Romanticism And Evolution:

Marking Time Joel Faflak, 2017 Scholars have long studied the impact of Charles Darwin's writings on nineteenth century culture. However few have ventured to examine the precursors to the ideas of Darwin and others in the Romantic period. Marking Time edited by Joel Faflak analyses prevailing notions of evolution by tracing its origins to the literary, scientific and philosophical discourses of the long nineteenth century. The volume's contributors revisit key developments in the history of evolution prior to *The Origin of Species* and explore British and European Romanticism's negotiation between the classic idea of a great immutable chain of being and modern notions of historical change. Marking Time reveals how Romantic and post-Romantic configurations of historical, socio-cultural, scientific and philosophical transformation continue to exert a profound influence on critical and cultural thought.

Romanticism in National Context Roy Porter, Mikulas Teich, 1988-05-27 Special emphasis is placed on the interplay between Romantic culture and social, political and economic change in this study of the course of Romanticism in various European countries. Political Liberalism and the Rise of American Romanticism Scott M. Reznick, 2024-07-18 Political Liberalism and the Rise of American Romanticism explores how American Romanticism developed in response to pervasive conflicts over democracy's moral dimensions in the early republic and antebellum eras. By recovering the long under-examined tradition of political liberalism for literary studies, it traces how US writers reacted to ongoing moral and political conflict by engaging with liberal thinkers and ideas as they endeavored to understand how individuals beholden to a divergent array of moral convictions might nevertheless share a stable and just political world, the very dilemma at the core of political liberalism. This study demonstrates how those philosophical engagements sparked Romanticism's rise and eventual flourishing as US writers increasingly embraced Romantic literary modes emphasizing the imagination's capacity for creative synthesis and the role it plays in shoring up the habits of mind and feeling that are vital to a meaningful democratic culture. It offers revisionary readings of works by Charles Brockden Brown, Robert Montgomery Bird, James Fenimore Cooper, Harriet Beecher Stowe, Frederick Douglass and Nathaniel Hawthorne to show how these Romantic writers were preoccupied with how individuals come to embrace their deepest convictions and what happens when they encounter others who see the world differently. *Romanticism and Slave Narratives* Helen Thomas, 2000-04-27 The first major attempt to relate canonical Romantic texts to writings of the African diaspora. Romantic Poetry Angela Esterhammer, 2002-01-01 Romantic Poetry encompasses twenty-seven new essays by prominent scholars on the influences and interrelations among Romantic movements throughout Europe and the Americas. It provides an expansive overview of

eighteenth and nineteenth century poetry in the European languages The essays take account of interrelated currents in American Argentinian Brazilian Bulgarian Canadian Caribbean Chilean Colombian Croatian Czech Danish English Estonian Finnish French German Greek Hungarian Irish Italian Mexican Norwegian Peruvian Polish Romanian Russian Serbian Slovak Spanish Swedish and Uruguayan literature Contributors adopt different models for comparative study tracing a theme or motif through several literatures developing innovative models of transnational influence studying the role of Romantic poetry in socio political developments or focusing on an issue that appears most prominently in one national literature yet is illuminated by the international context This collaborative volume provides an invaluable resource for students of comparative literature and Romanticism SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age Germany and its evolution in modern Henri
