what is now known about the historical development of Roman society and the essential structures of that community In a second introductory article Clifford Ando explains the chronological parameters of the handbook The main body of the book is divided into the following six sections 1 Mechanisms of Socialization primary education rhetorical education family law 2 Mechanisms of Communication and Interaction 3 Communal Contexts for Social Interaction 4 Modes of Interpersonal Relations friendship patronage hospitality dining funerals benefactions honor 5 Societies Within the Roman Community collegia cults Judaism Christianity the army and 6 Marginalized Persons slaves women children prostitutes actors and gladiators bandits The result is a unique up to date and comprehensive survey of ancient Roman society

The Gospel to the Romans Brian Incigneri, 2003-08-01 This book proposes that Mark's Gospel was written in Rome in late 71 after the return of the feared Titus who had recently destroyed the Jerusalem Temple Recognising that the use of emotional appeals was a prime contemporary rhetorical tool it shows the Gospel to be an emotionally charged text aimed at readers traumatised by years of persecution fear of arrest and intra community tensions over the forgiveness of those who had failed It examines the political social and religious situation and shows that the Gospel contains allusions to many recent events of concern to Christians Mark stirs their fears and painful memories to move them to a new resolve providing a model for them Jesus the first martyr for the gospel

History, Culture, and Religion of the Hellenistic Age Helmut Koester, 2012-10-25 While the first American edition of this book published more than a decade ago was a revised translation of the German book *Einführung in das Neue Testament* this second edition of the first volume of the Introduction to the New Testament is no longer

dependent upon a previously published German work The author hopes that for the student of the New Testament it is a useful introduction into the many complex aspects of the political cultural and religious developments that characterized the world in which early Christianity arose and by which the New Testament and other early Christian writings were shaped

Introduction to the New Testament Helmut Koester, 1995 **Christian Persecution, Martyrdom, and Orthodoxy** Geoffrey Ernest Maurice De Ste. Croix, 2006-09-28 This volume brings together seven seminal papers by the great radical historian Geoffrey de Ste Croix who died in 2000 on early Christian topics with an especial focus on persecution and martyrdom Christian martyrdom is a topic which conjures up ready images of inhumane persecutors confronted by Christian heroes who perish for the instant but win the long term battle for reputation In five of these essays Ste Croix scrutinizes the evidence to reveal the significant role of Christians themselves first as volunteer martyrs and later after the triumph of Christianity in the early fourth century as organizers of much more effective persecutions A sixth essay pursues the question of the control of Christianity through a comprehensive study of the context for one of the Church's most important and divisive doctrinal decisions at the Council of Chalcedon AD 451 the key role of the emperor and his senior secular officials is revealed contrary to the prevailing interpretation of Church historians Finally the attitudes of the early Church towards property and slavery are reviewed to show the divide between the Gospel message and actual practice **Beginning from Jerusalem** James D.G. Dunn, 2009-03-16 Beginning from Jerusalem covers the early formation of the Christian faith from 30 to 70 C E After outlining the quest for the historical church parallel to the quest for the historical Jesus and reviewing the sources James Dunn follows the course of the movement stemming from Jesus beginning from Jerusalem He opens with a close analysis of what can be said of the earliest Jerusalem community the Hellenists the mission of Peter and the emergence of Paul Then Dunn focuses solely on Paul the chronology of his life and mission his understanding of his call as apostle and the character of the churches that he founded The third part traces the final days and literary legacies of the three principal figures of first generation Christianity Paul Peter and James the brother of Jesus Each section includes detailed interaction with the vast wealth of secondary literature on the many subjects covered *Paul, The Apostle of Obedience* Jason A. Myers, 2022-08-25 Jason A Myers reconsiders the meaning and context of the phrase the obedience of faith in Rom 1:5 and how it contributes to the theme of obedience in Romans In contrast to previous studies that have nearly exclusively focused on the obedience language in light of the Hebrew Bible and Second Temple literature Myers instead investigates how this language functioned within the Greco Roman world particularly in the discourse of the Roman Empire By studying both the Greco Roman contexts and the use of obedience language during the Empire Myers sheds fresh light on the meaning of the obedience of faith and concludes that such examination helps contemporary readers understand how Gentiles in Paul's audience would have heard and received the terms and images relating to obedience In addition he argues that Paul's use of obedience language both at the beginning and end of Romans 1:5 15:18 serves as rhetorical bookends and signals a theme

that is central to Paul's purpose in Romans and integral to his calling as an apostle to the Gentiles
