## Romantic Art Theories:

**Romantic Art Theories** August K. Wiedmann, 1986      Music Theory in the Age of Romanticism Ian Bent, 1996-08-28

Twelve brilliant historians of theory probe the mind of the Romantic era in its thinking about music      *Modern Theories of Art* Moshe Barasch, 1990 An analytical survey of the thought about painting and sculpture as it unfolded from the early 18th to the mid 19th centuries This was the period during which the intellectual foundations of our modern views on the arts was formed Barasch traces for the reader the entire development of modernism in art and art theory Lightning Print On Demand

Title      **Theories of Art** Moshe Barasch, 2013-10-18 This second book in Moshe Barasch's series on art theory surveys the development of the field from the early eighteenth to the mid nineteenth centuries During this period theories of the visual arts particularly of painting and sculpture underwent a radical transformation as a result of which the intellectual foundations of our modern views on the arts were formed Because this transformation can only be understood within the context of cultural aesthetic and philosophical developments of the period Barasch surveys the opinions of the artists as well as the doctrines of philosophers poets and critics He thus traces for the reader the entire development of modernism in art and art theory      *Romantic Irony* Frederick Garber, 1988-01-01 This is the first collaborative international reading of irony as a major phenomenon in Romantic art and thought The volume identifies key predecessor moments that excited Romantic authors and the emergence of a distinctly Romantic theory and practice of irony spreading to all literary genres Not only the influential pioneer German British and French varieties but also manifestations in northern eastern and southern parts of Europe as well as in North America are considered A set of concluding syntheses treat the shaping power of Romantic irony in narrative modes music the fine arts and theater innovations that will deeply influence Modernism Thus the cross cultural and interdisciplinary approach elaborated in the twenty chapters of *Romantic Irony* as lead volume in the five volume Romanticism series establishes a significant new range for comparative literature studies in dealing with a complex literary movement SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents *Romantic Irony* sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams *Romantic Drama* traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles

like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

*Theories of Art: From Winckelmann to Baudelaire* Moshe Barasch, 2000 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out this valuable resource

*Modern Theories of Art 1* Moshe Barasch, 1990-01-01 This is an analytical survey of the thought about painting and sculpture as it unfolded from the early eighteenth to the mid nineteenth centuries This was the period during which theories of the visual arts particularly of painting and sculpture underwent a radical transformation as a result of which the intellectual foundations of our modern views on the arts were formed Because this transformation can only be understood when seen in a broad context of cultural aesthetic and philosophical developments of the period Moshe Barasch surveys the opinions of the artists and also treats in some detail the doctrines of philosophers poets and critics Barasch thus traces for the reader the entire development of modernism in art and art theory

*Romantic Theory* Leon Chai, 2006-07-31 Publisher description

*Semiotics and Art Theory* Madeleine Schechter, 2008

*Symbolist Art Theories* Henri Dorra, 1994 Presents the development and the aesthetic theories of the symbolist movement in art and literature

**A Companion to Art Theory** Paul Smith, Carolyn Wilde, 2008-04-15 The Companion provides an accessible critical survey of Western visual art theory from sources in Classical Medieval and Renaissance thought through to contemporary writings

*The Romantic Ideology* Jerome J. McGann, 1985-02-15 Claiming that the scholarship and criticism of Romanticism and its works have for too long been dominated by a Romantic ideology by

an uncritical absorption in Romanticism's own self-representations Jerome J McGann presents a new critical view of the subject that calls for a radically revisionary reading of Romanticism In the course of his study McGann analyzes both the predominant theories of Romanticism those deriving from Coleridge Hegel and Heine and the products of its major English practitioners Wordsworth Coleridge Shelley and Byron are considered in greatest depth but the entire movement is subjected to a searching critique Arguing that poetry is produced and reproduced within concrete historical contexts and that criticism must take these contexts into account McGann shows how the ideologies embodied in Romantic poetry and theory have shaped and distorted contemporary critical activities

*From Romanticism to Critical Theory* Andrew Bowie, 2012-10-12 *From Romanticism to Critical Theory* explores the philosophical origins of literary theory via the tradition of German philosophy that began with the Romantic reaction to Kant It traces the continuation of the Romantic tradition of Novalis Friedrich Schlegel and Schleiermacher in Heidegger's approaches to art and truth and in the Critical Theory of Benjamin and Adorno Andrew Bowie argues against many current assumptions that the key aspect of literary theory is not the demonstration of how meaning can be deconstructed but rather the revelation of how questions of language and literature change modern philosophical conceptions of truth He shows how the dialogue between literary theory hermeneutics and analytical philosophy can profit from a re-examination of the understanding of language truth and literature in modern German philosophy *From Romanticism to Critical Theory* will provide a vital new introduction to central theoretical questions for students of philosophy literature German studies cultural and social theory

**Making Theory/Constructing Art** Daniel Herwitz, 1993-11 Artists and critics regularly enlist theory in their creation and assessment of artworks but few have scrutinized the art theories themselves *Making Theory Constructing Art On the Authority of the Avant Garde* is among the first philosophical texts to provide a close encounter with this theoretical tendency in twentieth-century art and aesthetics exploring the norms assumptions historical conditions and institutions that have framed the development and uses of theory in art In a series of intricate readings of constructivism Mondrian and John Cage Daniel Herwitz outlines the avant-garde's belief that theory can perfectly prefigure the avant-garde art object and invest it with utopian force Through similarly insightful treatments of Arthur Danto Andy Warhol Jean-François Lyotard Jean Baudrillard and postmodern art and theory Herwitz demonstrates how the contemporary art world is heir to the avant-garde's theoretical assumptions and practices In fact avant-garde art objects live as art only by partly resisting the master theories of their makers and interpreters Skillfully resisting the lure of grand theory himself Herwitz urges the art world to be more self-critical and self-reflective about its uses of theory *Making Theory Constructing Art* is as accessible and entertainingly written as it is philosophically incisive Since the book is both a philosophical and a cultural encounter with theory in twentieth-century art it will engage all those who have tried to grapple with the inscrutability of the theoretical art muse

*The Art of Authorial Presence* Gary Richard Thompson, 1993 The critical literary world has spent a wealth of thought and words on the

question of Hawthorne himself Where does he stand in his works In history In literary tradition In this major new study G R Thompson recasts the Hawthorne question to show how authorial presence in the writer s works is as much a matter of art as the writing itself The Hawthorne who emerges from this masterful analysis is not as has been supposed identical to the provincial narrator of his early tales instead he is revealed to be the skillful manipulator of that narrative voice an author at an ironic distance from the tales he tells By focusing on the provincial tales as they were originally conceived as a narrative cycle Thompson is able to recover intertextual references that reveal Hawthorne s preoccupation with framing strategies and variations on authorial presence The author shows how Hawthorne deliberately constructs sentimental narratives only to deconstruct them Thompson s analysis provides a new aesthetic context for understanding the whole shape of Hawthorne s career as well as the narrative ethical and historical issues within individual works Revisionary in its view of one of America s greatest authors **The Art of Authorial Presence** also offers invaluable insight into the problems of narratology and historiography ethics and psychology romanticism and idealism and the cultural myths of America **Art in Theory** George Lansing Raymond,1894 **The literary Theories of August Wilhelm Schlegel** Ralph W.
