychoanalytic theorists from Freud to Lacan Klein to Kristeva i ek to Laplanche

Primitive Edge Of Experience Introduction

In today's digital age, the availability of Primitive Edge Of Experience books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Primitive Edge Of Experience books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Primitive Edge Of Experience books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Primitive Edge Of Experience versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Primitive Edge Of Experience books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Primitive Edge Of Experience books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Primitive Edge Of Experience books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities

and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Primitive Edge Of Experience books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Primitive Edge Of Experience books and manuals for download and embark on your journey of knowledge?

FAQs About Primitive Edge Of Experience Books

1. Where can I buy Primitive Edge Of Experience books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Primitive Edge Of Experience book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Primitive Edge Of Experience books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing,

and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.

7. What are Primitive Edge Of Experience audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
