Campbell, 2023-01-26 William S Campbell provides a comprehensive commentary on Paul's most challenging letter In conversation with reception history and previous scholarship he emphasizes the contextuality of Romans as a letter to Rome using social identity theory combined with historical literary and theological perspectives to arrive at a coherent reading of the entire letter Because Paul has never visited Rome and is not the founder of the Christ movement there Campbell argues that his guidance and teaching are formulated more cautiously than in his other letters Yet the long list of people who had previous links with him and his mission to the gentiles demonstrates that Paul is well informed about the situation in Rome and addresses issues that have arisen With Christ the Messianic Time is beginning but there was some lack of clarity in Rome about the implications of this for Jews and gentiles Rather than ethne in Christ replacing Israel as some in Rome possibly concluded Campbell stresses that Paul affirms the irrevocable calling of Israel and that simultaneously the identity of ethne in Christ is also called alongside the people Israel thus the integrity of the identity of both is affirmed as indispensable for God's purpose now revealed in Christ Campbell fully demonstrates how Paul in Romans achieves this by the social and theological intertwining of the message of the gospel Understanding Latin Literature Susanna Morton Braund, 2017-04-27 Understanding Latin Literature is a highly accessible user friendly work that provides a fresh and illuminating introduction to the most important aspects of Latin prose and poetry This second edition is heavily revised to reflect recent developments in scholarship especially in the area of the later reception and reverberations of Latin literature Chapters are dedicated to Latin writers such as Virgil and Livy and explore how literature related to Roman identity and society Readers are stimulated and inspired to do their own further reading through engagement with a wide selection of translated extracts and through understanding the different ways in which they can be approached Central throughout is the theme of the fundamental connections between Latin literature and issues of elite Roman culture The versatile and accessible structure of Understanding Latin Literature makes it suitable for both individual and class use

Restricted Generosity in the New Testament Timothy J. Murray, 2019-02-22 La 4e de couverture indique In this monograph Timothy J Murray studies early Christian practices of financial generosity by examining when why and how they restricted their generosity He analyzes the New Testament in its social context arguing that common cultural ideals of

mutual support in a family were adopted by the fictive family of the early church *Rabbinic Body Language: Non-Verbal Communication in Palestinian Rabbinic Literature of Late Antiquity* Catherine Hezser, 2017-01-16 This study constitutes the first comprehensive examination of rabbinic body language represented in Palestinian rabbinic sources of late antiquity Catherine Hezser examines rabbis appearance and demeanor spatial movement gestures and facial expressions on the basis of literary and social anthropological methods and theories She discusses the various forms of rabbis non verbal communication in the context of Graeco Roman and ancient Christian literary sources and in connection with the material culture of Roman and early Byzantine Palestine Catherine Hezser convincingly shows that in rabbinic literature body language serves as an important means of rabbis self fashioning Rabbinic texts create the image of a particularly Jewish type of intellectual who functioned and competed for adherents within the highly visual and body conscious environment of late antiquity Imagine No Religion Carlin A. Barton, Daniel Boyarin, 2021-05-20 Shed s new light on the fascinating transformations of these words religio threskeia in the shadow of Roman imperial power Brent Nongbri award winning author of *God s Library* What do we fail to see when we force other earlier cultures into the Procrustean bed of concepts that organize our contemporary world In *Imagine No Religion* Carlin A Barton and Daniel Boyarin map the myriad meanings of the Latin and Greek words religio and threskeia frequently and reductively mistranslated as religion in order to explore the manifold nuances of their uses within ancient Roman and Greek societies In doing so they reveal how we can conceptualize anew and speak of these cultures without invoking the anachronistic concept of religion From Plautus to Tertullian Herodotus to Josephus *Imagine No Religion* illuminates cultural complexities otherwise obscured by our modern day categories An excellent attempt to approach translational issues with fresh eyes this book presents a fresh methodological challenge to students of the ancient world and especially to scholars interested in the religion of the ancient Mediterranean Reading Religion A timely contribution to a growing and important conversation about the inadequacy of our common category religion for the understanding of many practices attitudes emotions and beliefs especially of peoples in other times and contexts Wayne A Meeks author of *In Search of the Early Christians* *Latin Literature* Susanna Morton Braund, 2005-07-19 This highly accessible user friendly work provides a fresh and illuminating introduction to the most important aspects of Latin prose and poetry Readers are constantly encouraged to think for themselves about how and why we study the texts in question They are stimulated and inspired to do their own further reading through engagement with a wide selection of translated extracts and with a useful exploration of the different ways in which they can be approached Central throughout is the theme of the fundamental connections between Latin literature and issues of elite Roman culture The versatile structure of the book makes it suitable both for individual and class use *Embracing Shared Ministry* Joseph H. Hellerman, 2013-09 Social historian and pastor Joe Hellerman addresses issues of power and authority in the church in the New Testament and in the church today in a fresh culturally nuanced way The local church Hellerman maintains should be

led and taught by a community of leaders who relate to one another first as brothers and sisters in Christ and who function only secondarily and only within the parameters of that primary relational context as vision casting decision making leaders for the broader church family Unique among contemporary treatments of servant leadership Hellerman interprets the biblical materials against the background of ancient Roman cultural values in order to demonstrate a social context for ministry that will provide healthy checks and balances on the use of pastoral power and authority in our congregations

Following Jesus Christ John K. Goodrich, Mark L. Strauss, 2019-11-19 A Comprehensive Guide to Discipleship in the New Testament and Today's World Although the concept of discipleship is an integral part of New Testament teaching it has largely faded from discussion in both the academy and the local church To revive and reclaim this teaching for believers in the twenty first century editors John Goodrich and Mark Strauss have assembled an expert team of scholars to uncover what every New Testament book teaches about discipleship providing a comprehensive biblical picture In addition other contributors explore discipleship in the context of the local church spiritual formation and the life of the mind Together these essays point the way forward for becoming more like Jesus Christ and helping others do the same in our personal and corporate lives An impressive roster of scholars who have addressed a vital but often neglected topic in both the church and in the academy Rich with insight *Following Jesus Christ* represents a major advance in this essential area of study Craig A Evans Houston Baptist University We are treated here to a survey of what discipleship means in the New Testament from experts in the field and we also see some of the wider dimensions of discipleship in this important work All those wanting to understand discipleship will find this to be a valuable resource Thomas R Schreiner The Southern Baptist Theological Seminary

A Tale of Two Churches UnChan Jung, 2021-09-07 Though a majority of commentators have admitted or naturally assumed that there were many divergences amongst the Pauline churches many tend to concentrate on similarities more than dissimilarities contra John M G Barclay Craig de Vos Especially the previous scholarly treatments of divergences in the Pauline churches have shed little light on certain areas of study in particular the early Christians socio economic status The thesis therefore underlines the conspicuous differences between the Thessalonian and Corinthian congregations concerning their socio economic compositions social relationships and further social identities while extrapolating certain circles of causality between them through socio economic and social scientific criticism This study concludes Paul's teachings of grace community and ethics were manifested and modified in different communities in different ways because of these different socio economic contexts

The Routledge Handbook on the Reception of Classical Architecture makes a major contribution to the study of architectural history in a new global context Pax Tom Holland, 2023-09-26 From a remarkably gifted historian New York Times the definitive account of the golden age of Rome an ultimate superpower at the pinnacle of its greatness The Pax Romana has long been shorthand for the empire s golden age Stretching from Caledonia to Arabia Rome ruled over a quarter of the world s population It was the wealthiest and most formidable state in the history of humankind Pax is a captivating narrative history of Rome at the height of its power From the gilded capital to realms beyond the frontier historian Tom Holland shows ancient Rome in all its glory Nero s downfall the destruction of Jerusalem and Pompeii the building of the Colosseum and Hadrian s Wall the conquests of Trajan Vividly sketching the lives of Romans both ordinary and spectacular from slaves to emperors Holland shows that Roman peace was the fruit of unprecedented military violence A stunning portrait of Rome s glory days this is the epic history of the Pax Romana **Saving Shame** Virginia Burrus, 2013-04-19 Virginia Burrus explores one of the strongest and most disturbing aspects of the Christian tradition its excessive preoccupation with shame While Christianity has frequently been implicated in the conversion of ancient Mediterranean cultures from shame to guilt based and thus in the emergence of the modern West s emphasis on guilt Burrus seeks to recuperate the importance of shame for Christian culture Focusing on late antiquity she explores a range of fascinating phenomena from the flamboyant

performances of martyrs to the imagined abjection of Christ from the self humiliating disciplines of ascetics to the intimate disclosures of Augustine Burrus argues that Christianity innovated less by replacing shame with guilt than by embracing shame Indeed the ancient Christians sacrificed honor but laid claim to their own shame with great energy at once intensifying and transforming it Public spectacles of martyrdom became the most visible means through which vulnerability to shame was converted into a defiant witness of identity this was also where the sacrificial death of the self exemplified by Christ s crucifixion was most explicitly appropriated by his followers Shame showed a more private face as well as Burrus demonstrates The ambivalent lure of fleshly corruptibility was explored in the theological imaginary of incarnational Christology It was further embodied in the transgressive disciplines of saints who plumbed the depths of humiliation Eventually with the advent of literary and monastic confessional practices the shame of sin s inexhaustibility made itself heard in the revelations of testimonial discourse In conversation with an eclectic constellation of theorists Burrus interweaves her historical argument with theological psychological and ethical reflections She proposes finally that early Christian texts may have much to teach us about the secrets of shame that lie at the heart of our capacity for humility courage and transformative love
