Romance Of Adultery Queenship And Sexual Transgression In Old French Narratives:

The Romance of Adultery Peggy McCracken, 1998-03-29 Peggy McCracken offers a feminist historicist reading of Guenevere Iseut and other adulterous queens of Old French literature and situates romance narratives about queens and their lovers within the broader cultural debate about the institution of queenship in twelfth and thirteenth century France. Moving among a wide selection of narratives that recount the stories of queens and their lovers, McCracken explores the ways adultery is appropriated into the political structure of romance. McCracken examines the symbolic meanings and uses of the queen's body in both romance and the historical institutions of monarchy and points toward the ways medieval romance contributed to the evolving definition of royal sovereignty as exclusively male.

Old French Narrative Cycles Luke Sunderland, 2010 This is a study of four colossal medieval works: the Cycle de Guillaume d'Orange, the Vulgate Cycle, the Prose Tristan, and the Roman de Renart, that are normally considered separately. By placing them side by side for analysis, Luke Sunderland is able to argue for an aesthetic of cyclicity that cuts across genre. He combines detailed readings of the narrative infrastructure of each cycle with attention to the shifts and transformations that come with successive acts of rewriting.

Heresy and the Making of European Culture Dr Andrew P. Roach, Dr James R. Simpson, 2013-10-28 Scholars and analysts seeking to illuminate the extraordinary creativity and innovation evident in European medieval cultures and their afterlives have thus far neglected the important role of religious heresy. The papers collected here, reflecting the disciplines of history, literature, theology, philosophy, economics, and law, examine the intellectual and social investments characteristic of both deliberate religious dissent such as the Cathars of Languedoc, the Balkan Bogomils, the Hussites of Bohemia, and those who knowingly or unknowingly bent or broke the rules, creating their own unofficial orthodoxies. Attempts to understand, police, and eradicate all these through methods such as the Inquisition required no less ingenuity. The ambivalent dynamic evident in the tensions between coercion and dissent is still recognisable and productive in the world today.

The Erotics of Grief Megan Moore, 2021-09-15 The Erotics of Grief considers how emotions propagate power by exploring whose lives are grieved and what kinds of grief are valuable within and eroticized by medieval narratives. Megan Moore argues that grief is not only routinely eroticized in medieval literature but that it is a foundational emotion of medieval elite culture. Focusing on the

concept of grief as desire Moore builds on the history of the emotions and Georges Bataille's theory of the erotic as the conflict between desire and death one that perversely builds a sense of community organized around a desire for death The link between desire and death serves as an affirmation of living communities Moore incorporates literary visual and codicological evidence in sources from across the Mediterranean from Old French chansons de geste such as the Song of Roland and La mort le roi Artu and romances such as Erec et Enide Philomena and Floire et Blancheflor to Byzantine and ancient Greek novels to Middle English travel narratives such as Mandeville's Travels In her reading of the performance of grief as one of community and remembrance Moore assesses why some lives are imagined as mattering more than others and explores how a language of grief becomes a common language of status among the medieval Mediterranean elite

Love Cures Laine E. Doggett, 2012-04-30 What is love Popular culture bombards us with notions of the intoxicating capacities of love or of beguiling women who can bewitch or heal to the point that it is easy to believe that such images are timeless and universal Not so argues Laine Doggett in Love Cures Aspects of love that are expressed in popular music such as love is a drug sexual healing and love potion number nine trace deep roots to Old French romance of the high Middle Ages A young woman heals a poisoned knight A mother prepares a love potion for a daughter who will marry a stranger in a faraway land How can readers interpret such events In contrast to scholars who have dismissed these women as fantasy figures or labeled them witches Doggett looks at them in the light of medical and magical practices of the high Middle Ages Love Cures argues that these practitioners as represented in romance have shaped modern notions of love Love Cures seeks to engage scholars of love marriage and magic in disciplines as diverse as literature history anthropology and philosophy

Taylor, 2006 French novels such as Madame Bovary and The Stranger are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization *Kinship in Old Norse Myth and Legend* Katherine Marie Olley, 2022 This

wide ranging study offers a new understanding of Old Norse kinship in which the individual self was expanded to encompass its kin Family interactions in Old Norse myth and legend were often fraught competitive even violent as well as loving protective and supportive Focusing particularly on intergenerational relationships in the legendary sagas the Poetic Edda and Snorra Edda this book reveals not only why ambivalence was so characteristic of mythic heroic kinship relations but how they were able to endure even thrive in spite of such pressures Close attention is paid to the way gender inflects the dynamic between parents and their children and to the patronymic naming system which prevailed in Old Norse society while outdated assumptions about the existence of a special relationship between a man and his sister's son inherited from earlier Germanic society are reassessed for the first time in decades What emerges from this wide ranging study is a new understanding of Old Norse kinship as a dynamic transpersonal process rather than a presocial fact in which the individual self was expanded to encompass its kin Taking the lead from recent anthropological research into kinship and with exciting implications for our understanding of Old Norse personhood emotions and the life course this book challenges its readers to rethink many of the basic ontological assumptions which they bring to their interpretations of Old Norse myth and legend
