Rolls and register of Bishop Oliver Sutton vol I Institutions to benefices and confirmations of religious houses in the Archdeaconry of Lincoln Power, Politics and Episcopal Authority Angelo Silvestri,2014-11-24 It is impossible to completely understand the history of the medieval church without understanding how bishops control was exercised in the diocese and in the city This book assesses the differences shifts and changes in the power of the bishop in the cities and the dioceses of Lincoln and Cremona from the middle of the 11th century to the mid 14th century Lincoln with the biggest medieval diocese in England and with its unique series of bishops such as Hugh of Wells Hugh of Avalon Ro The Rolls and Register of Bishop Oliver Sutton, 1280-1299 Catholic Church. The Rolls and Register of Bishop Oliver Sutton Catholic Church. Diocese of Lincoln (England). Bishop (1280-1299 : Sutton),1948 On the Cessation of the Laws Robert Grosseteste,2012-04-23 Robert Grosseteste ca 1168 1253 was an unusual and exceptional man from the lowest social class yet greatly admired by kings and popes a scientist but also a philosopher and theologian a talented administrator and a successful teacher a pastor doggedly devoted to the care of his flock but also a scholar dedicated to the translation of early Christian fathers and Aristotle loyal to the pope but fearless and bold in calling for the reform of the curia On the Cessation of the Laws directly reflects the profundity and originality of Grosseteste s theological work and indirectly reveals his pastoral concerns The work consists of four books In the first Grosseteste offers arguments mostly from Scripture against the position that he wishes to defend and then counters these arguments with a lengthy treatment of the whole economy of creation and salvation and the place of the Scriptures Old and New in it The second attempts to show from clear Old Testament texts that the crucified Jesus was the saviour promised in the Law The third is dominated by theological arguments for the incarnation of Christ even if humanity had not sinned and the fourth addresses a cluster of questions that follow upon the death of the Law *The Impact of the European Reformation* Ole Peter Grell,2017-05-15 Recent decades have witnessed the fragmentation of Reformation studies with high level research confined within specific geographical confessional or chronological boundaries By bringing together scholars working on a wide variety of topics this volume counteracts this centrifugal trend and provides a broad perspective on the impact of the European reformation The essays present new research from historians of politics of the church and of belief Their geographical scope ranges from Scotland and England via France and Germany to Transylvania and their chronological span from the 1520s to the 1690s Considering the impact of the Reformation on political culture and examining the

relationship between rulers and ruled the book also examines the church and its personnel another sphere of life that was entirely transformed by the Reformation Important aspects of knowledge and belief are discussed in terms of scientific knowledge and technological progress juxtaposed with analyses of elite and popular belief which demonstrates the limitations of Weber's notion of the disenchantment of the world Together they indicate the diverse directions in which Reformation scholarship is now moving while reminding us of the need to understand particular developments within a broader European context demonstrating that movements for religious reform left no sphere of European life untouched

Bishop Robert Grosseteste and Lincoln Cathedral John Shannon Hendrix, 2017-07-05 Bishop Robert Grosseteste and Lincoln Cathedral is an in depth investigation of Grosseteste's relationship to the medieval cathedral at Lincoln and the surrounding city This book will contribute to the understanding of Gothic architecture in early thirteenth century England most specifically how forms and spaces were conceived in relation to the cultural religious and political life of the period The architecture and topography of Lincoln Cathedral are examined in their cultural contexts in relation to scholastic philosophy science and cosmology and medieval ideas about light and geometry as highlighted in the writings of Robert Grosseteste Bishop of Lincoln Cathedral 1235-53 At the same time the architecture of the cathedral is considered in relation to the roles of the clergy and masons the policies of the bishop matters of governance worship and education ecclesiastical hierarchy church liturgy politics and processions The book explores Grosseteste's ideas in the broader context of medieval and Renaissance cosmologies optics perspective natural philosophy and experimental science and considers historical precedents in regard to religious political and symbolic influences on church building The contributors to this volume make an important contribution to our current understanding of the relation between architecture theology politics and society during the Middle Ages and how religious spaces were conceived and experienced

The High Middle Ages in England 1154-1377 Bertie Wilkinson, 1978-06-22 All aspects of England in the High Middle Ages are covered including sections on social economic religious military intellectual and art history as well as on political and constitutional history From publisher description *The Dependent Pories of Medieval English Monasteries* Martin Heale, 2004 This study charts for the first time the history of the 140 or so daughter houses of English monasteries which have always been overshadowed by the French cells in England the so called alien priories The first part of the book examines the reasons for the foundation of these monasteries and the relations between dependent priories and their mother houses bishops and patrons The second part investigates everyday life in cells the priories interaction with their neighbours and their economic viability The unusual pattern of dissolution of these houses is also revealed Because of the tremendous bulk of material to survive for English dependencies this is the most detailed account of a group of small monasteries yet written Although daughter houses are in many ways unrepresentative of other lesser monasteries their experience sheds a great deal of light on the world of the small religious house and suggests that these shadowy institutions were far more central to medieval religion and society than has

been appreciated BOOK JACKET **Studies in the Art and Imagery of the Middle Ages** Richard Marks,2013-12-31

A Tale of Two Monasteries William Chester Jordan,2009-03-16 Offering a view of the history of France and England through rival institutions Westminster Abbey and the Abbey of Saint Denis and the men who ruled them this book traces social economic cultural and ideological aspects of their histories highlighting both the similarities and differences among them **The School of Heretics** Andrew E. Polt,1964 This is a print on demand edition of an important hard to find publication The Making of the Neville Family in England, 1166-1400 Charles R. Young,1996 A study of power in the middle ages the Nevilles of Raby who included among their members Warwick the Kingmaker was one of the major baronial families in England The story of the Neville family is a fascinating one From their inconspicuous beginnings in Lincolnshire after the Norman Conquest by the fourteenth century the Nevilles of Raby were among the most influential groups in the north of England virtually ruling the area by means of the royal offices they held and their political power reached its zenith in the fifteenth century with Richard de Neville earl of Warwick the so called Kingmaker This new study aims to answer the question of how a family of knightly status but with no special prominence was able to rise to such heights tracing its growth and development through a careful examination of surviving documents it also illustrates how the governance of medieval England worked with the cooperation of baronial families in a pragmatic manner quite apart from any abstract legal or constitutional principles CHARLES R YOUNG is Professor Emeritus of History at Duke University **Transactions of the Royal Historical Society: Volume 8** Royal

Historical Society,1999-02-04 Volume 8 of The Royal Historical Society Transactions contains essays based around the theme identities and empires **Religious Education in Thirteenth-Century England** Andrew Reeves,2015-06-02 In Religious

Education in Thirteenth Century England Andrew Reeves examines how laypeople in a largely illiterate and oral culture learned the basic doctrines of the Christian religion Although lay religious life is often assumed to have been a tissue of ignorance and superstition this study shows basic religious training to have been broadly available to laity and clergy alike Reeves examines the nature availability and circulation of sermon manuscripts as well as guidebooks to Christian teachings written for both clergy and literate laypeople He shows that under the direction of a vigorous and reforming episcopate and aided by the preaching of the friars clergy had a readily available toolkit to instruct their lay flocks **Rochester**
